

# Naša bojna mornarica vas kliče!

Ena največjih bojnih sil v Zedinjenih državah je bojna mornarica. Ne samo, da varje naše obrežje pred sovražnim napadom, ampak je poiskala sovražnika tudi v njegovem lastnem gnezdu.

Silna je naša bojna mornarica toda še večjo potrebujemo. Potrebujemo več ladij in več moštva. Zato je mornarica odprla več novih rekrutnih postaj, kjer se priglašajo naši fantje k mornarici.

V Greater Clevelandu je mornariško poveljstvo vpejalo kampanjo za nabiranje rekrutov. Kampanja je že od 1. septembra in bo trajala do 27. oktobra. Kvota novih rekrutov je 10,000 v tem okolišu.

ŽUPAN FRANK J. LAUSCHE je topogledno izdal proklamacijo, v kateri apelira na vse prebivalstvo za sodelovanje, da bi bila kampanja kar najbolj uspešna.
