Izvoznice olja niso izgubile vere v dolar

Izvoznice olja vlagajo povprečno okoli 25% svojega viška, ki sicer precej naglo plahni, v ZDA.

svojega denarnega presežka in lišče Vernih duš. ga še vedno v nekako istem obsegu vlagajo.

Presežek je med tem začel naglo padati, leta 1976 je znašal 45 bilijonov, lani le še 35 bilijonov, za letos pà računajo, da ne bo presegel 20 bilijonov.

T naglo plahnenje presežka vrača v mednarodno gospodarstvo red in ustaljenost, ki ju pospešuje tudi obnova gospodarske rasti v industrijsko razvitih državah.

Dolar se je v zadnjih tednih precej popravil in utrdil, proti nemški marki in švicarskemu franku je nadoknadil okoli eno tretjino izgube v teku preteklih 12 mesecev.

Ceausescu v Pekingu o položaju v Evropi

PEKING, LR. Kit. - Predsednik Romunije Nicolae Ceausescu je v svojem govoru na svečanem sprejemu poudarjal romunski napor za izboljšanje političnih odnosov v Evropi Tam so sedaj ostra nasprotstva in soočenja med ogromnimi oboroženimi silami ter nasprotujočimi se vojaškimi bloki, ki predstavljajo hudo nevarnost miru, je dejal Romun svojim kitajskim gostiteljem.

Predsednik kitajske vlade in Partijski vodnik Hua Kuo-feng je hvalil v odgovoru romunsko prizadevanje za mir, pa dodal: "Na svetu so vedno ljudje, ki stremijo za gospodstvom. V prizadevanju za to vzdržujejo napetost in oboroževalno tekmo, ko skušajo drug nad drugim dobiti premoč."

Romunija je edina država sovjetskega bloka, ki je ohranila dobre odnose z LR Kitajsko, ko je prišlo med to in med Sovjetsko zvezo do preloma koncem petdesetih let.

Darežljivost v naši deželi se ni pozabljena čednost

WASHINGTON D.C. — Kljub porastu cen in življenjskih stroškov in kljub pritožbam nad visokimi davki, so ljudje v naši deželi na splošno še vedno voljni podpirati ustanove, ki so jim pri srcu. Tako je bilo v letu 1977 darovano za razne dobrodelne ustanove skupno 35 bilijonov dolarjev, 10% več kot v letu 1976.

Preko devet desetin vsega so darovali posamezniki in od tega okoli 60% verskim ustanovam. Korporacije so 39% svojih daril namenile zdravstvenim in splošnim dobrodelnim ustano-

Pogajanja za sestavo politične vlade so propadla največ zaradi vztrajanja vodnika desničarskih kristjanov Camilla Chamouna, bivšega predsednika republike, na zahtevi, da morajo politični predstavniki v novi vladl biti člani parlamentha ter da skrajni levičarski politiki ne morejo priti v vlado.

Predsednik Sarkis je izjavil, da bo pogajanja za sestavo poliične vlade nadaljeval.

ZAHODNA NEMČIJA STREMI K POMEMBNEJŠI VLOGI V NATO

Zvezna republika Nemčija je politično in gospodarsko najmočnejša država svobodnega dela Evrope in poleg ZDA tudi najmočnejša članica Severno-atlantske obrambne zveze. Kljub svoji politični in gospodarski moči ter kljub najštevilnejšim vojaškim oddelkom v Evropi Zvezna republika Nemčija vendar v NATO ne igra tiste vloge, ki bi ji po njeni lastni sodbi morala pripadati.

Nemci imajo še vedno do neke mere negotov občutek, ko vedo, da jih Francozi in Angleži še vedno gledajo in presojajo z nezaupanjem ob spominu na pretekli dve svetovni vojni in na vso nemško preteklost zadnjih sto let in več. Nemci niso pozabili na skupno državo, boli jih razdelitev nemškega naroda med zahodni in vzhodni svet in brez dvoma streme po narodnem zedinjenju, četudi javno o tem v zadnjih letih ni skoraj nič slišati. Nemški zavezniki v NATO v tem pogledu

nimajo z Nemci istih ciljev. V Parizu in v Londonu so nja sil, če bi do njega le pri-

prva desetletja po drugi svetovni vojni uradno zastopali stališče združene nemške države, dejansko pa se za uresničitev tega niso nikdar zavzeli. ZDA so bile v tem pogledu Nemcem nekaj naklonjenejše, vendar tudi te niso marale za nje iti čez drn in strn. Zvezna republika Nemčija je postala najmočnejša država svobodnega dela Evrope, gospodarsko, politično in stvarno tudi vojaško. Združena Nemčija bi z okoli 80 milijoni prebivalcev, pridnimi in delovnimi, ter z mogočnim gospodarstvom bila v Evropi prevladujoča sila, s katero se Velika Britanija in Francija ne bi mogli meriti. Nemci se zavedajo svoje

moči, pa tudi svojega težavnega položaja na meji med Zahodom in Vzhodom. Nemško ozemlje bi bilo bojišče, če bi prišlo do merjenja med Vzhodom in Zahodom v Evropi. Ko se trudijo, da bi nevarnost takega merjenja sil čim bolj zmanjšali, mislijo tudi na to, kako bi škodo takega merje-

šlo, čim bolj omejili. Za dosego tega cilja bi radi imeli pomembnejšo vlogo v vodstvu NATO, v pripravi obrambnih načrtov in pri odločanju načina oborožitve in bojevanja.

V Bonnu so v skrbeh za varnost, ko vidijo, kako Sovjetska zveza izpopolnjuje svojo oborožitev in oborožitev svojih zaveznic v varšavski zvezi, kako povečuje svoje kopne, letalske in pomorske sile. ZDA pa na to ne odgovarjajo, kot v Bonnu mislijo, da bi morale. Ni jim prav, da so ZDA opustile gradnjo novega strateškega bombnika B-1, skrbi jih odložitev gradnje nevtronskih bomb in omejevanje gradnje ameriškega vojnega brodovja.

Nemci vedo iz skušenj, kako pomembna je trdna zveza med Evropo in ZDA preko Atlantika za uspešno obrambo svobodnega dela Evrope pred morebitnim pritiskom z Vzhoda. Če ZDA ne bodo s svojimi zavezniki obvladovale severnega Atlantika, bo postal vojaški položaj v Evropi

nevzdržen, obramba svobodnega dela Evrope bi bila naglo v nevarnosti, da se zlomi. Nemci imajo v NATO glav-

no nalogo držati kopno fronto v Srednji Evropi ob sodelovanju zaveznikov, glavna težava v pogledu moštva je vendar na njih. Za to nalogo je tudi organizirano nemško vojno letalstvo, med tem ko so Nemci odgovorni v glavnem na morju le za Baltiško morje. Dokler so bile ZDA na morju močnejše od Sovjetske zveze, si v Bonnu niso preveč belili glave z vprašanjem varnosti na severnem Atlantiku, v zadnjih letih pa jih to vprašanje vedno bolj muči. Ko gledajo naraščanje sovjetske vojaške moči na kopnem, v zraku in na morju, se bolj in bolj zavedajo kočljivosti lastnega položaja. Počasi prodira med odgovornimi nemškimi vodniki misel, da se bodo morali za svojo varnost sami bolj potruditi, za njo več žrtvovati, pa imeti pri njenem izgrajevanju in vodstvu tudi pomembnejšo vlo-

Za izhod iz šolske krize

Testiranje šolarjev je samo delna in nepopolna rešitev za izhod iz šolske in splošne vzgojne krize v Ameriki, kakor smo dognali zadnjič, govoreč o tem vprašanju. Kje in kakšna so druga pota do uspešnega izboljšanja se-

Ko je admiral Hyman Rickover pričal o testiranju pred senatnim pododborom v Washingtonu in dokazoval pomembnost programa o "national minimum competency tests", je dejal med drugim tudi, da bodo z izvedbo testiranja na federalni osnovi "starši dobili možnost, da bodo držali učitelje in šole obračunljive (accountable) za kakovost njihovega dela". S to izjavo se je stari admiral zelo približal dvema, po mojem mnenju, temeljnima elementoma ameriškega vzgojnega problema. Prvi je nacionalna, oz. federalna osnova, na kateri naj se nakazuzujejo in obravnavajo ter končno odločajo fundamentalni principi (ne samo testiranje) vsenarodne šolske in je bore malo, - g. M. Glede nacionalno obsežne baze vzgojnega in izobraznega procesa bi jaz dejal, da je kar moč pravilna obdelava in rešitev za izgradnjo take baze že dolgo nujno potrebna. Vzgoja mladine v Ameriki je razbita in razdrobljena do zadnjih možnih drobcev. Imamo pravzaprav toliko vzgojnih sistemov, kolikor je držav v Federaciji, to rej 50. Kajti vsaka je na področju vzgoje in izobrazbe popolnoma neodvisna, suverena in avtonomna. Materinski dan in še kaj

Cleveland, O. - Lepo smo raznovali pri Mariji Vnebovzeti materinski dan. Pričeli smo ga obhajati zjutraj. Poudarek k materinskemu dnevu so dali otroci, ki so pri osmi sv. maši orepevali mile pesmice. Mladinski pevski zbor, ki šteje več ducatov mešane drobnjadi, se počasi kar lepo uveljavlja. Že par let sem se trudi in prizadeva s tem petjem g. Miha Vrenko. Remembrance is a golden chain, Death tries to break, but all in vain. To have and love and then part Is the greatest sorrow of our heart.

Time can wipe out many things But this it wipes out never: The memories of those happy days When we were all together.

In loving memory, from the family

Kako se izogniti ugrizu zime

Skoraj vsakdo rabi v zimskih mesecih več prirodnega plina, toda vsakdo ne plačuje višjih računov, ker je preko en četrt milijona potrošnikov plina East Ohio na proračunu.

Budget Billing (proračunsko obračunavanje) je naš način raztegniti vaše račune za plin enako preko vseh dvanajst mesecev. Na ta način veste, kaj pride in morete načrtovati. In enkrat na leto so obračunana vsa preplačila ali premajh na plačila

Če hočete na proračun, poglejte na rdeči krog na vašem računu za plin ta mesec, podpišite svoje ime in vrnite račun z vašim pla čilom. Na ta način vi ne boste čutili ugriza prihodnje zime tako močno.
