| Vsi drugi zunanji vzroki (V01-Y98)                                                                        | 205             | -                                              | 1   | 4   | 3     | 3     | 11    | 7     | 4     | 8     |

2) Zunanji vzroki umrljivosti se od IX. revizije (MKB-9) dalje lahko dodatno kodirajo tudi k boleznim in drugim bolezenskim stanjem in ne le k poškodbam in zastrupitvam kot doslej. Pri kodiranju vzrokov smrti po deseti reviziji (MKB-10) smo to navodilo upoštevali in smo 238 kodam vzrokov bolezni in drugih bolezenskih stanj pripisali tudi zunanje vzroke umrljivosti. Zato se podatki o zunanjem vzroku smrti v tabelah 10.15 razlikujejo od podatkov v tabelah 10.24, 10.25 in 10.27.  
 Since the IXth Edition, external causes of death can be additionally coded also as diseases and other conditions and not only injuries and poisonings as before. We took this into consideration in coding causes of death according to the Xth Edition and added external causes of death to the 238 codes for causes of death and other conditions. Therefore, data on external cause of death in Table 10.15 differ from data in Tables 10.24, 10.25 and 10.27.
