Našli več kosov Challengerja — Preiskava še ni ugotovila vzroka eksplozije, ki je ubila 7 astronautov — Danes žalne slovesnosti

CAPE CANAVERAL, Fla. — Včeraj so iskalci našli več kosov vesoljskega šuttlja Challengerja, ki je eksplodiral pretekli torek kakih 74 sekund po izstrelitvi. V eksploziji je bilo ubitih vseh 7 astronautov, med njimi sta bili tudi 36-letna Judith A. Resnik in 37-letna učiteljica Christa McAuliffe. Poveljnik posadke je bil 46-letni Francis R. Scobee, pilot šuttlja pa 40-letni Michael J. Smith. Zakaj je eksplodiral rezervoar goriva še ni znano, podatki, ki jih je do trenutka eksplozije pošiljal kontrolorjem poleta Challenger, niso po prvem pregledu kazali nobenih znakov, da je kaj narobe. Preiskava pa se je komaj začela, poudarjajo pri NASA, in bo najbrž trajala več mesecev.

Prva naloga za NASA je najti čimveč kosov razbitega Challengerja. Radi bi seveda tudi našli trupla astronautov, vendar vse kaže, da je le malo upanje za to. Včeraj je bil najden kos kosti iz človeške noge, na katerem je bil tudi kos modre nogavice, podoben takim, ki so jih nosili astronauti. Drugi iskalci so pa že našli več večjih kosov Challengerja in potom radarskih naprav menijo, da vedo, kjer se nahajajo še drugi kosi šuttlja. Pomaga jim dejstvo, da morje v kraju, kjer so razbitine, ni posebno globoko in dno lahko torej dosežejo potapljači. Težava pa je v tem, da je bilo na Challengerju več kemičnih tekočin, ki so smrtno nevarni, zato morajo biti iskalci zelo previdni.

V trenutku eksplozije, po zadnjih vesteh, je bil Challenger na višini 8,9 milje, 8 milj proč od floridske obale, letel pa je s hitrostjo malo manj kot 2.000 milj na uro. Mnenje strokovnjakov je, da astronauti sploh niso nič vedeli, kaj se dogaja. Od pojave okvare do katastrofalne eksplozije sta minili komaj dve sekundi.

Danes bodo žalne slovesnosti v Houstonu, ki se jih bosta udeležila med številnimi gosti predsednik Reagan in žena Nancy. Prenos po televiziji se bo začel ob 12.30 popoldne.

Jutri bo začel veljati odlok Reaganove administracije, po katerem morajo državljani ZDA zapustiti Libijo

TRIPOLI, Libija — Jutri, 1. februarja, bo začel veljati odlok Reaganove administracije, ki zahteva od ameriških družb, da opustijo vse aktivnosti v Libiji. Gre predvsem za razne naftne družbe, ki poročajo, da so že prenehale z aktivnostmi v Libiji. Odlok je tudi zahteval od kakih 1.500 ameriških državljanov — večinoma so bili zaposleni v naftni industriji — da zapustijo Libijo najkasneje do 1. februarja. Mnogi so že odšli, drugi ne bodo, nekateri pa pravijo, da bodo odšli, kmalu pa se vrnili. Jezni so namreč, ker zahteva od njih ameriška vlada, da izgubijo službo in dohodek, nič pa ne dobijo v zameno.

Vloga v libijski naftni industriji, ki jo opustijo ameriške naftne družbe in delavci, že prevzamejo zahodnoevropske družbe. Kot kaže, Reaganov odlok dejansko ne bo nič škodoval libijskemu gospodarstvu, pravijo predstavniki teh družb.

Libijski zunanji minister je dejal, da je njegova država pripravljena sodelovati v boju zoper mednarodni terorizem. Libija je tudi pripravljena na neposredni diplomatski pogovori z ZDA, je dodal. Bela hiša in State

Department ne kažeta nobenega zanimanja za pobudo.

ZDA nameravajo pomagati gverilcem v Angoli — Reagan sprejel vodja upornikov Jonas Savimbi v Beli hiši

WASHINGTON, D.C. — Včeraj je predsednik Reagan sprejel v Beli hiši vodjo uporniškega gibanja UNITA v Angoli Jonasa Savimbija in mu obljubil podporo. Savimbi vodi gverilsko vojno zoper marksistično vlado v Angoli. Ta vlada ima zelo tesne odnose z ZSSR in drugimi komunističnimi državami, v deželi je tudi okoli 35.000 kubanskih vojakov. Zanimivo je, da so udeležene v angolski naftni industriji ameriške družbe. Angola zasluži okoli dve milijardi dolarjev od izvoza nafte, veliko tega denarja pa uporablja za dobavo sodobnega sovjetskega orožja.

Reagan je menda pripravljen posredovati Savimbiju do 15 milijonov dolarjev pomoči iz posebnega sklada, ki ga upravlja CIA. Razpoloženje v zveznem kongresu ni temu načrtu posebno naklonjeno, predvsem zato, ker je Savimbi tesno povezan z Južno Afriko. Južnoafriške enote so ponovno vdrele v južne predele Angole in napadle oporišča gverilskih skupin, ki se bojujejo zoper apartheid.

Znano pa je, da Savimbi kontrolira vsaj tretjino angolskega ozemlja.

Lanski trgovinski primanjkljaj ZDA rekorden — Dolar še vedno preveč vreden

WASHINGTON, D.C. — Včeraj je trgovinsko tajništvo objavilo podatke, ki kažejo, da je bil lanski zunanjetrgovinski primanjkljaj ZDA rekorden. V letu 1985 so ZDA namreč uvozile za 148,5 milijarde dolarjev več, kot so izvozile. Prvič v zgodovini je bil ameriški uvoz več kot dvakrat večji od izvoza.

Rezultati v decembru niso kazali nobene izboljšanja položaja, čeprav so finančniki to pričakovali. Mislili so, da bi pozitivno vplivala na trgovinski primanjkljaj znatno nižja cena nafte v zadnjem času ter padec v vrednosti dolarja v primerjavi z drugimi valutami. Cena nafte je v zadnjem času padla za dobro petino, od septembra lani pa je dolar izgubil od 20 do 25 odstotkov svoje vrednosti napram drugim valutam.

— **Kratke vesti** —

Pretoria, J. Af. — Južnoafriški predsednik Pieter W. Botha je dejal, da je pripravljen izpustiti iz zapore oporečnika Nelsona Mandelo, ako ZSSR v zameno izpusti in dovoli odhod v tujino Andreja Sakharova in Anatolija Ščaranskega.

Cap Haitien, Haiti — V zadnjih dneh so bile obsežne demonstracije proti režimu Jean-Claude Duvalierja. Haiti je ena najrevnejših dežel na svetu.

Washington, D.C. — Predsednik Reagan bo podal govor o stanju ZDA prihodnji torek zvečer ob 8. uri. Govor je preložil za teden dni zaradi nesreče Challengerja.

Moskva, ZSSR — Veleposlanik Južnega Jemena je dejal, da je res bil strmoglavljen predsednik Ali Nasser Mohammed in da je prevzel dolžnosti »začasnega« predsednika dežele Heidar Abu Bakr. Vodja upora zoper Mohammeda je bil Abdel Fatah Ismail, ki pa je bil ranjen. Ismail bo najbrž prevzel predsedstvo kasneje.

Vesti iz Slovenije in SFRJ

Slovenija lani več izvozila kot uvozila

LJUBLJANA — Podatki, objavljeni v *Delu*, kažejo, da je Slovenija v letu 1985 izvozila na tuje za 6 odstotkov več, kot v letu 1984. Pokritost uvoza z izvozom je bila 102-stotna, kar je pa za polovico nižja, kot v 1984.

Lani je Jugoslavija uvozila za 5 odstotkov več, kot je bila uvozila leta 1984, izvozila pa za 7 odstotkov več. Zunanje-trgovinski primanjkljaj je bil torej lani manjši. Jugoslavija je namreč v letu 1984 izvozila za 14,2 odstotka premalo, da bi pokrila uvoz, lani pa je do izravnave uvoza z izvozom manjkalo še 12,6 odstotka.

V Sloveniji nočejo odlagališča odpadkov jedrskih snovi

SLOVENJ GRADEC — V slovenjgraški in sosednjih občinah so občani zelo proti možnosti, da bi tam gradili odlagališče za nizko in srednje radioaktivnih snovi, poroča *Delo*. Stališče je tako silno odklonilno, da bi bil vsak dinar, ki bi ga vložili v nadaljnje raziskave za omenjeno odlagališče vržen v prazno, ker prebivalci tega dela (koroškega) Slovenije za gradnjo takšnega objekta nikoli ne bodo dali soglasja.

Argumenti za odklonilno stališče so (zelo podobni so tistim, ki jih zagovorniki varstva okolja uporabljajo pri nas v ZDA, op. ur.) sledeči: absolutne varnosti tudi za še tako skrbno zgrajene objekte ne more zagotoviti nihče; poselitev območja na Pohorju, kjer bi bila morebitna lokacija, je razmeroma gosta; regija na tem območju dolgoročno načrtuje razvoj turizma; Pohorje je rezervat pitne vode in kmalu naj bi ga razglasili za krajinski park. Nenazadnje je območje koroške regije ekološko že itak močno prizadeto; zaradi žveplovega dioksida umirajo gozdovi, ogroženi so vodni viri.

Dejstvo je, nadaljuje poročilo *Dela*, da v Jugoslaviji potrebujejo osrednje odlagališče za radioaktivne odpadke. Gre sicer za radioaktivne odpadke, ki nastajajo pri delu z radioaktivnimi snovmi v industriji, v zdravstvu in v raziskovalnih inštitucijah. V predlaganem skladišču bi bili shranjeni tudi nizko in srednje aktivni odpadki iz jedrskih elektrarn.

Visoko aktivni odpadki iz teh elektrarn (v vsej Jugoslavi-

ji obratuje zaenkrat le ena, krška, nameravajo pa jih graditi več) bodo še naprej začasno shranjeni v posebnih hladilnih bazenih v elektrarnah samih; čez več let pa jih bodo dali v predelavo v posebne tovarne v tujini. Pri teh visoko aktivnih odpadkih gre namreč za iztrošeno jedrsko gorivo.

Predstavniki slovenske vlade vedo povedati, da do kake končne odločitve glede lokacije še ni prišlo, da preučujejo strokovnjaki 13 potencialnih lokacij, torej bo vzelo še precej časa za izbiro kraja odlagališča.

Na splošno je v Sloveniji zadnja leta opaziti večje zanimanje za varstvo okolja. Kot omenjeno, je Slovenija in tudi marsikateri drugi kraj v Jugoslaviji prizadet od umiranja gozdov, onesnaženih virov pitne vode ipd.

Možnost skrajšanja delovne dobe

BEOGRAD — V zvezni skupščini razpravljajo o možnosti skrajšanja delovne dobe oziroma pokojninskega staža. Sedaj je ta doba 40 let za moške in 35 let za ženske. Toliko časa mora biti namreč moški ali ženska zaposlena, da uživa polno pokojnino. Sedaj pa bi nekateri radi skrajšali obe dobi za pet let. Tako bi bil delovna doba za moške 35, za ženske pa 30 let.

Prav tako teče beseda o tem, da bi skrajšali tudi staž za pridobitev predčasne pokojnine, tako da bi to pravico moški pridobili s 30 leti pokojninskega staža (sedaj 35 let), ženske pa s 25 (sedaj 30).

Razlog za to pobudo je najti predvsem v dejstvu, da je v Jugoslaviji že več kot milijon nezaposlenih, med katerimi je 77 odstotkov mladih (do 30. leta), več kot polovico pa je šolanih in strokovno usposobljenih.

Slaba letina za vino

METLIKA — Metliška vinska klet letos zaradi slabe letine ni mogla uresničiti svojih načrtov, saj je bil pridelek grozdja pri zasebnih vinogradnikih, kot tudi v družbenem sektorju, daleč pod pričakovani. Zato pa se vinska klet spet lahko pohvali z zapoznelo trgatvijo laškega rizlinga na vinogradniških plantažah na Vinomeru, ki bo omogočil proizvodnjo belokranjskega »kolednika«. Direktor metliš-

ke vinske kleti, magister Julij Nemanič, je dejal, da se pričakovanja pri zapozneli trgatvi niso uresničila, vendar bodo imeli letos v vinski kleti kljub temu blizu 7000 steklenic izredno kakovostnega vina, imenovanega »kolednik 85«.

V Slovenskem domu za ostarele je preteklo sredo preminula 92 let stara Mary Abram, rojena Gregorčič v Ribnici pri Gorici, Slovenija, od koder je prišla v Cleveland l. 1913, od 1929 do 1957 živeča na E. 71 St., vdova po l. 1967 umrlem možu Natonu, mati Betty Forsberg in Josephine Hughes, 5-krat stara mati, 11-krat prastara mati, sestra Ane Turk (Jug.) ter že pok. Anti-abortion trip to DC

by Wencel Frank

This year, the St. Vitus Holy Name Society in Cleveland paid for the trip to Washington, D.C. for three of its members, Lovro Miloš, John Cendol, and Wencel Frank.

This was my ninth walk down Pennsylvania Avenue toward the capitol and Supreme Court buildings, peacefully protesting the infamous Roe vs. Wade decision of Jan. 22, 1973, making it legal to kill innocent unborn human life.

Our bus left Cleveland after 9 p.m. and arrived in D.C. early enough for a short stop at the Jefferson Memorial. We attended Mass at the National Shrine and had the opportunity to visit the Slovenian chapel.

We were bused to the Mayflower Hotel and attended the prayer breakfast with about 1,000 other Ohioans. From the hotel we walked to the Ellipse which is located between the White House and the Washington Monument. The tiring part was the waiting for the march to begin as we listened to the many speakers through a poor sound system. President Reagan spoke by phone to the assembly.

About 1 p.m. the march began, around the White House and onto Pennsylvania avenue. With me were four young people, ages 11 to 17 who weathered the trip much better than I. My heavy tired legs got to me first at the foot of the capitol building, then called quits. Fortunately the weather was beautiful and I was able to sit and watch the rest of the marchers pass by before going to our bus for the trip home. By 2 a.m. I was at home, dead tired.

The news media gave us its usual censored coverage. The *Plain Dealer* was far off in stating that there were 36,000 marchers in D.C. This was the largest mass of people I have ever walked with in the nine years of my participation. I doubt the Cleveland Stadium could have held the number. The P.D.'s estimate of 36,000 persons puzzles me.

Someone once said an unjust law is no law at all. Our laws on abortion are unjust and one day will be changed by the growing number of young people who see abortion for the evil that it is. The legislators who vote anti-life will one day be ousted and replaced by those who respect human life.

Karl Mauser: Slovenian writer

(Continued from page 8)

biography of the Slovenian missionary and candidate for sainthood, Bishop Frederick Baraga. Often at times I would be amazed at the many translations Karel had to perform from Baraga's personal writings: Latin, French, German, etc. Only the conclusion remains to be completed prior to publication of this book. The remainder of the book is in the custody of Družba sv. Mohorja (St. Mohor's Society), a publishing company in Celove-Klagenfurt, Austria

of Slovenian literature.

For many, Karel was the embodiment of Slovenian culture of the begunci in America. His contributions to Slovenian culture are incalculable. Of equal importance was the lifelong support, encouragement, and companionship of his wife, Mimi.

Next year will be the 10th anniversary of Karel Mauser's death. It would be a sad commentary on the Slovenian community in Greater Cleveland if no event to commemorate this man who gave

so much to the Slovenian culture, were held. Not a large event but a dignified event to reflect on one person who did make a difference in the world.

(Writer's note: Karel Mauser died on Jan. 27, 1977.)

Memo From Madeline

Slomšek group sets Europe trip

by **MADLINE DEBEVEC**

Last Sunday night, members of the Slomšek Circle of Cleveland met at St. Mary's school hall on Holmes Avenue. The purpose of the meeting was to discuss an excursion and pilgrimage to the grave of Bishop Anton Martin Slomšek in Maribor, Slovenia. Bishop Slomšek is a candidate for sainthood in the Roman Catholic Church.

A choice of four tours was presented by Kollander's Travel Agency. The one selected by the members would

leave New York on July 20 on a regularly scheduled Pan-American plane. This trip would be a direct flight to Vienna, from where tourists could go to Celovec and Carinthia. The party could then split, one group going to Maribor, Brezje, Bled, Svete Višarje, Medjugorje, Dobrič, and Ljubljana. A second group could visit Rome and 'Slovenicum'. Arrival back in New York would be Aug. 3rd or Aug. 10.

There would also be a choice of a two-week or three week stay. Moreover, parties desir-

ing to plan their own itinerary, would have complete freedom upon arrival in Vienna. Further details will be published in the *American Home* pages.

A general invitation to anyone in the United States and Canada interested in the Slomšek tour will be extended in a couple of weeks. The time and place of the scheduled meeting will be reported in the *American Home*.

Know Your Body:

Congestive Heart

by **Zachary A. Zak**

Director Zak Funeral Home,
6016 St. Clair Ave.

Another heart problem is congestive heart failure, often simply called heart failure.

This is a condition in which the heart weakens and fails to keep the blood moving properly.

As a result the supply of blood to the body decreases, lowering body efficiency and endurance. With poor circulation, the kidneys fail to remove enough water, salt, and waste from the blood. In addition, the kidneys, as a result of the decreased blood flow presented to them, also try to increase blood volume by retaining even more salt and water. Then the blood

volume increases, making more work for the already overworked heart, which may enlarge and beat faster in an attempt to satisfy the body's hunger for oxygen rich blood.

Veins distended fluids and the balance of pressures between fluids inside and outside the veins shifts, causing fluid that normally stays in the bloodstream to leak into surrounding tissue.

This fluid leakage the reduction of forward blood flow, the backflow of blood, and other factors are responsible for the accumulation of fluid in the lungs (pulmonary edema) as well as the swelling of the abdomen and legs often seen in patients with congestive heart failure.

An American became the new owner of Carin II, the 89-foot yacht that once belonged to Nazi leader Hermann Goering. **Falco George Jaksic** of Los Angeles bid \$108,000 for the Carin II at an auction two weeks ago, beating the second-best offer of \$58,000 by Deutsche Bank, West Germany's biggest bank. Because Deutsche Bank held a lien on the yacht equivalent to \$127,905, auction house officials said Jaksic could not take possession of the yacht until the bank had time to file a court suit challenging the auction.

Two weeks passed without the bank taking action, and a court in Hamburg, West Germany, told Jaksic the Carin II was legally his.

The vessel was built in the Hamburg shipyards in 1937 as a gift from German industrialists to Goering, chief of the Nazi Gestapo and the Third Reich's air force.

Karl Mauser: Person In Portrait

by Stane J. Kuhar

Many of our memories are like a photograph, reminding us of people and places where time momentarily stands still and our past is once again relived. But we again remember that what has occurred cannot be altered and the past cannot be revisited.

Those photographs that have meaning to us are placed in a frame so that the pictures will not fade; and we display these framed photographs in our households to show others that we consider these particular photographs as significant occurrences in our lifetime.

One such memory of a person who was photographed many times is the now deceased Slovenian poet and writer, Karel Mauser.

Of all the Slovenian immigrants who were forced to leave Slovenia after the establishment of the Communist regime in Yugoslavia following World War II perhaps no other person except Mauser had the respect and admiration of the newly arrived Slovenians in the United States and Canada, in regards toward writing of their experiences.

Here was one person who was able to express the feelings and ideas on paper of these Slovenians who were referred to as "begunci" and, in other not so complimentary words.

Karel experienced many of the same oppressions and sufferings of the begunci and their many other wide experiences in Slovenia: working as a farmhand during his retreat from studios at the seminary in summer months, catering to poor and homeless in Slovenia, encountering fear, war, and death at the tragic and heroic stand by the Slovenian National Guard at Turjak, and many other events.

Despite his enormous intellectual capabilities Karl felt more at home with the average person rather than those who were capable of helping but used their talents specifically to promote only themselves. Titles were insignificant to him. It was what a person performed for the service of others that impressed Karel.

Upon arriving in Cleveland Karel sought and gained employment at the Cleveland Twist Drill Co. For approximately the next 20 years Mauser produced a huge quantity and quality of poems, essays, short stories, and novels. His works were

published in the American Home, Glasilo Naš Glas, Ave Maria, and other publications.

But perhaps his greatest accomplishment as a writer was the trilogy, *Ljude Pod Bičen* (People Under A Whip). This three volume piece of work underscored the events that occurred in Slovenia during and after the Communist takeover in Yugoslavia. This work has also been translated in Spanish and French, and perhaps one day will be published in English.

Compared to other novels the closest comparison would probably be Boris Pasternak (1890-1960) Russian spic novel, "Dr. Zhivago."

The last major book Karel was working on was the

U.S. wants more Yugo cars

The manufacturers of the Yugo GV said this week the car's American importers wanted to double yearly deliveries to fight competition in the quickly developing U.S. market for cheaply priced cars.

Rodoljub Micic, president of the Zastava automotive plant that manufactures the Yugo, said the company wishes to expand production to increase its U.S. market share.

He said the company wanted Yugo America Inc., its U.S. partner, to finance part of the estimated \$400 million required to expand production.

The *Politika* newspaper on Saturday quoted Micic as saying, "under the contract this year, we will have to deliver 60,000 Yugo GV cars to the United States, but the

American partner insists we double the amount.

"We were the first on the U.S. market in the cheap category, but if we want to stay there we shall have to urgently increase our production," Micic told the newspaper.

About 10,000 of the hatchbacks have been delivered since the car first appeared on the U.S. market last August and there is a backlog of orders.

At a list price of \$3,990, the Yugo has the lowest price tag of any car available in the United States. A Brazilian manufacturer plans to offer a car for about \$3,000 and cheap new South Korean and Japanese models are also slated for U.S. export.

Diet for a Healthy Heart

Looking for some reliable diet tips? Look no further. The list below has been compiled with your health in mind.

Highlights of suggestions made by the American Heart Association designed primarily to control lipids (fats) and cholesterol:

1. **Meats**—Choose chicken, turkey, and fish; trim or render fat from meats when possible. Avoid fatty meats, including goose and duck, hamburger, sausage, and bacon.
2. **Eggs**—Egg whites are OK, but limit yolks to those used in cooking.
3. **Vegetables**—Eat leafy green vegetables and dark yellow vegetables daily. If you need to restrict calories, cut down on potatoes, corn, and lima beans.
4. **Dairy Products**—Choose skim and low-fat milk products, including low-fat yogurt and cottage cheese. Avoid ice cream, cream sauces and toppings, cheeses made from whole milk, and fat-containing non-dairy creamers.
5. **Breads and Cereals**—Eat enriched breads and whole-wheat breads and cereals. Pasta is fine, but avoid egg noodles. Do not eat commercially baked goods, which may contain high amounts of fat.
6. **Fats and Oils**—Use all oils and fats sparingly. Choose corn, safflower, sunflower, soy, or sesame seed oil. Avoid coconut oil (used for frying in many restaurants), butter, lard, and completely hydrogenated vegetable oils and shortenings.

7. Avoid or use sparingly salt-cured, smoked, and nitrite-cured meats, such as some smoked fish, lunch meats, and bacon. □
