

ZAVODI, DOMOVI IN DRUGE USTANOVE ZA NASTANITEV OTROK IN MLADOSTNIKOV S POSEBNIMI POTREBAMI, SLOVENIJA, 2007

INSTITUTIONS, CHILD AND YOUTH HOMES AND OTHER ESTABLISHMENTS FOR LODGING CHILDREN AND YOUTH WITH SPECIAL NEEDS, SLOVENIA, 2007

- ▶ V letu 2007 je bilo v centre za usposabljanje, delo in varstvo vključenih 531 otrok in mladostnikov z zmerno, s težjo in težko motnjo v duševnem razvoju, od tega 422 v domsko oskrbo, 109 otrok in mladostnikov pa je bilo vključenih v dnevno varstvo.
- ▶ In 2007, 531 children and youth with moderate, severe and profound mental disturbances were included in centres for training, work and protection; of whom 422 in residential full-time care and 109 in daily care.
- ▶ 555 otrok in mladostnikov s fizičnimi poškodbami in z lažjimi ali zmernimi motnjami v duševnem razvoju je bivalo v času izobraževanja v zavodih in domovih, od tega:
 - 30 v zavodih za slepe in slabovidne otroke in mladostnike,
 - 47 v zavodih za gluhe in naglušne otroke in mladostnike,
 - 212 v zavodih za gibalno ovirane otroke in mladostnike in
 - 266 v domovih za otroke in mladostnike z lažjimi ali zmernimi motnjami v duševnem razvoju.
- ▶ 555 children and youth with physical impairments and with mild or moderate mental disabilities were residing for the time of their education in institutions and homes:
 - 30 in institutions for blind and weak sighted children and youth,
 - 47 in institutions for deaf and partially deaf children and youth,
 - 212 in institutions for children and youth with physical disturbances, and
 - 266 in homes for slightly or moderately mentally disabled children and youth.
- ▶ V zavode in domove za čustveno in vedenjsko motene otroke in mladostnike so bili vključeni 403 otroci in mladostniki.
- ▶ 403 children and youth were included in institutions and youth homes for children and youth with severe emotional and behavioural disorders.

Slika 1: Število otrok v centrih za usposabljanje, delo in varstvo, Slovenija, 2005-2007

Chart 1: Number of children in centres for training, work and protection, Slovenia, 2005-2007

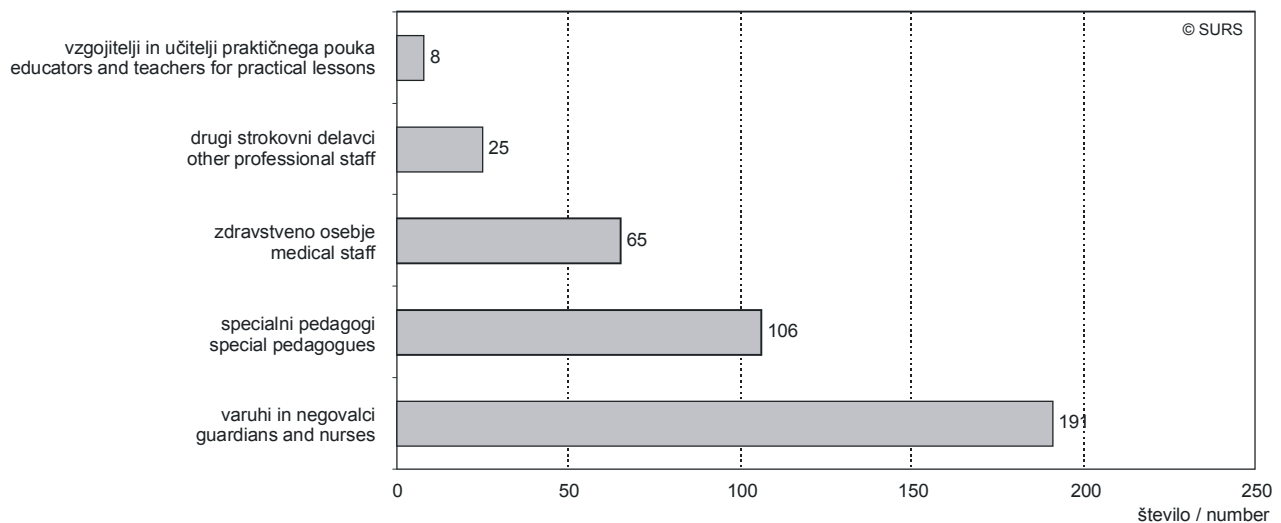

Število otrok in mladostnikov z zmerno, s težjo ali težko motnjo v duševnem razvoju, ki so vključeni v centre za usposabljanje, delo in varstvo se v zadnjih letih rahlo zmanjšuje. Zmanjšanje je zaznati predvsem pri številu varovancev, ki so vključeni v institucionalno varstvo, medtem ko se število otrok in mladostnikov, ki so vključeni v dnevno varstvo, povečuje.

In recent years the number of children and youth who have moderate, severe and profound mental disabilities and are included in centres for training, work and protection has been slightly decreasing. Reduction is perceived first of all in the number of protégés in institutional full-time care, while the number of children and youth included in daily care has been on the increase.

Slika 2: Strokovno osebje, ki skrbi za otroke in mladostnike, ki bivajo v centrih za usposabljanje, delo in varstvo, Slovenija, 2007

Chart 2: Professional staff taking care of children and youth residing in centres for training, work and protection, Slovenia, 2007

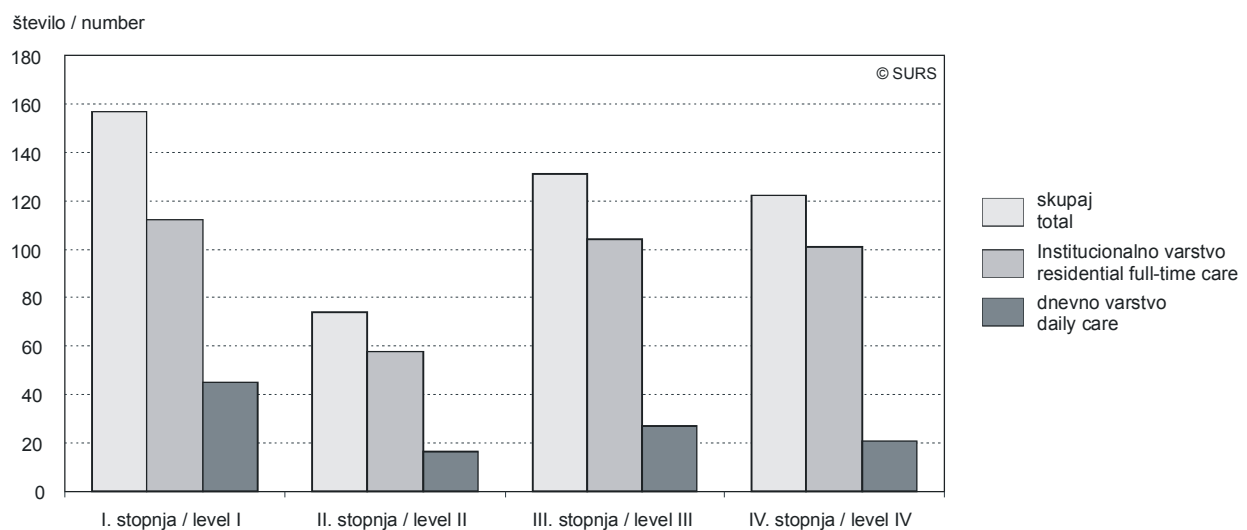

Za otroke in mladostnike z zmerno, s težjo in težko motnjo v duševnem razvoju, ki so bivali v centrih za usposabljanje, delo in varstvo, je leta 2007 skrbelo 395 strokovnih delavcev, od tega 191 varuhov in negovalcev, 106 specialnih pedagogov in 65 zdravstvenih delavcev.

In 2007, 395 professional staff were taking care of children and youth with moderate, severe and profound mental disabilities residing in centres for training, work and protection, of whom 191 guardians, 106 special pedagogues and 65 medical staff.

Slika 3: Otroci in mladostniki v domskem in dnevnem varstvu, ki v centrih obiskujejo posebne programe vzgoje in izobraževanja, Slovenija, 2007

Chart 3: Children and youth in residential full-time care and in daily care attending adjusted education and care programs in centres, Slovenia, 2007

Otroci in mladostniki z zmerno, s težjo in težko motnjo v duševnem razvoju, ki so vključeni v domsko ali dnevno varstvo, se v okviru centrov izobražujejo po posebnih programih vzgoje in izobraževanja. Posebni program se deli na 5 stopenj, vsaka stopnja pa traja 3 leta. Obvezni del programa pokriva prve tri stopnje, IV. stopnja predstavlja podaljšan obvezni del programa, V. stopnja pa predstavlja neobvezni del programa. Po končani V. stopnji se nekateri varovanci vključijo še v program usposabljanje za življenje in delo, ki traja 5 let. Z izobraževanjem in usposabljanjem tako lahko zaključijo pri 26. letu starosti.

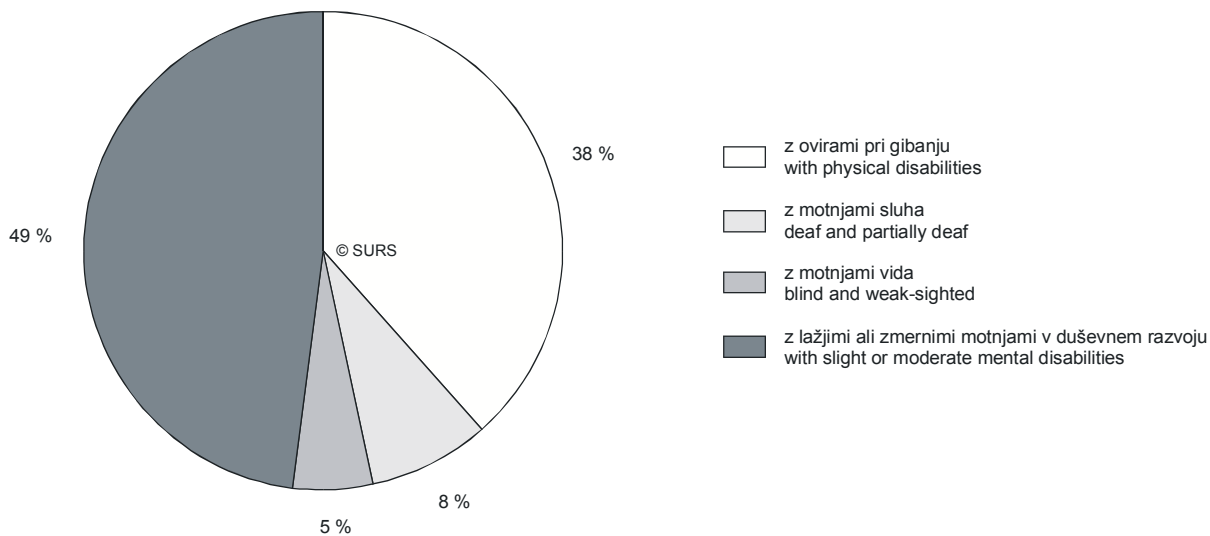

Največ varovancev centrov za usposabljanje, delo in varstvo je bilo v letu 2007 vključenih v I. stopnjo omenjenega programa, ki predstavlja prva tri leta izobraževanja, najmanj pa v II. stopnjo, to je 4., 5. in 6. leto izobraževanja.

Children and youth with moderate, severe and profound mental disabilities in residential full-time and in daily care are attending adjusted educational programs within centres. The adjusted educational program is divided into 5 levels, each lasts for 3 years. The first three levels are compulsory, level IV is extended compulsory level, level V is optional level. After finishing level V, some of the protégés continue their education in programs on training for life and work, which lasts 5 years. So they can complete education and training programs at age 26.

In 2007, most protégés in centres for training, work and protection were enrolled in level I of the above mentioned program, which represents the first three years of education, and the least in level II, which represents the fourth, fifth and sixth years of education.

Slika 4: Otroci in mladostniki s fizičnimi poškodbami in z lažjimi in zmernimi motnjami v duševnem razvoju, ki bivajo v zavodih in domovih, po vrsti motnje, Slovenija, 2007

Chart 4: Children and youth with physical impairments and with mild or moderate mental disabilities, residing in institutions and homes, by type of disturbance, Slovenia, 2007

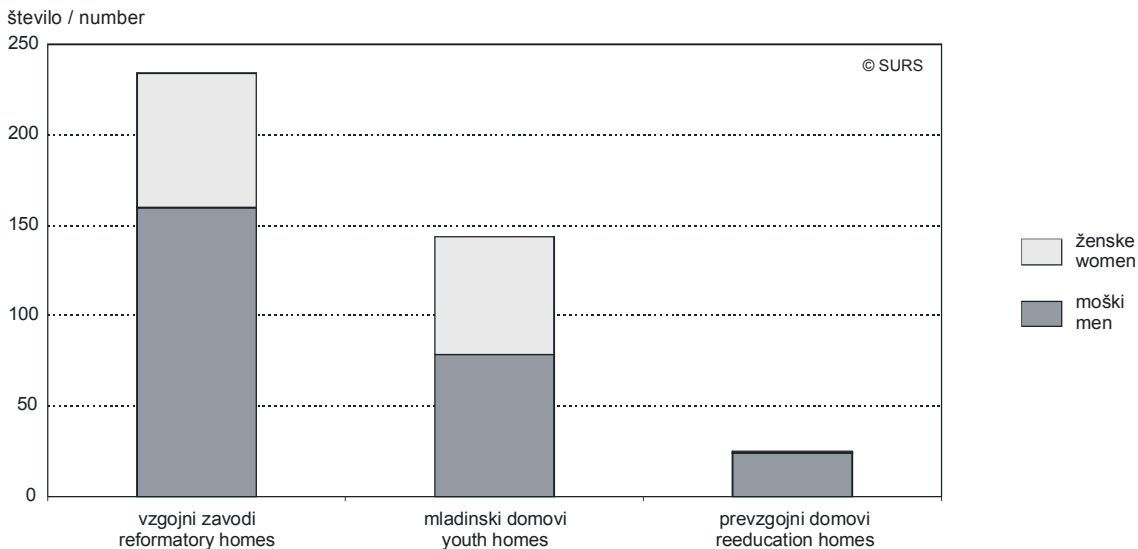

Zavodi in nekatere osnovne šole s prilagojenim programom imajo v svoji sestavi tudi domove za nastanitev otrok, ki prihajajo iz oddaljenejših krajev ali doma nimajo ustreznih pogojev za šolsko delo in se vključujejo v izobraževanje v njihovem zavodu oz. šoli. V letu 2007 je bivalo v teh domovih 555 otrok in mladostnikov, največ, 49 %, je bilo otrok z lažjimi ali zmernimi motnjami v duševnem razvoju, sledili pa so gibalno ovirani otroci in mladostniki (38 %).

Institutions and some elementary schools with special curriculum comprise homes for residence of children and youth coming from remote places or for children who at home haven't suitable conditions for school work. In 2007, 555 children and youth resided in those homes, most of them (49%) children with mild or moderate mental disabilities, followed by children and youth with physical disabilities (38%).

Slika 5: Otroci in mladostniki v vzgojnih zavodih, v mladinskih domovih in v prevzgojnem domu, Slovenija, 2007

Chart 5: Children and youth in reformatory, youth and reeducation homes, Slovenia, 2007

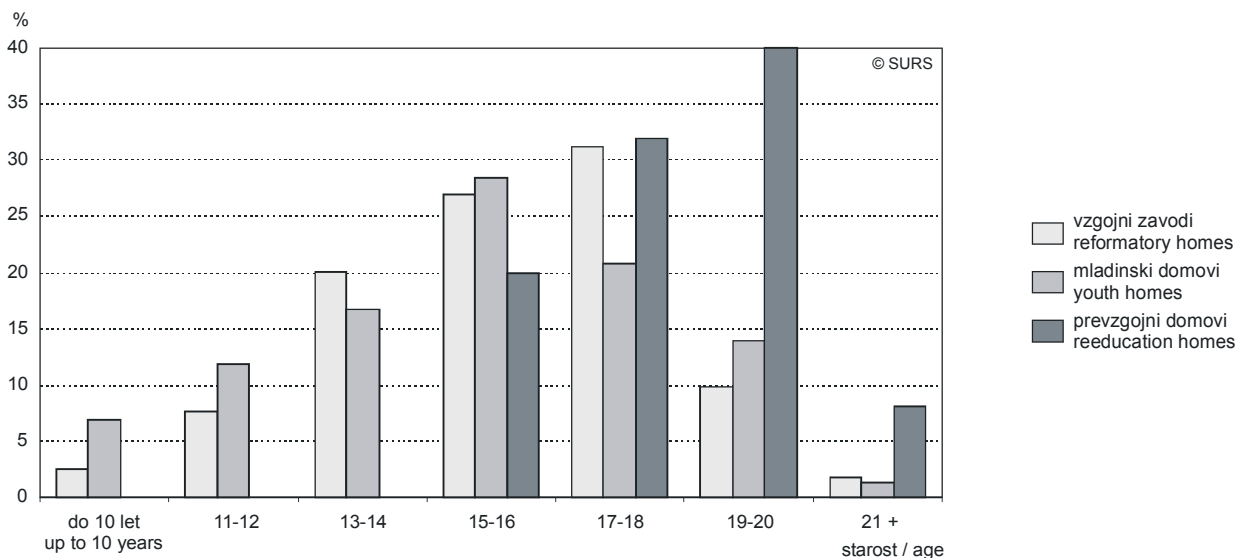

V vzgojne, prevzgojne in mladinske domove so bili v letu 2007 vključeni 403 otroci in mladostniki. V vzgojne zavode je bilo vključenih 234 otrok in mladostnikov, v mladinske domove 144, v prevzgojni dom pa 25. V teh tako-imenovanih korekcijskih domovih prevladujejo fantje, ki običajno predstavljajo skoraj dve tretjini vseh nastanjenih. Razmerje med fanti in dekleti je bilo najbolj izenačeno v mladinskih domovih, kjer so dekleta predstavljala 45 % vseh nastanjenih.

In 2007, 403 children and youth resided in reformatory, reeducation and youth homes. 234 children and youth resided in reformatory homes, 144 in youth homes and 25 in reeducation homes. Boys, who are prevalent at these so-called correctional homes, usually represent almost two thirds of all residents. The sex ratio was the most equal in youth homes, where in 2007 girls represented 45% of all residents.

Slika 6: Otroci in mladostniki v vzgojnih zavodih, v mladinskih domovih in v prevzgojnem domu po starosti, Slovenija, 2007

Chart 6: Children and youth in reformatory, youth and reeducation homes by age, Slovenia, 2007

Starostna struktura nastanjenih v vzgojnih, prevzgojnih in mladinskih domovih se razlikuje glede na vrsto doma oz. zavoda. V vzgojnih domovih so v letu 2007 prevladovali mladi med 13. in 18. letom starosti, v mladinskih domovih je bilo največ osnovnošolcev, v prevzgojnem domu pa se je starost nastanjenih gibala med 15. in 20. letom.

The age structure of residents in reformatory, reeducation and youth homes differs as to the type of home or institution. In 2007 in reformatory homes prevailed youth aged thirteen to eighteen, elementary school age pupils were prevalent in youth homes while in reeducation homes the residents were fifteen to twenty years olds.

METODOLOŠKA POJASNILA

Namen statističnega raziskovanja

je statistično spremljanje otrok in mladostnikov s posebnimi potrebami, ki so v oskrbi centrov, zavodov, domov in drugih ustanov za otroke in mladostnike s posebnimi potrebami, ter zaposlenih v teh institucijah.

Enote opazovanja

so centri, zavodi, domovi in druge ustanove za vzgojo, izobraževanje, usposabljanje, delo in varstvo otrok in mladostnikov s posebnimi potrebami.

METHODOLOGICAL EXPLANATIONS

Purpose of the survey

is statistical monitoring of children and youth with special needs who are in residential care in centres, institutions, child and youth homes and other establishments for children and youth with special needs, and employees in these institutions.

Observation units

are centres, institutions, child and youth homes and other establishments for education, training, work and protection of children and youth with special needs.

Viri podatkov

so letni statistični vprašalniki SOC-ZU, ŠOL-ZU in ŠOL-MVO, ki jih pošiljamo v izpolnjevanje centrom, zavodom, domovom in drugim ustanovam za vzgojo, izobraževanje, usposabljanje, delo in varstvo otrok in mladostnikov s posebnimi potrebami. Zbrani podatki o opazovanih enotah se nanašajo na stanje 31. 12. tekočega leta.

Zajetje

je popolno.

Definicije in pojasnila

Otroci s posebnimi potrebami so po Zakonu o usmerjanju otrok s posebnimi potrebami (Ur. l. RS, št. 54/2000) otroci z motnjami v duševnem razvoju, slepi in slabovidni otroci, gluhi in naglušni otroci, otroci z govorno-jezikovnimi motnjami, gibalno ovirani otroci, dolgotrajno bolni otroci, otroci s primanjkljaji na posameznih področjih učenja ter otroci s čustvenimi in vedenjskimi motnjami, ki potrebujejo prilagojeno izvajanje vzgojnih in izobraževalnih programov (z dodatno strokovno pomočjo) ali prilagojene oziroma posebne vzgojne in izobraževalne programe.

Center je socialno varstveni zavod za usposabljanje, vzgojo in izobraževanje, zdravstveno varstvo, rehabilitacijo in nego otrok in mladostnikov z zmerno, težjo in težko motnjo v duševnem razvoju z dodatnimi motnjami.

Zavodi za otroke in mladostnike s posebnimi potrebami usposablajo in izobražujejo otroke, mladostnike in mlajše polnoletne osebe, ki zaradi motenj v duševnem in/ali telesnem razvoju potrebujejo posebne oblike vzgoje, izobraževanja in usposabljanja (Ur. l. RS, št. 12/96). V okviru zavoda je lahko tudi dom za otroke, ki jim ni bilo mogoče zagotoviti izobraževanja v kraju stalnega prebivališča.

Objavljanje rezultatov

Letno:

- Statistične informacije. Izobraževanje. Zavodi, domovi in druge ustanove za namestitve otrok s posebnimi potrebami.
- Statistični letopis Republike Slovenije

Data sources

are annual statistical questionnaires SOC-ZU, ŠOL-ZU and ŠOL-MVO, which are sent to the centres, institutions, child and youth homes and other establishments for education, training, work and protection of children and youth with special needs. The data are collected for each observation unit as of 31 December in the current year.

Coverage

is complete.

Definitions and explanations

Children with special needs are according to the Placement of Children with Special Needs Act (OJ RS, No. 54/2000) mentally retarded children, blind and weak-sighted, deaf and partially deaf children, children with speech disorders, children with physical disabilities, children with long-term illnesses, children with a deficit in some fields of education and training, and children with emotional and behavioural disorders who need special implementation of programmes of education and training and with additional professional help or special programmes of education and training.

Centre is social health care institution for qualification, education and training, rehabilitation and nursing of children and youth with mild, severe and profound mental disabilities with additional impairments.

Institutions for children and youth with special needs educate and train children, youth and young, disabled adults who, due to physical and/or mental handicap, require special forms of education and training (OJ RS No. 12/96). The institution can comprise also a child and youth home for children who are not in the position to be educated in the place of permanent residence.
