Kaj je s Hitlerjem...? Je-li mrtev, blazen ali ga je čas potisnil na stran?

NAPISAL DONALD BELL

Hitler ni mrtev. Hitler je le postal v nacističnem tretjem rajhu slammati mož pravih mogotcev — v poslu, ki je precej podoben vlogi, katero je igral pred enajstimi leti maršal Hindenburg. Glavna moč je danes v rokah Heinricha Himmlerja, ki z železno roko vlada Nemčijo pod zaščito "izposojenega" imena nominalnega poglavarja države.

Himmler je oni, ki je imel prvi idejo, da mora nacistična stranka pod zemljo, nadaljevati svoje delovanje v podtalnem gibanju najmanj za 10 let — nakaž bo zopet čas za to, da ponovno poskusi dobiti oblast v roke.

To so zaključki, do katerih privede, ako pazljivo premislite zadnje dogodke v Nemčiji, Hitlerjevo proklamacijo za takozvani nemški "Volkssturm" — Narodna obramba — in vse okolnosti.

Postaviti je treba troje vprašanj — prvo, zakaj ni Hitler govoril sam? — drugo, zakaj ni raje molčal tudi v naprej, mesto da bi poslal Himmlerja govoriti na svojem mestu? — tretje, kaj nam pove ta proklamacija sama?

Nemci pravijo, da Hitler ni govoril sam, ker ni imel časa, radi prevelikega bremena poslovanja v glavnem stanu. Toda, kaj se nahaja ta Hitlerjev glavni stan? Mnenje prevladuje, da je v Berchtesgadenu. Tudi ako je kje drugje, je na vsak način na nemških tleh, kajti vojaški dogodki so prisilili Hitlerja, da se umakne na nemška tla. Ako pa je tako — in nobenega dvoma ne more biti o tem, da je — potem si je težko misliti, da ne bi imel Hitler v svojem glavnem stanu v Nemčiji na razpolago vseh potrebnih olajšav za radio govore... Pomisliti je treba tudi, da je najtežji del vsakega govora sestava, to je, izdelava govora — govoriti pol ure ali tudi eno uro pred mikrofonom ni velika težava. Hitlerju bi bilo torej mnogo lažje, prepustiti komu drugemu skrb, da napiše njegov govor, in govoriti sam, mesto da bi, kot trdi, sam napisal govor in prepustil Himmlerju skrb in nalogo, da ga prečita.

Kaj se je torej zgodilo? Ali je morda Hitler res mrtev kot trdi nekatera poročila? Resnično je, da ni več črnil nobene besede od ranega jutra dneva, ko je bil izvršen atentat nanj. Njegov glas je zvenel takrat razburjen in vznemirljen, toda bil je njegov glas.

Od takrat naprej so nemški listi prinašali od časa do časa njegove slike, kot na primer njegov pozdrav Ante Paveliću, ki ga je prišel obiskat. Tudi fotografirani posnetki so videti pristni.

Verjeti je tudi, da bi bila Goebbels in Himmler izdelala proklamacijo večjega obsega in bolj izdelava, ako bi bil Hitler za res mrtev.

Zanimivo pa je naslednje: Dne 8. novembra so dobili časnikarji nevtalnih dežel uradno sporočilo, da bo Hitler najbrže govoril na dan obletnice monarhovega puča. To je največ do-

Cpl. Frank Wolf, sin Mr. in Mrs. Leo Wolf, 14703 Sylvia Ave., je prišel domov na dopust iz Camp Crooke, Neb. V sredo odide zopet na novo službeno mesto. Prijatelji so vabljeni, da ga obišejo na domu.

Na dopustu se nahaja Edward Dodick, sin Mr. in Mrs. Dodick, 15901 Corsica Ave. Doma bo ostal za osem dni, in prijatelji ga lahko obišejo.

Družina Dodick ima poleg njega še dva druga sinova pri vojakih. Starejši, Pfc. Joe se nahaja preko morja, in njegov naslov je: Pfc. Joe Dodick, A. S. N. 35313741, 486th Serv. Sq., A.P.O. 149, c/o Postmaster New York, N. Y.

Njih mlajši sin Victor je pa zopet v San Diego, kamor je bil poslan po treningi v Oklahomi.

in zdaj je Goebbels poskušal s enkrat pokazati Hitlerja, da bi postavil na laž te trditve. Toda Hitlerja ni bilo. Vse, kar je mogel storiti, je bilo to, da je pokazal proklamacijo, ki nekoliko diši po Hitlerju, ki pa ni odpravila vseh dvomov v dušah slušalcev.

Toda potreba, katero je mogoče čutiti Goebbels, da odgovori angleški propagandi, ni zadostna razloga za obširnost te proklamacije in njeno vsebino. Še nekaj drugega je moralo biti. Ne smemo pozabljati, da so sloni vsa nacistična zgradba na prisegi zvestobe Hitlerju kot Fuehrerju nemškega rajha. Nobeden nacističnih prvakov ni ma nobene oblasti, ako mu je ni dal Hitler sam, ki je vir vse autoritete. Cilj proklamacije pa je bil, pokazati nemškemu narodu, da je Himmler tisti človek, kateremu je dal Hitler polnomoč za vse — polnomoč, da ga nadomešča. To je važno, kajti prej je veljal Goering za nadomestnika Hitlerja.

Nebistveno je vprašanje, dali je Hitler sam napisal govor ali ne. Proklamacija je pisana v prvi Hitlerjevo prozi in izražala tudi prave Hitlerjeve ideje — ali je vse to pristno ali ne, je nevažno. Oboje je precej lahko ponaređiti. Z vsjo jasnostjo pa je izražena v tej proklamaciji politika, katero imata Hitler in Himmler. Značilno je, da proklamacija niti ne omenja vojaške situacije, in da so zunanje-politična vprašanja le na kratko omenjena.

Pravi namen proklamacije je bil le strahovati notranjo opozicijo — kot to dokazujejo naničgovanja o egoizmu razredov, kot pri delavcih, in malodušnosti aristokracije.

Morda največ pa nam pove primerjanje med situacijo nacistične stranke v novembru leta 1923 in zdaj. Stranka je bila takrat razbita in je morala je začela z vedno večjim poučarkom postavljati vprašanje, kje je, in kaj dela, češ, Fuehrer je končal svojo vlogo. Takrat je Hitler imel najkrajši govor vsa njegova življenja. Tudi pozneje se je to še ponovilo —

★ Stalin odobril načrt za novo Jugoslavijo ★

MOSKVA 24. novembra. — Nocoj je bilo tu uradno naznanjeno, da je premier-maršal Josip Stalin odobril sporazum med maršalom Titom in dr. Ivanom Šubašičem, premierjem jugoslovanske zamejne vlade, za "novo, demokratično federativno Jugoslavijo."

Neki visok jugoslovanski vir je v tej zvezi izjavil, da je gotovo, da bo maršal Tito novi premier Jugoslavije, dočim imajo Šubašič in vsi člani njegovega kabineta dobiti važne pozicije pri novi vladi.

Nenavadna "trikotna afera" v Angliji

Poročnik je postal oče otroka z "drugo žensko" z dovoljenjem lastne žene

LONDON, 24. novembra. — Britsko vojaško sodišče je danes imelo pred seboj eno najbolj nenavadnih "trikotnih afer", kar jih pomni kronika. Na zatožni klopi sedita poročnik Herbert Leak in prostak z imenom MacFarlane. Obtožena sta obnašanja, ki je v nasprotju z redom in disciplino v oboroženih silah.

Fakti v čudni aferi so sledeči: Poročnik Leak ima mlado in lepo ženo, ki pa ne more imeti otro. Izrazila je željo, da bi ji mož dal otroka, dasiravno bi otroka rodila druga ženska. Poročnik je o stvari potem govoril s prostakom MacFarlaneom, ki je tudi oženjen, in predlagal, da bi žena slednjega postala mati njegovega otroka. Prostak je potem zadevo predložil svoji ženi, ki je bila zadovoljna, nakaž se je Mrs. MacFarlane sama približala poročniku in mu povedala, da je z načrtom zadovoljna.

Mrs. Leak je pred vojaškim sodiščem izpričevala: "Jaz in mož sva dostikrat govorila, da bi imela rada otroke. Meni sami je bilo veliko na tem, da bi imela otroka, ampak ker ne morem zanositi, sem vsaj hotela otroka, kateremu bi bil moj mož oče."

Izpričevala je dalje, da ko ji je mož preteklega marca povedal, da je Mrs. MacFarlane pripravljena zanositi z njim, je takoj odobrila načrt. Poročnik Leak je izpričeval, da je njegova žena vzela Mrs. Leak pod svojo oskrbo, čim je zanosila, in da je napravila vse načrte za oskrbo otroka, kadar bo rojen. Vojaško sodišče ima zadevo

Mikolajczyk odstopil kot poljski premier

LONDON, 24. novembra. — Stanislaw Mikolajczyk je danes položil resignacijo kot ministrski predsednik poljske zamejne vlade, potem ko se je ponesrečil njegov poizkus, da bi pridobil podporo svojega kabineta za program, na podlagi katerega naj bi se rešil mejni spor med Rusijo in poljsko vlado v Londonu.

Uradno naznanilo pravi, da je predsednik Wladyslaw Rackiewicz sprejel Mikolajczykovo resignacijo, potem pa da je poveril Jana Kwapinskija, socialista, ki je do sedaj zavzemal mesto pomožnega premierja, da sestavi novo vlado.

Mikolajczyk in ostali člani njegovega kabineta so bili obenem prošeni, da ostanejo na svojih mestih, dokler ne bo formiran novi kabinet.

Kakor se razume, je Mikolajczyk zaman apeliral na člane svojega kabineta, da pristanejo na ruske zahteve, da vzhodna poljska meja sledi v splošnem takozvani Curzonovi liniji.

STRASBOURG JE SKORO VES V ZAVEZNIŠKI OBLASTI; PATROLE SO BAJE ŽE PREKORALE RENO

PARIZ, 24. novembra. — Strasbourg je bil nocoj skoro ves v oblasti zavezniških sil, kjer se Nemci edino še na enem malem mostiču zoperstavlja francoskim oklopnim silam in ameriški infanteriji, medtem ko nepotrjena poročila pravijo, da so zavezniške patrole na eni točki prekoračile Reno, kar bi pomenilo, da je bila Rena prvič izza Napoleonovih dni prekoračena od sovražne vojske.

"United Press" brzojavke javljajo, da so veliki ameriški topovi začeli bombardirati nemške utrde na vzhodnem bregu Rene kot predpriprava za veliki zavezniški napad preko velike reke.

Med tem ko so nemško govorilci prebivalci Strasbourga sprejeli zmagovalne zavezniške sile z mešanimi občutki, so se erte na severnem koncu fronte, na planoti pred Koelnom, šibile pod udarci in protitudarci, ko so Nemci vrgli v boj 10 do 12 divizij proti trem zavezniškim armadam v največji bitki, ki jo je še videla zapadna fronta.

Kar se tiče tankov samih, se splošno priznava, da so novi nemški "Tiger" tanki, ki so pokriti s sedem palcev debelim oklopi, boljši kot kateri tanki, ki jih imajo danes bodisi Amerikanci ali Angleži.

Ako bi Amerikanci ne imeli v tej bitki tankovih uničevalcev s 99-mm topovi, bi ne bili kos nemški oklopni sili. Ta bitka je dokazala, da 75mm kroglice iz ameriških "Sherman" tankov odletijo od jeklenega odboda novih nemških tankov, toda krogla iz 90-mm topa, s katerimi so opremljeni uničevalci tankov, je za "Tiger" tanke usodna.

Izčrpi iz igre "Mati" vprizorjene jutri popoldne v SDD na Waterloo Rd.

Minca: To znajo. To je njih junaštvo, s katerim se tako radi postavljajo: razbijati hiše, ubijati nedolžne ljudi in odvajati cele družine v internacijo, v lakoto in smrt, cele procesije starcev in žena, ki so se jih otroci držali za krila.

Peter: Človek pa naj gleda vse to s prekržanimi rokami in naj živi lepo dalje v svojem miru, kakor da se na svetu ne dogaja nič važnega, nič velikega. Kako naj človek zdrži doma?

In zopet drugod: Peter: Če je obramba naših vasi pred laškimi razbojniki in požigalci komunizem, potem naj živi komunizem. Če je boj proti tujcu, ki strelja naše ljudi, komunizem, potem postanem tudi jaz komunista.

MISS DOROTHY ANN SVIGEL
IN INITIAL CONCERT

A young, talented, Slovene-born singer presents her benefit concert tomorrow evening at 7:30 p. m. at Slovenian National Home on St. Clair Ave. She is Dorothy Ann Svigel, daughter of the well-known soprano, Mrs. Anna Petrovic Svigel.

Upon being interviewed, Miss Svigel stated that the sole purpose of her benefit concert is to further her studies in languages and enrich her musical knowledge.

Dorothy's background is surrounded by music. Both her parents were great singers winning their popularity among the Slovenes. You may remember Dorothy's first appearance at the age of five when she won everyone's heart singing at Grandma's hall. Later she sang with the Slovenian children's chorus, "Slavki." Reaching her teens, Miss Svigel joined Barabara Glee Club and the St. Vitus Church Choir, "Lira." At present she is a member of Glasbena Matica.

Her spare time has been devoted to the study of voice and music under the leadership of Mrs. Florence B. Gerkin, prominent Cleveland singer and instructor. Mrs. Gerkin clearly states that her life's ambition is to present Dorothy to the public and help her reach the final goal to success.

This ambitious seventeen-year-old miss is promising us, the Slovenian public, a truly interesting and entertaining time tomorrow evening at Slovene Home.

For her program, Miss Svigel has selected operatic excerpts from La Traviata, and Barber of Seville. On the lighter side she has chosen many beautiful American Ballads and is concluding her program with colorful Slovenian tunes.

As Slovenes and as friends, let us all be on hand to witness her greatest performance and help her reach her ultimate goal.

FIRST BIOGRAPHY OF NIKOLA TESLA

The first biography of Nikola Tesla, the Yugoslav-American scientist who was the father of the modern electrical superpower system that made practicable the harnessing of Niagara Falls, and whose researches in electricity earned the Nobel Prize (which he declined) and the Edison Medal, was published November 15 under the title "Prodigal Genius."

The author of this biography is John J. O'Neill, Science Editor of the New York "Herald Tribune," who won a Pulitzer Prize in 1937 for his scientific writing, and was a friend of Tesla's for many years.

Tesla, who died in 1943 at the age of 87 in comparative poverty, was born in the village of Smiljan in Yugoslavia, and came to America in 1884 to work in the laboratories of Thomas A. Edison. He made his first million dollars when he sold the rights of his polyphase system of power transmission (utilizing alternating instead of direct current) to George Westinghouse. In subsequent years, his inventions and discoveries were covered by more than 100 patents. In 1898 in Madison Square Garden he demonstrated a boat operated by radio control—forerunner of robot mechanisms of today. In the same exhibition he demonstrated the first practical system of wireless transmission, the foundation of modern radio. This system he had described fully

in 1893, anticipating all other inventions in the field. In 1899 he built a laboratory in Colorado Springs from which he produced the first bolts of man-made lightning, and transmitted power through the earth without wires to a distance of 26 miles. In 1892 he demonstrated the first electronic tube. He was the pioneer in developing modern phosphorescent, fluorescent and neon tube types of electric lighting. The Tesla coil is one of his many contributions to the science of radio, and other researches laid the foundations for the modern science of electronics.

Mr. O'Neill's acquaintance with Tesla dates from the days when as a young boy he was employed as a page in the scientific section of the New York Public Library, to which Tesla was a frequent visitor. This friendship developed when Mr. O'Neill embarked on his career as a writer on scientific subjects. Tesla once remarked to him, "You understand me better than anyone else in the world."

Tesla's native country, Yugoslavia, honored him in 1936 by the opening on his 80th birthday of the Tesla Institute in Belgrade, devoted to the furthering of scientific research. Tesla became a naturalized American citizen during his years of residence in the United States.

Balkans Stated for Federation, Swiss Paper Says

Washington. — "It is gratifying to observe the sound realism with which the Russians are beginning to organize the future of the Balkans," the Swiss paper "Weltwoche" says in an article reported to OWI. "The Russians seem determined to prepare that great Balkan federation of southern Slavs which, in the long run, will be the only guaranty of law and order in the southeast of the European continent."

We believe, quite to the contrary, that their common and mutual interests will become stronger and stronger. To help the development in this direction, it is indeed necessary to create order and stability in all corners of Europe."

Three Slovenes Promoted in Yugoslav Army of Liberation

Washington. — Among the young generals recently promoted in the Yugoslav National Army of Liberation, three Slovenes were mentioned by the "Free Jugoslavia" radio in a dispatch reported to OWI.

According to the dispatch, the promoted officers are: Maj. Gen. Vlado Ambrozio, a former teacher and now commander of the Ninth Corps; Maj. Gen. Karel Marcio, formerly an officer in the Yugoslav army; and Maj. Gen. Dusan Kleber, "called Tomas in Slovenia," a former student of law and political commissar in the Spanish Republic army, and at present chief of the general staff in Slovenia.

Washington — The Free Yugoslav radio said on Oct. 31 that the Belgrade newspaper "Politika" was "appearing again" and that its first issue had featured a speech on the liberation of Belgrade delivered in Banjica by Marshal Josip Broz (Tito) and statements by officers who had led Partisan units in the battle for the capital.

First issues of the "free" newspaper are filled with articles "written in the spirit of the national liberation movement," according to the broadcast which was reported to OWI by the Federal Communications Commission.

"The very fact that the Russians support the idea of a strong federation of south Slavs indicates again that they are aiming not at an unlimited expansion toward the Mediterranean and western Europe, but that, quite to the contrary, they are planning to create between themselves and the western powers a link of strong and independent states which would be in position to smooth out any possibilities of future conflicts in the spheres of interest of Moscow and London. HELP HOLD PRICES DOWN

The rise in the cost of living has been stopped in its tracks for more than a year. But the danger of war-generated inflation continues as great as ever. You are, therefore, urged to (1) buy only what you need, (2) pay no more ceiling prices when you buy, (3) put your extra dollars into War Bonds and other savings, and (4) continue supporting wage-price stabilization. By doing these things now, every American can help hold prices down today, and help insure a stable, prosperous America when this war is won.

AMERICAN HEROES
by JULIAN OLLENDORFF

His company surprised by Japs in the early morning, Tech. Sgt. Henry G. Bohlen of Kansas leaped from his foxhole, killed six and wounded several more. That done he helped his buddies bring about the surrender of 125 and kill or wound another 45. Bravery won Bohlen a silver star. That kind of action will speed victory when supported by War Bond sales.
