KRATEK TEDENSKI PREGLED

VRHOVNI SODNIK najvišega zveznega sodišča, William Howard Taft, je dne 3. februarja resigniral. Kot vzrok je predel slabo zdravje. Njegov naslednikom je bil po predlaganju Charles Hughes.

Seja zastopnikov vseh društva J. S. K. Jednote v Velikem Clevelandu se bo vršila v četrtek 6. februarja v Slovenskem Domu na Holmes Ave. Seja se prične točno ob osmi uri zvečer.

Slovenska mladinska šola S. N. Doma prične dne 7. februarja svoj drugi semester. Prijava novih učencev sprejemata tajnik Slovenskega Narodnega Doma. Nižje razrede poučuje Mrs. Antoinette Simčič in Mrs. Mary Ivanush, višje razrede pa Mr. Vatro J. Grill in Mr. Janko N. Rogelj. Slovenska mladinska šola postaja v vsakim semestru bolj popularna, dosega vedno lepše uspehe in število učencev se veča, da jim sedanj prostori postajajo pretesni.

Slikar Božidar Jakac se je pred par dnevi vrnil z ameriškega jugozapada nazaj v Cleveland. Zanimivo je njegovo pripovedovanje o doživljajih na zapadu in prav tako zanimive so slike, katere je prinesel tam. Začetkom marca se bo vršila razstava njegovih slik v Slovenskem Narodnem Domu, in takrat bodo imeli clevelandski in okoliški rojaki priliko občudovati mnoge posebnosti našega zapada, ki jih je videl z umetniškim očesom in izrazil v slikah mladi slovenski umetnik.

Slovenski Narodni Čitalnici je poslalo častno članarino v znesku \$10 društvo Carniola Tent No. 1288 Maccabees. — Četrto nedeljo v marcu priredi S. N. Čitalnica čajanko s tombolo.

Dramsko društvo "Anton Verovšek" vprizori v nedeljo 9. februarja tridejanko "Razvalina življenja" v Slovenskem Delavskem Domu na Waterloo Rd. Začetek o polu osmih zvečer. — Dramsko društvo "Triglav" vprizori na odru Slovenskega Narodnega Doma na St. Clair Ave. zanimivo igro v nedeljo 16. februarja.

V uredništvu se je oglasil so-brat Joseph Krotec iz Pittsburgha, član društva št. 26 J. S. K. J., ki je kot predsednik gl. porotnega odbora prisostoval letni seji gl. odbora SSPZ v Chicagu, pa je na povratku obiskal nekatere prijatelje v Clevelandu.

VPRAŠANJA ZA LJUDSKO ŠTETJE

Društvo George Washington, št. 180 JSKJ priredi v četrtek 13. februarja zvečer veliko plesno veselico v spodnjem dvorani Slovenskega Narodnega Doma na St. Clair Ave.

Seja zastopnikov vseh društva J. S. K. Jednote v Velikem Clevelandu se bo vršila v četrtek 6. februarja v Slovenskem Domu na Holmes Ave. Seja se prične točno ob osmi uri zvečer.

Po dolgih posvetovanjih je poseben odbor določil, kaka vprašanja naj se stavijo na prebivalca. Odbor je resno pretehal važnost raznih drugih vprašanj, ki so jih razne organizacije predlagale. Nekatere take sugestije je odbor sprejel, druge pa odbil. Točno število določenih vprašanj je 24, in ta:

1. Družinski odnosaj namen družinskemu poglavaru, všeči vprašanje, kdo je poslovni vprašanje.

2. Da-li dotočnik je lastnik stanovanja ali pa najemnik.

3. Vrednost hiše, ako je lastnik, odnosno, koliko znaša najemnika.

4. Da-li je radio v hiši (Da ali ne?).

5. Da-li družina živi na farmi (Da ali ne?).

6. Spol.

7. Barva in pleme.

8. Starost, zadnji rojstni dan.

9. Zakonsko stanje.

10. Starost ob prvi poroki (Samo za poročence).

11. Da-li je dotočnik pohajal šolo ali vseučilišče do 1. sept. 1929?

12. Zna-li čitati in pisati (Da ali ne?).

13. Rojstni kraj (Država).

14. Rojstni kraj očetov (Država).

15. Rojstni kraj materin (Država).

16. Materinski jezik za one rojene v inozemstvu.

17. Leto prihoda v Zedinjenih držav (Samo za tujerodece).

18. Da-li je dotočnik naturaziran (Samo za tujerodece).

19. Da-li govori angleški (Samo za tujerodece).

20. Poklic vsake zaposlene osebe.

21. Industrija, v kateri je zaposlen.

22. Da-li je delodajalec, za poslenec ali dela za svoj račun.

23. Da-li je zaposlen (Za vsako navadno zaposleno osebo, ki je sedaj brez dela, izpolni se posebne tiskovine o nezačlenosti).

24. Da-li je veteran vojske ali mornarice Zedinjenih držav — katere vojne ali ekspedicije se je udeležil.

Izmed najvišnjih novih vprašanj je ono, ki se tiče vrednosti hiše, ako dotočnik je gospodar, oziroma najemnik, ali je najemnik. Na ta način bo močno klasificirati družine po gospodarskem stanju odnosno po kupni sili. Taka klasifikacija je tako potrebna za poenca v tvrdki, ki vporablja federalne statistike v svrhu oglaševanja. Odgovori na taka vprašanja bodo služili le za statistične svrhe in poenini odgovori na taka vprašanja ostanejo povsem tajni.

Drugo novo vprašanje je ono, ki zahteva starost ob prvi poroki. Odgovori na to vprašanje bodo služili v dve svrhi. V prvi vrsti dožene se relativa starost ob poroki v raznih gos-

MLEKO NA METRE

Mleko spada med najvažnejšo ljudsko hrano, ne le za otroke, ampak tudi za odrasle. Mleko se uživa kot tako ali pa v obliki mlečnih izdelkov, kot so sir, maslo itd. Nobeno nadomestilo še ni moglo dozaj izpodriniti pravega mleka, ki se pridobiava od krav, kož in ovac, pa tudi od kobil, oslic, kamel in samic se vernega jelena. Seveda v takovih civiliziranih deželah pride v glavnem v poštev le krovje mleko.

Najbolj znano nam vsem je mleko v tekoči obliki, katerega dobivamo mi mesecami po posredovanju mlekarjev ali mlečarskih družb, farmerji pa naravnost od krav. To mleko se pri nas meri na kvorte in galone, v Evropi pa na litre. Dobri se tudi kondenzirano mleko v pločevinastih škatljah, kar je ugodnost za kraje, kojnor se ne more vsak dan dobiti sveže mleko. Prav tako se tudi mleko v obliki praska ali malih tablet. Tako mleko je potem treba raztopiti v vodi.

Na Danskem, kjer je mlečarska industrija tako razvita, so pa zadnje čase začeli prodajati mleko kar na metre, kot papir ali tkanino. To mlečno "blago" je malo debelejše kot navaden papir. Iz návadnega kravjega mleka se z gotovim procesom najprej vzame voda, potem pa se to kašo s posebnimi valci stisne v papirju podobno obliko, prav kot se v papirnicah iz lesne kaše napravi papir. Pravijo, da se tako pripravljeno mleko ne pokvarjeno obdrži po več mesecov. Pred porabo se kos "mlečnega papirja" raztopi v primeri količini primerne gorke vode. Lahko se pa tudi uživa suhega mleka. Baje na svoji redilni vrednosti nič ne izgubi. V nekaterih danskih bolnišnicah delajo poskuse s tovrstnim mlekom, ter so ti poskusi baje zavoljivi.

Ako mleko v obliki papirja v splošnem dobro prestane vse poskušnje in se med prebivalstvom priljubi, bo to velika pridobitev za mlečarsko industrijo, ker bo do odpadle neprilike odpošiljanja tekočega mleka in drage sanitarnje naprave mlečarn. In ako pride nov mlečni produkt do veljave tudi v Ameriki, bomo morda v doglednem času, mesto na kvorte, kupovali mleko na čevlje in jarde.

Nevarnost v pasjem in mačjem kožuhu

Slopošno je znano, da bolhe, ki se skrivajo v kožuhih podgan, prenašajo buboško kugo in druge nevarne bolezni. Malo-kdo pa ve, da se taki nevarni paraziti skrivajo tudi v kožuhih psov in maček. Eksperti zveznega poljedelskega departmanta so našli v kožuhih psov in maček 475 različnih vrst parazitov. Nekatere vrste tega mrčesa niso nevarne samo njih prvočinku, ampak se morejo prenesti tudi na človeka in povzročiti nevarne kužne bolezni, med njimi kugo in otroško tropično bolez, imenovano "kala-azar."

Približno takoj snubijo penguini, tisti čudni ptici polarnih krajev, ki hodijo pokonci kot človek. Ko se samski pengui hoče približati izvoljenki svojega srca, poišče najprej pripravljen kamenček na produ, ga slovesno prime v kljun in ga položi pred noge svojega pernatega idealna. Neda bi to moral biti baš dragi kamen, samo, da se njemu zdi lep in dragocen. Ako gospica penguinka kamenček sprejme in ga položi blizu sebe, pomeni, da je po penguinskih postavah zaroka pravomočna. Ako se Miss Penguin za kamenček ne zmeni, je snubač dobil "košarico."

IZ ŽIVALSKEGA SVETA

V marsikaterem oziru so živali učiteljice človeka, v marsikateri umetnosti ga daleč prekašajo in mnoge kažejo pri raznih opravkih toliko intele-

gence, da se jim moramo čuditi.

Ako bi človek primeroma svoji velikosti mogel tako visoko in tako daleč skočiti kot navadna bolha, bi z lahko preskočil vsak moderni nebotičnik. Kako bi na drugi strani pristal je seveda drugo vprašanje.

V neki letalski tekmi je A. H. Orleber frčal skoči zrak s hitrostjo 350 do 360 milj na uro. To je hitrejše kot more leteti katerakoli ptica. Toda bližnja sorodnica hišne muhe, srna muha, tako imenovana, ker napada hitre srne, da jima zaleže jajčeca v nosnice, leti s hitrostjo 815 milj na uro ali 400 jardov na sekundo. Leto torej hitrejše kot zvok v suhem ozračju. Ako bi te vrste muha mogla napraviti nepretrgani polet preko Atlantika, prémira bi daljavo med New Yorkom in Parizom v približno istotako tudi več društva Hrvatskega Sokola. Telovadne organizacije, ki se niso prijavile Sokolu kraljevine Jugoslavije, so razpuščene. Premoženje istih ni zaplenjeno, ampak se z istim razpolaga po pravilih dotočnih organizacij.

Za člane Sokola Jugoslavije bodo veljale znatne vojaške olajšave in ugodnosti. Aktivna vojaška služba, ki znaša 18 mesecov, se jim skrša na 15 mesecov. Onim vojakom, ki imajo pravico do skrajšanja vojaške službovanja, to je, ki služijo le po devet mesecov, se ta služba skrša na sedem mesecov in pol, če so pripadli Sokolu. Vojaki, ki so pripadali Sokolu Jugoslavije, bodo imeli prednost pri napredovanju in pri dopustih. Vseh navedenih ugodnosti bodo deležni vojaki, ki so bili včlanjeni v sedajni ali prejšnji telovadnih organizacijah vsaj pet let, vstevši leta načrta. To bo veljalo tudi za Orle, ki so po razpustu prejšnje organizacije vstopili v Sokola Jugoslavije.

Tržaški "Piccolo" priobčuje članek, v katerem dokazuje, da ima oboljimo koga, da ima dolgi ali prehiter jezik. Novega klepetulja pa se ne more v tem oziru niti od daleč meriti s kameleonom, ki pripada vrsti kuščarjev. Njegov jezik je takoj dolg, kot vse ostalo telo in rabi za lovenje muh, zato ima na konci neko lepljivo snov. S tem dolgim jezikom "ustrelji" tako hitro za nič hudega slutečo muho, da s sprostim očesom ni mogoče tega opaziti. Le s hitro fotografsko kamero je mogoče to zabeležiti.

Ako bi videli samskega moža, ki bi ženski osebi ponudil več karavot težki dragi kamen, in bi ženska to darilo sprejela, prišli bi najbrže do zaključka, da je mož snubil in je bil sprejet. Približno takoj snubijo penguini, tisti čudni ptici polarnih krajev, ki hodijo pokonci kot človek. Ko se samski pengui hoče približati izvoljenki svojega srca, poišče najprej pripravljen kamenček na produ, ga slovesno prime v kljun in ga položi pred noge svojega pernatega idealna. Ako se Miss Penguin za kamenček ne zmeni, je snubač dobil "košarico."

Petnajst let v Sibiriji. Župni urad v Šmiljavu je te dni prejel iz Sibirije priporočeno pismo od posestnikovega sina Jožefa Pejovnika, v katerem pogrešanec naznanja, da je bil leta 1914 v Karpatih ranjen. Rusi ga prijeli in odpeljali v Sibirijo. Nahaja se v Omsku, kjer se je oženil in ima dvoje otrok. Rad bi se vrnil v domovino in prosi, da bi mu župni urad prekrbel potrebne listine.

O prilikl poroke italijanskega prestolonaslednika Umberta so bile po vsej Italiji izvršene mnogoštevilne aretacije. MedARENTIRANCI je bilo tudi veliko število Jugoslovanov. Tako so bili na primer zaprti upravniki tiskarni "Edinost" Hinko Perrot, trgovec Josip Ščuka, lesni trgovci Josip Mihič in njegov uradnik Šešelj, trgovci L. Narobe, I. Pavlica, nadalje tajnik pri adyokatu g. Okretiču, trgovci Rehar, gdč. Tuhtanova, (Dalej na 2. strani).

Lepa beseda.

Današnji sistem je tak, da more le malokdo živeti samotarsko. V industrijskih krajih in mestih je to sploh nemogoče, pa tudi prebivalstvo farm se vedno bolj pritegneje v družbo. To največ omogočajo dobre ceste in avtomobili. Človek je že po naravi družabno bitje in je navadno rad v družbi, če mu je le mogoče. Večina nas je torej, ki prihajamo dnevno v večje ali manjše družbe in radi ali ne radi se moramo medsebojno pogovarjati. Pogovarjanje ali razgovarjanje, potrebitno ali nepotrebno je tako naše vsakdanje opravilo. Včasi nam je pogovarjanje prijetno, včasi nas zabava, včasi nas izvija in včasi nas žali.

Pravijo, da beseda ni konj, toda pikra ali zbadljiva beseda napravi včasi več škode kot splašen žrebec. Nesproti pa dobra in mirna beseda dostikrat pomiri družabno nevihto, prepreči ali ublaži spore, nam ohranja prijatelje in nam dela pot do novih prijateljev. Živa beseda je kot ogenj: neprecenljive koristi nam je, če prav ravnamo z njim, in silno škodo nam utegne napraviti, če izgubimo kontrolo nad njim.

Star slovenski pregovor pravi, da lepa beseda lepo mesto najde, in vsak se je lahko o resničnosti tega izraza že neštetokrat prepričal, če je hotel. Človek, ki ne opravlja, ne obrekuje in brez vzroka ne sumniči drugih, ampak ima za vsakega dobro besedo, je dobrodošel povsed. Ako ne ve povedati o svojem bližnjem nič dobrega, rajši molči kot bi raznašal njegove napake. Včasi je v tem oziru sicer treba napraviti izjemo, če hočemo, koga drugega obvarovati škode ali nesreče, toda, kdor je prave vrste možak, bo tudi to opravil na kolikor mogoče prizanesljiv način.

Prijazna beseda je kot solnčni žarek, ki razvedri srce in razjasni obraz. Lepa beseda odpre skoro vsaka vrata. Pred strupenim jezikom ljudje zapirajo vrata kot pred steklim psom, opravljuje se ogibajo kot strupenega gada. Tudi ukaze je mogoče dajati na način, da tisti, ki jih morajo sprejemati, ne občutijo njih teže. Dati človeku žogo ali jabolko v roke ali pa mu isto s silo zalučati v obraz tvori veliko razliko.

Če bi se vedno zavedali, da mi nismo brez napak, bi bili vedno prizanesljivi z napakami drugih. Ako bi vpošteli dejstvo, da dostikrat ne vemo za vzroke, ki so tega ali onega pognali na pota, ki se nam zdijo napačna, bi se malokdaj prenagliili z našo sodbo. Če bi pomislili kako malo nam ustreže tisti, ki raznaša naše resnične ali namišljene napake, bi sami kaj podobnega nikdar ne storili. Ako bi se zavedali kako lahko je komu vzet dobro ime in kako težko je isto povrniti, bi dvakrat premislišli predno bi rekli slabo besedo o njem.

Seveda, ako smo prepričani o zlobnosti ali hudobnih namenih tega ali onega, je pravilno, da opozorimo naše prijatelje naj se čuvajo. V resnicu hudobnih in pokvarjenih ljudi pa je primeroma malo, klub nasprotnim trditvam črnogledih reformatorjev.

Lepa in vlijudna beseda je na mestu vsaj v devetindvetdesetih slučajih izmed sto. In doseže se z njo stokrat več kot s trdo in strupeno. Trda ali pikra beseda vzbudi odpor v srcu vsakega človeka, ker nekaj kljubovalnosti je prijenočeno vsakemu. Lepa beseda pa ne doseže samo dobrih uspehov, ampak tudi lepa življenje vsem, katerim je namenjena.

Važnost lepe in vlijudne besede bi morali vedno vpoštovati tudi pri našem družvenem delovanju. Pri vsaki priliki bi morali imeti lepo besedo za našo Jednoto in društvo, kateremu pripadamo. Vse, kar nam morda pri društvene ugaja, skušajmo z vlijudno besedo in mirmom potom povrati. Društvo, v katerem vlada mir in prijateljstvo, je že samo na sebi privlačna sila za nove člane. In končno ve vsak uspešen delavec in agitator za J. S. K. Jednoto, da je dobrega novega člana mogoče dobiti le z lepo besedo.

Zivljenje je kratko in za nas vredno le toliko, kolikor smo imeli v duševnem in materialnem oziru užitka od istega. Prav zivljenjske sreče pa zmanj pričakuje tisti, ki vedoma in prenobljeno spravljajo v nesrečo ljudi, ki mu niso nič slabega storili in želite.

Izoljako nam bo žal, če nam je "marela" domišljavosti, sebičnosti in pretirane samoljubja brani sprememati izraze odkritega prijateljstva in naklonjenosti. Take vrste solnčni žarki bi nas mogli ohraniti duševno mlade.

Veliki človekoljub Abraham Lincoln je dejal, da ni zamudil nobene prilike, ki se mu je nudila, da izpuli osat in posadi na tisto mesto, cvetlico. Žal, da ima Lincoln tako malo posuemovalcer. Nekateri ljudje pa sploh misijo, da največ koristijo človeštvo, če sadijo samo truje in osat.

Neka Miss Harman in državi Nebraska toži svojega častnika za deset tisoč dolarjev odškodnine, če, da jo je tako stisnil k sebi, da ji je natr par reber. Ženskam res nikdar ne ustreže. To je vedel že slovenski pesnik, mislim, da je bil Kette, ki je zapisal: "In grozen, res, s tabo je, ljubica, križ, ker sama ne veš, kaj da hočeš; saj če te ne ljubim se kislo držis, in če te poljubljam se jočeš!"

Pravijo, da se prebivalci Greenladije ženijo večinoma pozimi. To je verjetno. Greenladija je daleč na severu in zimska noč trajá tam tri meseca skupaj; izjava "jaz te ljubim" se pa v jeziku Greenladije glasi sledeče: "Univigssaeerntduinolenerfironungarsuguk." Zdaj pa pomislite koliko te noči porabi greenlandski šejk samo za to, da svoji severni zvezdi pove kaj mu je na srcu. In bogovi naj mu pomagajo, če še malo, jeclja!

VPRAŠANJA ZA LJUDSKO ŠTETJE

Vprašanje o radio aparatih poda direkten odgovor, koliko pravzaprav znaša mogoče poslušalstvo.

Klasifikacija zaposlencev v industrijskih po poklicih oziroma strokah teži po točnejših podatkih o poedinih industrijskih. Popisovatelji bodo posebno pažljivo na to vprašanje.

Zenske, ki se bavijo s gospodinjstvom v lastni družini ali vroščijo druge domače odgovornosti, bodo navedene kot "home-makers." Ta odgovor bo naveden v rubriko družinskih odnosov in ne v ono za posljenja, tako da ženske, ki so v profesionalnih in drugih poklicih in ki so tudi gospodinje, morejo biti klasificirane v obeh poslih.

Posebna rubrika o nezaposlenosti bo vsebovala nekoliko vprašanj, iz katerih bo mogoče porazdeliti ljudi brez posla v one, ki sploh ne dela, v one, ki navadno dela, ali so zasebno brez posla, itd.

V rubriki barve ali plemenite je bila uvedena posebna skupina za "Mehikance," v katero bodo vsteti vsi ljudje mehikanskega potomstva, razen akko so odločno belokožci in razun male skupine, ki bo klasificirana med Indijance.

Tudi topot se bodo klasificirali tujerodci, ki se vredno tvojijo važen del ameriškega prebivalstva, po državi rojstva, po materinskem jeziku (ki je dostikrat boljše kazalo narodnosti nego rojstna država), po letu priselitve v Ameriko, po ameriškem državljanstvu in po znanih angleščine.—F.L.I.S.

"Novosti" poročajo z Reke: O priliki prevzemanja poslov novega fašističnega sekretarja za kvarnersko provincijo so se vrstile te dni na Reki velike fašistične srečnosti, ki so se jih udeležili vsi odličnejši fašisti, kateri tudi predstavniki oblasti.

Gospodarski vedeni so v domačini in zveznični vladni organizaciji, ki so se udeležili na prizorišču srečnosti, ki je bilo organizirano v takozvanem Hauptmannovem grabnu. Gotovo je starec na ledu padel, omedel in potem zmrznil. O kakem napadu ne more biti govor, ker je bila njegova gotovina nedotaknjena in je mož imel daleč naokrog samo prijatelje.

V Ljubljani je preminil v 59. letu starosti Franc Bergant. Pokojnik je bil do vojne gostilničar na Sv. Jakoba trgu, pozneje pa trgovec z mešanim blagom. Bil je neumoren in požrtvovanem društvenim delavcem. Jugosloven in naprednjak, katerega je malo med nami. Med vojno so se v njegovem lokalnu zbirali jugoslovenski in češkoslovaški identisti. Zdaj je imel povod poslov poslov poslovnu nasledniku dr. Grbacu govor, v katerem je izredno izredno, a vendar jasno priznal obupen gospodarski položaj, v katerem se nahaja Reka. Da je efekt tega svojega priznanja vsaj nekoliko ublažil, je dodal: "V času, ko vladala na Reki jok, se tudi drugje v Italiji nikdo ne smeje." V svojem govoru je nadalje podal program za reševanje Reke in priponmil, da je dolžnost fašistov razvijati na tej obmejni točki svojo največjo delavnost, da bi občutili bratje na drugi obali črveno voljo in skupno srce v pričakovani ure, ki gotovo pride. Z vzklikom "Eviva Dalmatia" je bilo zaključeno slavnostno zborovanje.

Na Uncu pri Rakeku se je sprla posestnica Agata Leskovc s svojimi domaćimi zaradi zemlje. Prepirali so se že večkrat, vendar se ni starata mati še nikoli tako zelo razjezila, kateror to pot. Med prepirom je namreč 90-letna stara pograbila za nož in se parkrat sunila v prsa. Domači so se prestrashili in so moral hitro telefončno poklicati ljubljansko rešilno postajo. Obupano žensko so prepeljali z rešilnim vozom v ljubljansko bolnično.

Njegova izvedljivite je izvala sproščeno odobrenje. Pokazalo se je, da je med moškimi pri volitvah za "mister" manj zavisti kot pa pri nežnem spolu, ko se je odločevalo o "miss." Sedaj ima Kranj najlepše dekle in najlepšega fanta.

Začetkom januarja je premil v vsej Škofiji Loki znani in občne spoštovani čepljarski mojster in hišni posestnik g. Mijo Blaznik, ki ga je smrt ljubljene soprove pred poldrugim letom močno potrla. NEW ERA SUPPLEMENT

Edited by Louis M. Kolar.

Current Thought.

MODERN IDEAS

As the mind is, so is the heart, the bones, the arteries, say modern philosophers. It is the wrong kind of thought that keeps the body in a state of decrepitude, or as fresh and youthful as the spring. The fact that it is no longer fashionable for women to grow old and sit in the chimney corner is one of proofs of the trend of thought. The fact that there is no longer a chimney corner to retire to does not make any difference, nor hinder the trend. Nowadays youthful strength and beauty are carried through the years as part of the education, and it can be done is proved in greater or lesser degree by different people.

Where members of the S. S. C. U. have filled themselves with thoughts of chimney corner decrepitude as their fate, natural that such conditions possibly should overtake them and grow into their bones. In order to unbuild such old thoughts of weakness and age every cell of the body must respond to your preparatory thought. In your true self you realize youth as superior to years and to the age thoughts have been building into the body. Be faithful in reminding yourself of this truth. Never mind if it makes you nervous to the cells of your body that have settled down under age belief are getting more and more hardened.

POSITIVE THINKING

The awakening of new thought makes them restless nevertheless they will respond with joy, and the longer you wait the sooner they take on new form. Man must be positive upon investigation one will find that in every community a hundred rich married men to one rich bachelor. Indeed, the prevailing belief is that men never saved anything until after they got married or really got down to the business of money-making. It was only after they got married that they put their hearts and their backs into their jobs.

YOUTH MUST LEAD

This appeal is made to the younger element of the S. S. C. U. Let us be quick in grasping new ideas that perhaps are rather modernistic, but ultimately prove to be of real value. Sooner or later a comparative new thought becomes the dominating style, making us follow in slow order. Why not realize there is a new and limitless ocean of invigorating thought from which to draw.

The same is true with new thought concerning our own C. U. Let us be quick in grasping new ideas that perhaps are rather modernistic, but ultimately prove to be of real value. Sooner or later a comparative new thought becomes the dominating style, making us follow in slow order. Why not realize there is a new and limitless ocean of invigorating thought from which to draw.

WASHINGTONS GIVE DANCE

Cleveland, O.—George Washington Lodge, No. 180, is going to hold a dance at the lower hall of the Slovenian National Home on Thursday night, Feb. 13, the eve before Valentine Day.

As usual, the members of the lodge have worked hard to make this dance a success and have taken advantage of all opportunities. Johnny Gribbons and his Radio Boys are going to furnish the music. This orchestra has a reputation that is the envy of many orchestras, as they offer a diversified program during the entire evening.

A large crowd is anticipated, as the Washingtons are known to be thorough in preparations necessary to assure the guests of a pleasant evening. If you recall the barn dance, you will remember the picturesque scenes prominent in the hall. However, this dance will contain many surprises that have not been seen for many a moon at any of the dances held in the Slovenian National Home.

OLD MONEY

More than 180 tons of old paper money is stored in the Treasury Department strong-boxes, and the old-style bills continue to arrive at the rate of six to seven tons daily. Formerly old money was reduced to pulp, then baled and sold.

Now it is destroyed in a furnace, the Treasury concluding the profit of the pulp sales is too small to pay for handling. Uncle Sam's currency has never worked so hard in former times as it works these days.

MARRIED MEN VS. BACHELORS

According to the recent report of the American Statistical Society, the death rate for single and widowed men is twice that for married men. Most of the male inmates of the insane asylums and almshouses are unmarried men. This is quite contrary to the popular belief that single men with no one dependent upon them find life much easier than the married men. Perhaps life to a married man may seem somewhat longer than to a single man, but no statistics have been shown heretofore to prove this theory.

There is no reason for a surprise in the matter. It is perfectly logical. The very monotony and lack of excitement of the domestic life are its chief assets from a hygienic point of view. Obviously the candle that is snuffed out at 10 p. m. lasts longer than the one that is burned at both ends.

More Prosperous

The thing that keeps more men from marrying than anything is fear of the price. Yet upon investigation one will find

that in every community a hundred rich married men to one rich bachelor. Indeed, the prevailing belief is that men never saved anything until after they got married or really got down to the business of money-making. It was only after they got married that they put their hearts and their backs into their jobs.

As long as a man has no one but himself to think of he feels free to throw his money about as he pleases, and to loaf and invite his soul whenever he is so inclined. It is a different story with a married man because he has a wife and children to support, giving him the strength and energy to fight his way through incredible difficulties to success.

"VARSITY" OF ELY AND AURORA HIGHS

Ely High School claims its share of Slovenian basketball players. In one of the games played recently with Aurora High the final score was 23 to 16 in favor of Ely. Krall, playing center, made 8 points; Grahek, playing guard, made 3, while Tomsich, playing forward, made 7. A total of 18 points out of 23. Other Slovenian basketball players on the varsity squad are Antoncich and Pucel, forwards, and Brobin, guard.

Aurora High also has a number of Slovenian players. They are as follows: Smolish, Alich and Orazina, forwards; Nemanić, Kmet and Angelc, centers; Ogrinc, Kotchevar and Debloch, guards.

Ely Junior College has the following young men on its basketball squad: Grahek and Smrekar, forwards; Banovetz and Skala, guards, and Gerzin, center.

All of this goes to show that the Slovenes in the state of Minnesota are much more prominent, proportionally, in athletics than are the Slovenes in the eastern part of the United States. More power to them.

ENCOURAGING FACT

Chancellor Lindley, our favorite university head, defends the profit of the pulp sales is too small to pay for handling. Uncle Sam's currency has never worked so hard in former times as it works these days.

BRIEFS

PRUSCHEK'S PAINTINGS

(Pittsburgh Sun)

Adolph Dolinsek of Ely, Minn., won the sportsmanship prize awarded for catching a 32-pound lake trout in Snowbank Lake about a year ago. Shakespeare Tackle Co. offered the prize.

Frank Okoren, John Znidarsich, Victor Debelak, Stanley Paulich, Mike Savonich, John Blatnik, Matt Gersich and other Slovenian boys of Chisholm, Minn., were given Scout awards for the exceptional work done as members of the Boy Scouts.

W. Marion Candon of Cleveland, O., enrolled in a class of nursing at City Hospital. She has a wide acquaintance gained through her earnest participation in lodge affairs.

W. H. Taft, chief justice of the U. S. Supreme Court, resigned on account of ill health. President Hoover appointed Charles Evans Hughes in his place.

JOLIET, ILL. BRIEFS

Bro. Frank Pirc, secretary of Lodge No. 66, S. S. C. U., believes in doing things thoroughly; he has made special arrangements at his residence to facilitate the performance of his work. In fact, he is doing everything possible to boost our popular SS Peter and Paul Society.

Bro. Johnny "Duge" Horwath, No. 66 star bowler, has returned from a two weeks' visit to Florida. He is feeling fine and is in readiness for the return pin tourney with the "big shot" Waukegan Comrades.

Bro. Johnny Lunka sacrificed a recording secretary position in a local pleasure club of Joliet, Ill., in order to take over the important trustee duties of our SS Peter and Paul Lodge.

The local sports are surely pleased to know that Frank "Navy" Rostan, welterweight boxer of Joliet, is now a fistic instructor in an army camp down in Texas. Rostan boxed in one of the preliminaries of the famous Willard-Johnson bout. Later on he was matched with Mickey Walker for the welterweight title, but lost the fight.

Bro. Eddie Ivec, Johnny and Albion Zlogar, popular musicians, are preparing for a busy spring and summer engagements with our progressive Slovenian lodges.

Sunday afternoon, Feb. 16, is the date of the next regular meeting of our lodge, No. 66, S. S. C. U., and will be held in the lower section of the Slovenian Hall. All members are urgently requested to attend. Refreshments will be served after the meeting. Come one, come all!

Joliet Slovenes have recently organized a non-partisan political club. Such a club was very much needed, as revealed by popular sentiment. Bro. Joseph Zalar is honored with being the first president, while John Zivetz is honored with the secretaryship. The purpose of the organization is to educate the Slovenes toward Americanization, and to seek the much deserved recognition of our nation.

INTER-LODGE BOWLING

Cleveland, O.—George Washington Lodge bowling team took two games out of three from Betsy Ross team Sunday, Feb. 2, in the Inter-Lodge League tussle. The first game was a close one, in which the Betsy Ross nosed out the Washingtons by three points. Both lodges are members of the S. S. C. U.

Drobnič and Mandel were high men, each scoring 217 and 213 points, respectively. Glavan and Starman came in with 199 and 191, the next highest. Both teams have shown plenty of improvement since the beginning of the Inter-Lodge League.

TOTALS

Bare Facts**Head-Hunters**

Many people in different parts of the world still hunt for human heads. There are head-hunters in Burma, Siam, New Guinea, Africa, Borneo, and many other regions. The practice survived in England as late as the middle ages and in some parts of Europe until a few years ago. The New Encyclopedia Britannica, published this year, says: "In Europe the actual survival of the practice is probably limited to the Balkan peninsula.—Here the complete head was taken by Montenegrins at any rate as lately as 1912, the head being carried by the lock of hair worn apparently for the purpose. In the Balkan war of 1912-13, nose taking was substituted, and it was the practice to cut off the nose and upper lip with the moustache by which it was carried instead of the whole head, just as in Kafiristan and in Assam an ear is sometimes carried off instead of the whole head."

Life of Parrot. It is supposed that some parrots live considerably more than a century. There is a definite record of one specimen, a gray parrot, that lived 99 years.

Constantinople is controlled by the Turkish republic, which is restricted to some extent by an agreement with other nations as to trade through the Bosphorus and Dardanelles in time of peace as well as in time of war.

Magnetic Pole. The north magnetic pole is several hundred miles south of the north pole. It would be impossible for any point to be further north than the north pole. Any other point must necessarily be south of it.

U. S. Control of Haiti

In 1915 the congress of the republic of Haiti ratified a treaty with the United States by which the latter agreed to assist in the establishment of responsible and orderly government. This treaty provides for a number of American advisers to the Haitian government, appointed by the president of Haiti on the recommendation of the president of the United States. These advisers supervise the constabulary, finances, public health, public works, and agriculture. Since 1915 Haiti adopted a new constitution—1918. Pending the creation of a senate and a chamber of deputies the legislative and executive power are exercised by a council of state composed of 21 members appointed by the president of Haiti, and holding office during his pleasure. The president is elected by this council for a period of four years.

Ounce of Coal

A careful account is kept of the fuel consumed by every locomotive of Class 1 railroads. The Bureau of Railway Economics, which keeps the record, reports these railroads consumed just one-fifth of an ounce of fuel last year to haul one ton of freight and equipment one mile. Or, putting it another way, for every pound of coal or its equivalent consumed by freight engines, the roads hauled 78 tons of freight one mile.

Safe Listens for Burglars

Science is after the burglar. A new safe "listens" for burglars, and hearing them, gives the alarm. Any attempt made to open the safe is heard by "ears" which set up vibrations. The vibrations ring a bell and switch on the light. The future burglar will have to be a scientist.

SUCCESS

To gain success we must have ambition and moderation. Ambition to push us forward, keeping us forever restless dissatisfied with what we have done; and moderation controlling efforts, regulating our pace—those are the guardian spirits of life. To work with all your power, knowing what you do, what you are trying to accomplish, working with a plan and within our strength means success.

Ambition has occupied the minds of men and has pushed the world forward since the beginning. We cannot be angels, angles cannot be gods, toads cannot be as big as oxen, but every effort along lines of common sense, based on ambition, is a good one. In trying to be angels we become better. Ambition is like a coward it never looks back. It doesn't look back while going ahead, but often looks back ruefully, later, when it takes the wrong direction.

If on the other hand we lacked the will over the moderation that enables us to hold our impulse in check, we should be a band of destructive savages, ignoring each others rights, and in place of law and gradually increasing civilization. We should have anarchy and the horror of unrestrained impulse and selfishness. Moderation is the pleasure of the wise and true happiness springs from moderation. When we talk of moderation we refer to moderation in pleasures that we foolishly carry to excess. Moderation is to be practiced by us, that we may conserve our energy for the noble works of ambition.

Somebody must produce what is needed, somebody must wear and use what is produced. Ambition and moderation put together means success and building of the Temple of Life. Let each and every one take a few points from this, get the ambition and moderation needed for success, put them side by side and weld them for they build the Temple of Life for us; in return let us get one-tenth of ambition and moderation and increase the membership of the S. S. C. U. and thus build the Temple of the S. S. C. U. We all have the ability let's show ourselves up and increase our lodge membership and build the Temple of the S. S. C. U.

OLD RECORDS

There are definite causes for superstition, misgovernment and crime, just as there are definite causes for typhoid fever, or smallpox. By the same token there must be definite remedies. Some day, perhaps, we shall know why certain delusions appeared and why certain great civilizations collapsed. When we do, we shall have a much clearer idea of the purpose, education, government and welfare work should serve.

That is why Maya temples, Egyptian pyramids, Greek art and Roman law are worth studying. Most people confuse history with the written word, but the relics of religion, commerce and art often furnish a more reliable record. The altars, houses, tombs and cooking utensils of a people leave a vivid picture of what they hoped, felt and knew. Also, a vivid revelation of their blunders, shortcomings and mistakes.

No Taxes

The citizens of principality of Monaco are required to pay no taxes. The revenue is derived entirely from the Monte Carlo Casino.

TRY THIS

You have tried out a number of mathematical calculations. Try this one out, as it is cunning. It has to do with finding out the number of living brothers and sisters in one family and goes so far as to determine the number of dead ones.

Take the number of living brothers in your family and multiply it by 2. Add three and multiply the result with 5. Add to this product the number of living sisters, and multiply the result by 10. To this add the number of dead brothers and sisters. Subtract 150 from this total and the answer, reading from left to right, will give you the number of living brothers and sisters, and the total number of dead ones.

For instance, there are two living brothers; multiplied by 2 gives 4. Add 3 giving 7, and multiplying by 5 gives 35. As there are 3 living sisters the sum equals 38, multiplied by 10 gives 380. Adding 2, the number of dead brothers and sisters, gives a total of 382, and subtracting 150 from this gives 232. Hence, there are 2 living brothers, 3 living sisters and 2 dead members of the family.

CHICAGO

Big Bill Thompson of Chicago says that he is not to blame for Chicago being broke. He blames the reformers—men who organized to stop gang rule and racketeering. He is also quoted as saying that the state of Illinois must pull Chicago out of the mud.

What has happened to Chicago can happen to any American city, with the requisite amount of incompetence, graft and corruption. There is nothing about a city which puts it beyond bankruptcy in a financial or moral way.

If we have grown to look upon cities as capable of withstanding the effects of lawlessness and malcontent, it is largely because we still have the power of self-illusion. Instead of regarding Chicago as strange, exceptional, or different from our own community in fundamental respects, we should take its present condition as a warning of what can happen anywhere, and what is bound to happen if average citizens neglect their duty.

The Seasons

The Spring
Is a maiden,
Dancing with timid feet
Across the fields, and strewing
them

With flowers.

Summer
Is a woman,
Grown to maturity;
Deep-bosomed, and voluptuous
With charm.

Autumn
Is a firebrand,
Racing upon the hills.
At his swift touch, the forests
leap
In flames.

Winter
Is an old man
Withered and gnarled with
age,
Whose icy fingers vainly clutch
At life.

Millions Live in Hotels

In one year 6,000,000 persons register at the 126 midtown hotels of New York City. Their daily registration, with their 44,216 rooms, is 17,000 guests. These hotels represent an investment of \$100,000,000 and they provide more than 125,000 persons with work. The hotel business has become one of the big industries of cities, and homemaking is suffering accordingly.

GRAPES FROM VINE-LAND

The first sturdy Vikings who found America were so impressed with the abundance of wild grapes that they named this country "Vineland." There is plenty of evidence to believe that the grape is one of the earliest fruits, the grapevine probably being one of the numerous creeping vines to grow out of the mud of the Paleozoic jungle. The records of grape cultivation go back for over 5,000 years, but the Phoenicians were the first to cultivate the grape extensively. As far back as we have any recorded history we know that grapevines have been found growing wild in every temperate and torrid zone of both hemispheres.

Native Grapes

In America the largest amount of grapes come from the Pacific Coast, where about 80 per cent of the grapes in the American market are raised. It is interesting to note that many of the most popular grapes raised on the Pacific Coast are from the same varieties mentioned in ancient history. The eastern sections of the country raise the Concord, which is a black grape and used a great deal for table purposes, although also made into grape-juice. These eastern and temperate zone grapes do not keep very well in storage, but the Malaga, Tokay and Emperor grapes from California are packed in sawdust or cork and shipped to all parts of the world, as they keep quite well through the winter season if properly refrigerated. These grapes are carefully packed so that each grape is separated from its neighbor by the sawdust, keeping them in perfect form.

De groom had on a pair of tight fitting pants vot he got on a fire sale. Dey was so tight dat every time he sits down he sits up. De rabbi vas dere, Mrs. Rabbi and all de leetle rabbits, and so der veding vas commenced. Only de rabbis is a leetle cross-eyed. OUR TASK

Our task is a big one. Our first task is with ourselves. We must humanize ourselves, root out war, greed, dishonesty, competition and selfishness. We must improve the human breed until the intellect of the lowest child, half grown, shall exceed in power the mind of the most highly developed man of today.

The main work is to develop a race worthy of this magnificent earth, then follows the material task, slowly and gradually to be accomplished through thousands of centuries.

We often ask ourselves, "Why were we put here?" We know only vaguely. Why in our short lives should we take advantage of one another, struggle to rise one above another, murder each other, wholesale in war and retail in the gutter; why we fear death, which must be a blessed relief, and why we value so intensely, and struggle so desperately, for the applause of the mass, which amounts to nothing, we don't know. One thing we do know, that there is work at hand, and we are here to do it.

We were put here to beautify the earth, take care of it and make ourselves better as we improve the earth. We are in this one now, and our task is to take care of it and improve it. While we work here we may dream of a limitless future and believe in it.

Let us do our task in the very best way, let us think as we go along, and not be like worms who work in darkness and ignorance. Perform your tasks to make the earth the garden of rare beauty; make a special task for yourselves and increase the membership of the S. S. C. U., let your tasks be the books for your children, let them mold their lives by doing their share as you are doing now.

Let us hope that we may be permitted to come back to finish our work, do our share and live here when the world really becomes worth while, or at least that we may look down and see what our descendants are doing, as a proud father and mother watch their children succeed. Our lives are short, so perform your tasks the best you can. Remember, "our task" is to make the world better.

GUM AND RUINS

For the first time in the history of the Slovenian National Home of Cleveland, O., a boxing show will be held there. Ten bouts have been scheduled, chief of which is the one between Eddie Simms and Ernie Young, colored heavyweight.

Frank Gornik and Guy McDermott are listed in the 130-pound class, Ralph Martin (Antoncic) will battle Johnny Jazlo in the 147-pound class, Stanley Yaeger vs. "Lindy" Kotnik in the 160-pound class, and others.

John Gornik Jr., son of the supreme president of the S. D. Z., is the promoter of the fight, the proceeds of which are to go to the Slovenian Young Men's Club, No. 36 S. D. Z., of Cleveland, O.

TATTLETALES

Your hands are always talking,
But I am not sure they say
The words your smiling lips form,
Velvet smooth and gay.
Your hands are less satirical,
Less courteous than they.
Hands that one forgets to train
Are honest, telltale things.
Such hands, my dear, should never
Go underscored by rings!

Društvo sv. Martina, št. 105
JSKJ, bo priredilo v nedeljo
16. februarja plesno veselico v
Narodnem Domu. Godba bo
domača, nameč na harmoniko.
Tega dne, to je 16. februarja, se vrši tudi redna seja
društva št. 105 JSKJ, torej so
člani prošeni, da se seje in ve-
selici polnoštevilno udeležijo.
Priporoča se članom tudi, da
privedejo v društvo tudi svoje
priatelje, ki še niso člani. Dasi
delavske razmere v teh časih
niso dobre, se naše društvo ven-
dar dosti lepo razvija, in ako se
bodo vti člani malo potrudili
se bo še bolj.

Torej, da se vidimo na ve-
selici v nedeljo 16. februarja zve-
čer v Narodnem Domu! Za red
in vso postrežbo na veselici bo
skrbel društveni odbor.

Z bratskim pozdravom.

Člane društva Sv. Srca Jezusa, št. 159 JSKJ, obveščam, da
bilo na zadnji seji sklenjeno,
da kdor se ne udeleži seje vsaj
na vsake tri meseca enkrat,
plači en dolar v društveno bla-
gajno. Izgovor je le bolezni ali
delo. Sklenjeno je tudi bilo, da
se naše redne seje vrše vsako
drugo nedeljo v mesecu točno
ob 10. uri dopoldne. Po seji se
bo pa vzdignilo eno ime, in
kdor bo tako srečen, da bo nje-
govo ime vzdignjeno, dobri en
dolar nagrade. Ako dotični
član (članica), katerega ime
bo vzdignjeno, ne bo navzoč,
seveda ne bo dobil nagrade.
Drugo sejo bo nagrada dva dol-
larja in tako naprej, dokler ne
pride do petih dolarjev, potem
bo pa stalo toliko časa, da en
član ali članica bo nagrada do-
bi. Ako kateri član ni zadovoljen,
ozioroma ako ima boljše
mišljene, je prešen, da pride
na sejo in pove isto.

Z bratskim pozdravom,

vi, da si izvolimo novega bla-

Novo Dobo prejemam že ne-
kaj mesecev, in kadarkoli jo do-
bit, pogledam najprej na za-
padni del prve strani, kjer se
mi smeje kolona "Vsak po svo-
je." Humor je menda za vsa-
kega neprecenljive vrednosti.
Jaz kolono prečitam še po več-
krat. Nekaj mi ostane v spominu,
nekaj pa izgine med
smehom, ker človek je "busy,"
pa še v letih, in čaka, da list
drugi teden zopet kaj smešnega
prinese v Canada.

Piše in poroča se mnogo o
uspehih znanosti, o bogastvu
deželi itd., malo pa o revščini.

Ako je uredniku prav, se za ta

list prostovoljno ponudim jaz za
poročevalca o revščini in trpljenju.

Plača naj le za poštino,

pa sem na razpolago. Tudi od

tukaj bi bilo za poročati kakšne

zanimivosti, čeprav samo o rev-

ščini. Povem pa, da tu nam ne

skrajejo ribe same v čoln, kakor

pri vas. Tukaj se raje čoln

obrne in gre ribič v ribjo domovino.

Junak je bil Slovencev

in ko se je iz ledene reke iz-
kobacal na ledeni breg, je par

takih zinil, da jih ni za zapi-

sati. Potem je pa dejal, da ni-
koli več nobene ribe niti na tr-
gu ne pogleda.

Da pa širša slovenska javnost

v Ameriki nas canadskih Slo-
vencev ne bo preveč v nič de-
vala, moram poročati, da imamo
dobro zaščito od Jugoslavije.

Pravih Slovencev, kateri

Jugoslavijo priznavajo, je tu v

Winnipegu okrog deset, kak-
šen teden več, kakšen teden

manj, kakor je vreme. Koliko

je tu drugih Jugoslovanov, ki

se priznavajo ali ne priznavajo

za Jugoslovane, mi nis za-
nano.

Vendar smo bili dobili pred

drevni leti državnega zastopnika

ki je v eni sapi pridrivel iz

Beograda v Winnipeg, da nam

pomaga. Ker pa je imel pre-

malu nesreč zabeleženih v letni

statistik, so ga enostavno na-
zaj v Beograd poklicali in eks-

presno poslali družega, ki je

govoril perfektno "črnogorsko."

Pa so menda bali, da bi se

naučil še angleščine, torej so

tudi tega družega v kratkem

poklicali nazaj v milo domovino.

Sprejem vsakega je bil prav

prisrčen, tudi za kakšen "kra-
herle" smo ob taki priliki sku-

paj stolki, odhod je bil pa po-

polnomu tih in tajen. Le de-

bla je "jamrala," ker je mora-

la iz kleti znositi številne ste-

klenice in židovski voz najeti,

da jih odpelje. Sedaj imame

enega penzioniranega stotnika,

s katerim se je mogoče pogo-
voriti po srbsko, z njegovim taj-
nico pa po francosko. S tem so

tudi manjši stroški kot so bili

s prejšnjimi. Prej je naše ju-

goslovene, dava v kopalceval-

stala ta pisarna okrog \$700 me-

sečno, zdaj pa stane okoli \$450

na mesec. Prilike so bile sicer

prej bolj ugodne, kajti že po

DVEH mesecih so ti slovenski

pismo prestavili v angleščino.

In če komisar svojega pisarja

ni rabil za tolmača, si ga je

pa dobil vsaki prvi petek v me-

secu. Ce se ta ni sramoval iti

tolmačit, se je pa pred pisarno

skesal (ga ni notri). No, sedaj

nam se tega ni treba, se vsaj

manj čevljev raztrga. Naši če-
vljarijci v rodni gradi pa vseeno

predno "cveke" zabijajo za naše

državne zastopnike. Bog popla-

čaj!

Iskren pozdrav vsem ameri-

škim Slovencem!

Frank Janež.

Dne 15. januarja je pone-

rojak F. Nemanič. Pogreb se
je vršil 26. januarja ob veliki
udeležbi znancev in članov
društva K. of P. Zelo lep po-
grob so vodili člani in uradniki
društva K. of P. sami. Iz go-
