However, a biography may be of interest, at this time, since the public will have its decision as to Mr. Mervar's ability and his qualifications.

### Born in Jug<sup>o</sup>slavia

Frank Mervar was born of peasant parents "na kmetih" in village Klečet, near Žužemberk, Dolensko, in 1889. At the age of three, his father died. Later his mother remarried and Frank was not especially fond of his stepfather and vice versa, which is often the case.

### Leaves Home

Conditions were not so favorable at home and at the age of thirteen, Frank set out to conquer the world. His destination was to an uncle in Pola. In Pola he ben me an apprentice as a baker in his uncle's baking shop. Baking and peddling pastries was no cherished goal for our young adventurer.
