

BELI MENIHI

Povest iz prve polovice XII. stoletja
spisal IVAN ZOREC

V Malem Gabru se je oglašil pri Marinki in ji povedal, da ji je ondan le po Gorenjkovi prošnji preskrbel osvoboditev moža.

"Mislija sem, da si ga otelet."

"Gorenjko je želel, zato si ga dobila domov, to pomni," je dejal in povedal, kako je Kabilč neumno spet nagajal z zankami in nevarno napadal.

"Ne bo imel dobrega konca," je Marinka tožila.

"Pravkar se je s čakanom hotel zahvaliti tudi meni. Po naključju ali kako so ga obtem ujeli grofovi suličarji in ga odgnali, odkoder je prišel prekmalu."

Marinka je molče poslušala.

"Sam sebi nagaja, ne morem mu pomagati," je čez čas re-

kla.

"Tudi jaz ne več, ne prosim me!"

Spet je molčala.

"Vidiš, krotiti ga nisi znala; saj bi se bil podal, če bi pravše ravnala z njim."

"Mož mi je—nisem mogla."

"Bil ti je mož, zdaj pa si vdova ob živem možu. V volščake ga vzemo, tresoritost mu tam že iztepo."

Marinka je pobesila oči in se molče obrnila.

"Meniš, da ga več ne bo?" je hripavo vprašala.

"Zvitorepec je, brez škode prebo tudi to," jo je potolažil in stopil k Trlepu.

"Kje je Janez?" je vprašal.

"V Zubini. Ančka še ni zdrava, menih sam ji menda ne ve pravih zeli."

"Čudežev ne zna delati, vi pa čakati ne, to je."

I, nam se ne mudi, le Janez kar medli, ker zdrava še ni."

"Saj mudj se res," je deseti brat naposled povedal, da zdaj zdaj začno vojščakov nabirati za deželno brambo.

Trlep je prebledel, tako se je ustrašil.

Nič se ne boji!" ga je deseti brat miril. Če bo nevarno res tudi zanj, ga že opat otme."

A Trlep se je res bal. Skočil bi rad v Stično po svet in pomoč, pa ga je bilo sram nadlegovanja in poniževanja.

"Pater opat bi mislil, da ga opominjam, naj brž osvobodi Janeza," je čutili. "Tega nočem. Trlepi ne poklekajo pred nikogar!"

Pa bo že Stepič vedel, kaj je treba; saj Janez tiči zmerom le tam in je že čisto njegov . . .

XXV.

Janezu ni bilo več miru in obstanke. Bolezen se Ančki ne premekne, menih zdravnik jo resno le gleda, kadar pride.

"Saj ne bo huđega," je menih tolažil. "Molite pa le. Ko duša z molitvijo pride do pol pota, ji Bog že naproti gre z izpolnitvijo, milost božja ne ukani nikogar."

A Stepič ni več dosti upal; kar motoglavil je okoli hiše in se grizel v žalosti in skrbi.

"Se na Kum pojdem," se je Janez odločil. "Sveta Neža, pravijo, je velika pomočnica za zdravje."

Stepič je brežutno molčal. Trlep doma je branil, češ, Kum je daleč, pota so nevarna.

"Saj imam nov čekan," je Janez junačil: "ob mlaju sem ga usekal, dobro opalil in mu nasadil prekaljeno in prekovanokladivo, nikogar se z njim ne bojim."

"Prejšnji čekan res ni bil nič prida več, razpokal in razsušil se ti je, ker si ga poiskal ob žepu," se je oče nerad vdajal.

"Pojdi, če res moraš, a glej, da te kdo ne prelisči in ne pogubi. Če le moreš, si spotoma dobodi kaj družčine. Tako si bolj varen in zveš, kaj se godi po svetu."

Janez se je odpravil in šel. Dolgo je hodil čisto sam in vedečne oči pasel po krajih, ki jih še ni poznal. I, saj je lepo tudi tu, v Temeniški dolini je vendar še lepše. Hribovski svet, obrasel s trsjem in udelan v malo rodovitne njive in senože-
ti, se spušča v ozke doline in tokave, po rebreh in dobravah čepijo majhne in otožne vasi. Na višinah je postajal in se čudil daljavi in širjavi pogleda čez kupčkasto hribe in gričevje, ki se tam, daleč daleč nekje gubi bi v sinji meglini.

Ze blizu Kuma je došel prilet-

Janez je v zadregi molčal, čudil se je, češ, prebiti dedec ve tudi o Ančki.

"O, pa nevesta bi bila potrebna tudi meni, vdovec sem," je Miklav hitel praviti. "Stare ne maram jaz, mlada pa mene nobena ne več; tako, vidiš, mi tu-

di sveta Neža ne more pomagati. Saj je morda prav. Starženin in mlada nevesta nimata dobre letine."

"I, saj ste trdni, še zadosti vam bo vsega."

"Zadosti bo, ko dobom z lopato po trebuhu, sicer pa velja

zame samo še: Sam živel, sam umrl, sam v nebesa šel!"

Zgovorni mož je brž preokčil šegavi pogovor in povzel prejšnjo misel;

Kako groze in snubijo kuščarji

Zanimivo poglavje iz živalskega življenja je poglavje, ki obravnava dušeslovje živali, to je njihovo zadržanje v različnih okoliščinah življenja. Take okoliščine so n. pr. okoliščine, ki nastanejo, ko sreča žival svojega tekmeča ali sovražnika, ki ga hoče zastrašiti, oziroma, ko si žival izbira družico, da si zagotovi zarod. Oglejmo si danes v kratkem oba pojavi, to je pojav groznje in pojav snubljenja pri kuščarjih.

vati v prosti naravi dva kuščarja, ko se srečata, bomo zlahka opazili posebno zadržanje, zlasti pri samcih. Namen tega zadržanja je, drugemu pokazati čim večjo ploskev svojega telesa, pri čemer se čisto uveljavljajo posebne barve in oblike. Napram samcem ima to zadržanje namen zastrašenja, napram samicam pa snubljenja.

Naša siva kuščarica in v topeljših krajih tudi zelenec, moreta, tako samec kot samica, izvajati značilno zadržanje, vendar ga pri samicah redkeje opazujemo nego pri samcih. Žival, ki hoče groziti ali snubiti, zniža srednji del grla, upogne konico glave k tlom in jo pritegne istočasno

Močnejši varuje šibkejšega. — Velika psica bernardinka si je zadala nalogo, da varuje malo "Mitz" (jazbečarko), da bi je kdo ne nadlegoval ali dražil na "Allied Forces Animals Memorial razstavi" v Chelsea, v Angliji.

k trupu; postavi se na sprednje noge ter uredi gibljiva rebra tako, da se trup iztegne ter se od strani splošči. Tako nastane čim večja stranka ploskev, ki jo kaže tekmeču. Pri samcih sive kuščarice pride zelena barva grla, bokov in trebuha posebno do izraza. Zelenec, ki grozi ali snubi, se manj splošči, zato pa pride del grla bolj do izraza. To je zato zanimivo, ker se sames in samica sive kuščarice razlikujeta predvsem po tem, da je sames po boku in trebuhu zelen, samica pa ob straneh neenakomerno sivorjava. Pri zelencu pa sta boka in hrbet zelena, samci se ločijo od samic le po svetlečem modrem grlu.
Ko je kuščar zavzel opisano

FLUORESCENT

Lighting gives you soft, cool, glare-
less linear light for your Office,
Store, Factory or Residence. You
can see faster — easier. Stores
increase their sales with better
lighting. Raise production, de-
crease fatigue in industry. Every
Kitchen, the work shop of the
Home, needs better lighting.
Units for every purpose.
Use ULTRA - VIOLET Germicidal
for Electronic Air Disinfection
for your protection against all
air-borne bacteria, virus and
molds.
