1) Vir podatkov za EU je Evropska komisija; podatki so desezonirani. Podatki za zadnji mesec nam niso na voljo.  
Data source for EU is the European Commission; data are seasonally adjusted. Data for the last month are not available.

**METODOLOŠKA POJASNILA****Namen raziskovanja**

Namen kvalitativne Ankete o poslovnih tendencah v storitvenih dejavnostih (vprašalnik PA-STOR) je mesečno pridobivanje informacij o trenutnih stanjih glavnih ekonomskih kazalcev ter ocenitev njihovega gibanja v naslednjih mesecih. Rezultati anket so osnova za izračun kazalca zaupanja v storitvenih dejavnostih.

Panelno anketo o poslovnih tendencah v storitvenih dejavnostih izvajamo v Sloveniji od aprila 2002 s poenotenim vprašalnikom, na podlagi poenotene metodologije in z enako periodiko, kakor jo izvajajo v državah članicah Evropske unije že več desetletij; to omogoča neposredno primerljivost podatkov.

**Enote opazovanja**

Opazujemo podjetja, ki so po Standardni klasifikaciji dejavnosti (SKD) razvrščena v storitveno dejavnost, in sicer:

- 55 – Gostinstvo
- 60 – Kopenski promet; cevovodni transport
- 61 – Vodni promet
- 62 – Zračni promet
- 63.3 – Dejavnost potovalnih agencij in organizatorjev potovanj; s turizmom povezane dejavnosti
- 64 – Pošta in telekomunikacije
- 65 – Finančno posredništvo, razen zavarovalništva in dejavnosti pokojninskih skladov
- 66 – Zavarovalništvo in dejavnost pokojninskih skladov, razen obveznega socialnega zavarovanja
- 67 – Pomožne dejavnosti v finančnem posredništvu
- 70 – Poslovanje z nepremičninami
- 71 – Dajanje strojev in opreme brez upravljavcev v najem; izposojanje izdelkov široke porabe
- 72 – Obdelava podatkov, podatkovne baze in s tem povezane dejavnosti
- 73 – Raziskovanje in razvoj
- 74 – Druge poslovne dejavnosti
- 90 – Dejavnosti javne higiene
- 93 – Druge storitvene dejavnosti

Vzorec podjetij je oblikovan na podlagi dveh meril:

- razvrstitve storitvenega podjetja po SKD in
- velikosti storitvenega podjetja (števila zaposlenih po Zakonu o gospodarskih družbah).

**Vir podatkov**

Na vprašalnik PA-STOR odgovarjajo direktorji podjetij ali drugi vodilni delavci med 1. in 10. v mesecu.

**METHODOLOGICAL EXPLANATIONS****Purpose of the survey**

The purpose of the qualitative Survey on Business Tendency in Services (questionnaire PA-STOR) is to get monthly information about current situations of major economic indicators and to evaluate their movement in the following months. The survey results are the basis for evaluation of the confidence indicator in services.

We have been carrying out the Panel Survey on Business Tendency in Services in Slovenia since April 2002 with the harmonised questionnaire, methodology and periodicity, which have been used in EU Member States for several decades. Therefore, all data are directly comparable.

**Observation units**

We are monitoring units that are registered in services according to the Standard Classification of Activities:

- 55 – Hotels and restaurants
- 60 – Land transport; transport via pipelines
- 61 – Water transport
- 62 – Air transport
- 63.3 – Activities of travel agencies and tour operators; tourist assistance activities
- 64 – Post and telecommunications
- 65 – Financial intermediation, except insurance and pension funding
- 66 – Insurance and pension funding, except compulsory social security
- 67 – Activities auxiliary to financial intermediation
- 70 – Real estate activities
- 71 – Renting of machinery and equipment without operator and of personal and household goods
- 72 – Data processing, database activities and other computer related activities
- 73 – Research and development
- 74 – Other business activities
- 90 – Sewage and refuse disposal, sanitation and similar activities
- 93 – Other service activities

The sample of enterprises was selected by two criteria:

- classification of the enterprise according to the Standard Classification of Activities,
- size of the enterprise (the number of employees in accordance with the Companies Act).

**Data source**

Persons responding to the monthly PA-STOR questionnaire are managers of enterprises or other executives. They respond between the 1st and the 10th of the month.

## Zajetje

V panelni vzorec smo zajeli vsa velika in srednjevelika podjetja ter 12 % malih podjetij (ali 16 % zaposlenih v malih podjetjih), ki so razvrščena v storitveno dejavnost. Panelni vzorec pokriva 18 % podjetij vzorčnega okvira ali 70 % zaposlenih v storitvenih dejavnostih.

## Način zbiranja podatkov

Anketo izvajamo mesečno po pošti.

## Definicije in pojasnila

Ravnotežje je razlika med pozitivnimi in negativnimi odgovori, izraženimi v odstotkih. Ravnotežja prikazujejo gibanje opazovanih ekonomskih kazalcev (stanj in pričakovanj), ne pa dejanskih velikosti ekonomskih kazalcev. Grafikoni prikazujejo ravnotežja po posameznih vprašanjih.

**Kazalec zaupanja** je povprečje odgovorov (ravnotežij) na vprašanja o poslovnem položaju ter sedanjem in pričakovanem povpraševanju po storitvah.

## Objavljanje

Sodelujoči v anketi prejmejo mesečno informacijo o storitvenih dejavnostih.

Drugim uporabnikom so ti podatki prav tako dostopni na ravni storitvenih dejavnosti. Objavljamo jih mesečno v Statističnih informacijah in podatkovni bazi SI-STAT (<http://www.stat.si>).

## VPRAŠANJA

Poslovni položaj v zadnjih 3 mesecih: dober, zadovoljiv, slab?

Povpraševanje v zadnjih 3 mesecih: povečalo, ostalo enako, zmanjšalo?

Zaposlovanje v zadnjih treh mesecih: povečalo, ostalo enako, padlo?

Povpraševanje v naslednjih 3 mesecih: povečalo, ostalo enako, zmanjšalo?

Zaposlovanje v naslednjih 3 mesecih: povečalo, ostalo enako, zmanjšalo?

Prodajne cene v naslednjih mesecih: zvišale, ostale enake, znižale?

## KOMENTAR

Poslovne tendence v storitvenih dejavnostih so bile avgusta 2004 v primerjavi s preteklim mesecem za 6 odstotnih točk višje. Glede na isti mesec lanskega leta je bil kazalec ravno tako za 6 odstotnih točk višji, v primerjavi z lanskim povprečjem pa je bil višji za 4 odstotne točke.

## Coverage

The panel includes all large and medium-sized enterprises and 12% of small enterprises (or 16% employees of small enterprises), the principal activity of which is classified into services. The panel covers 18% of the enterprises of the studied population or 70% of employees in services.

## Method of data collection

The survey is carried out monthly by mail.

## Definitions and explanations

The balance is the difference between positive and negative answers, expressed in percent. The balance shows the movement of observed economic indicators (present situation and future expectations), and not the real size of economic indicators. The charts show the balance by individual questions.

The **confidence indicator** is the arithmetic mean of responses (balances) to the questions on business situation, and present and expected demand.

## Publishing

Persons participating in the survey get the monthly information on services.

Other users can also get data for services published monthly in Rapid Reports and in the SI-STAT database (<http://www.stat.si/eng>).

## QUESTIONS

Business situation over the past 3 months: improved, remained unchanged, deteriorated?

Demand over the past 3 months: increased, remained unchanged, decreased?

Employment over the past 3 months: increased, remained unchanged, decreased?

Demand over the next 3 months: increase, remain unchanged, decrease?

Employment over the next 3 months: increase, remain unchanged, decrease?

Prices over the next 3 months: increase, remain unchanged, decrease?

## COMMENT

In August 2004 business tendencies in services were up by 6 percentage points compared to the previous month. The confidence indicator was also up by 6 percentage points compared to August 2003 and by 4 percentage points compared to last year's average.

Na gibanje kazalca zaupanja je vplivala predvsem ocena poslovnega položaja.

Vsi kazalci so se izboljšali.

### POSLOVNI POLOŽAJ

Poslovni položaj se je v zadnjih treh mesecih v primerjavi s prejšnjim mesecem izboljšal, in sicer je bil kazalec za 6 odstotnih točk višji. Glede na isti mesec lanskega leta je bil kazalec nižji za 1 odstotno točko ter za 2 odstotni točki višji glede na lansko povprečje.

### POVPRAŠEVANJE

V zadnjih 3 mesecih je bilo povpraševanje po storitvah višje za 3 odstotne točke. Glede na isti mesec lanskega leta je bil kazalec za 16 odstotnih točk višji, lansko povprečje pa je presegel za 8 odstotnih točk. Po ocenah direktorjev se bo povpraševanje v naslednjih treh mesecih izboljšalo (za 11 odstotnih točk). Glede na avgust 2003 in lansko povprečje je bil kazalec pričakovanega povpraševanja za 3 odstotne točke višji.

### ZAPOSLOVANJE

V avgustu so direktorji ocenili, da se je zaposlovanje v zadnjih 3 mesecih povečalo. Kazalec zaposlovanja je bil za 1 odstotno točko višji kot prejšnji mesec. Glede na isti mesec lanskega leta je bil kazalec višji za 15 odstotnih točk, v primerjavi z lanskim povprečjem pa je bila vrednost kazalca višja za 14 odstotnih točk. Kazalec pričakovanega zaposlovanja je bil glede na pretekli mesec za 7 odstotnih točk višji. V primerjavi z istim mesecem lani se je pričakovano zaposlovanje povečalo za 23 odstotnih točk, glede na lansko povprečje pa je bilo višje za 14 odstotnih točk.

### PRODAJNE CENE

Direktorji ocenjujejo, da se bodo prodajne cene v storitvenih dejavnostih zvišale. Glede na pretekli mesec je bil kazalec pričakovanih prodajnih cen za 6 odstotnih točk višji ter za 4 odstotne točke višji kot avgusta lani. Za lanskim povprečjem pa je ta kazalec zaostal za 3 odstotne točke.

Statistično raziskovanje je sofinancirala Evropska komisija. Za objavljene podatke in besedila je odgovoren izključno Statistični urad Republike Slovenije in ne Evropska komisija.

The evolution of the confidence indicator was mostly influenced by the business situation.

All indicators improved.

### BUSINESS SITUATION

Compared to the previous month, the business situation in the past three months was better. The indicator was up by 6 percentage points. Compared to August 2003 it was down by 1 percentage point and compared to last year's average it was up by 2 percentage points.

### DEMAND

In the past three months demand for services was up by 3 percentage points. The indicator was up by 16 percentage points compared to August 2003 and by 8 percentage points compared to last year's average. Managers thought that in the next three months the demand would increase (by 11 percentage points). The expected demand indicator was up by 3 percentage points compared to August 2003 and compared to last year's average.

### EMPLOYMENT

According to managers' estimates in August 2004, employment rose in the past three months. The employment indicator was namely 1 percentage point higher than in the previous month, 15 percentage points higher than in August 2003 and 14 percentage points above last year's average. The expected employment indicator also improved. Compared to the previous month it was 7 percentage points higher. Compared to August 2003 it was up by 23 percentage points and compared to last year's average by 14 percentage points.

### SELLING PRICES

Managers estimated that selling prices would rise in the next few months. The indicator was 6 percentage points higher than in the previous month. Compared to August 2003 it was up by 4 percentage points and 3 percentage points below last year's average.

The business survey is co-financed by the European Commission. However, the European Commission accepts no responsibility or liability whatsoever with regard to the material published in this document.
