Danes bo večinoma oblačno in deževalo bo, a temperatura bo dosegla 45 stopinj. Na večer bo hladneje z temperaturo 30 stopinj, za jutri pa je napoved, da bo lepše vreme.

Po dveh urah iskanja je večeraj popoldne neki policist potegnil iz tri čevlje globokega potoka pet let staro dekletce, Diane Donnelly. Dekletce, ki je gluho in nemo, se je igralo na dvorišču doma na 27844 Knickerbocker Rd., ko jo je mati nenadoma pogrešala. Razen, da je bila deklica premražena in prestrašena, se ji k sreči ni nič hujšega pripetilo.

Snoči je bil ubit od avtomobila ko je prečkal cesto na Hough Ave. 55 let star brezposelni mornar Arthur E. Ferguson, ki je živel na 7631 Lexington Ave. Avtomobilist, ki ga je zadel, je bil aretiran ker je vozil avto z začasnim dovoljenjem.

Neka 25 let stara ženska je ponoči porodila svojega petega otroka, katerega je potem vrgla v posodo za smeti in zažgala. Ob lastem, ki so jo aretirale, ni moglo pojasniti vzroka svojega čina. Rekla je le, da sta z možem pričevala svojega petega otroka. Ponoči je vstala, da pogleda na tri-letno hčerko, ki je bila bolna, ko so se pojavili poročni krči. Njen mož ni vedel, da je porodila.

Policija je aretirala nekoga vlomilca, ki je vdrl v stanovanje Walter Blodgett na 1893 Alvan Rd., nato pa zbežal ko ga je zasačil Blodgett. Blodgett je spal, ko ga je zbudil šum v sosednji sobi. Misleč, da je prišel naveden oče domov, je vstal in videl vlomilca baš ko je stikal po žepih njegovega suknjčiča. Vlomilec je s plenom zbežal. Policijanci pa se je razporedila po okolici in ga zajela ravno ko je mislil vstopiti v avto.

Nasser povedal vsem, kako in kaj glede Sueškega prekopa

KAIRO, Egipt—Egiptska oblast za obratovanje Sueškega prekopa je razpolala pisma raznim parobrodnim družbam, katerih ladje so v preteklosti uporabljale Sueški prekop, v katerih se jih obvešča, da se pristojbin za rabo prekopa ne bo moglo plačevati bodisi v britanski ali francoski valuti.

V cirkularnem pismu je navedenih sedem valut, ki jih bo Egipt sprejemal od ladij iz zapadnoevropskih držav. Te valute so—danska, norveška, švedska, belgijska, nizozemska, italijanska in nemška. Ampak tudi za te valute velja pogoj, da morajo biti izmenljive z vsakim denarjem pri evropski plačilni zvezi po tečaju, ki ga določi mednarodni denarni fond.

Indijski rupije bo Egipt sprejemal za indijske ladje, ki bi rabile prekop.

Vse druge ladje, pravi cirkularno pismo, naj bi plačale pristojbine v ameriških ali kanadskih dolarjih, švicarskih frankih ali v katerikoli drugi valuti, ki bi bila sprejemljiva za egiptsko izmenjevalno kontrolo v soglasju z naročili kanalske oblasti.

Prvo naznanilo Egipta

To je bilo prvo naznanilo glede rabe Sueškega prekopa, odkar je generalni tajnik Združenih narodov Dag Hammarskjöld odpotoval iz Kaira, po dolgih posvetovanjih, v naporu, da bi omehčal stališče predsednika Nasserja glede Srednjega vzhoda.

Nekateri viri trdijo, da je Hammarskjöld dal Nasserju načrt o bodoči rabi Sueškega prekopa, ki da ni nikomur po volji, da je Amerika pripravljena, da ga sprejme.

Diplomatski krogi poročajo, da je Hammarskjöld od Nasserja dobil zagotovilo—gentleman-ski sporazum—da Egipt za enkrat ne bo ugovarjal prisotnosti čet Z.N. v Gazi.

Nasser je baje tudi ustmeno obljubil, da ne bo storil ničesar, kar bi moglo povzročiti nova vznemirjenja na Srednjem vzhodu.

Bivši milijonar umrl kot berač

NEW YORK, N. Y.—V bolnišnici je umrl kot popoln berač v starosti 68 let Murray Garsson, ki je v času druge svetovne vojne s svojim bratom iz nič organiziral velikanske obrate za produkcijo municije, ki so bili vredni 70 milijonov dolarjev.

Kmalu po vojni je prišlo na dan, da je bil pri organiziranju podjetja zainteresiran takratni kongresman Andrew May, ki je bratoma Garsson pomagal, da sta dobila ogromna vladna posojila. Posledica je bila ta, da so šli v zapor vsi trije—May in brata Garsson.

Ogromno premoženje, ki sta ga nakopičila brata Garsson z javnim denarjem, je vlada zaplenila.

MUNICIJA ZA ŽUPANSKO KAMPANJO?

Vsa znamenja kažejo, da bo spor med okrajnim inženirjem Porterjem in županom Celebrezom glede subwaya v centru Clevelanda dozorel v politično vprašanje, ki bo tvorilo glavni predmet, ko se bo jeseni volil župan v našem mestu. Medtem ko župan zagovarja subway, pa je Porter odločno udaril po njem kot neupravičena potratna denarja.

KAKO JE BECK NEKDAJ GLASOVAL O PROFESORJIH

WASHINGTON, D. C.—Predsednik unije voznikov Dave Beck je na izpricavanju pred senatnim odborom za preiskovanje raketirstva priznal, da je nekldaj glasoval za to, da se dva profesorja na univerzi države Washington vržeta iz službe, ker sta se na pričaju pred zakonodajnim odborom za preiskovanje komunizma sklicevala na peti ustavni amendent in odklonila odgovarjati na vprašanja, ki so jima bila postavljena.

To je bilo v letu 1948, ko je bil Beck član upravnega odbora državne univerze in je bila zadeva profesorjev pred odborom univerze.

To stran Beckove preteklosti je prinesel na dan odvnetnik senatnega odbora Robert F. Kennedy, ki je citiral izjave, katere je bil Beck dal ob tisti priliki, ko je govoril o profesorjih. Takrat, je dejal Kennedy, je Beck rabil te besede:

"Amerikanci, ki živijo kot se za Amerikance spodobi, se ne skrivajo za raznimi tehničnostmi. Kar se mene tiče, nimam absolutno nobenega potrpljenja z ljudmi, ki se skrivajo za vsako tehničnostjo — za tehničnostmi, katere bi ti ljudje uničili, ako bi jim bila dana prilika — z namazom, da zakrijejo svoje prevratno mišljenje."

Ko je odvnetnik Kennedy vprašal Becka, če je njegovo izjavo točno citiral, je Beck začel kričati, da je bil zmerom 100-procentno proti komunizmu.

"Jaz vas ne vprašujem, kaj mislite o komunizmu, Mr. Beck," je dejal Kennedy. "Hočem le vedeti, ali ste glasovali proti onima profesorjema."

"Da, sem,"
"Da se ju spodi s službe?"
"Da se ju spodi s službe," je dejal Beck.

DELAVSTVO MORA OČISTITI SVOJO HIŠO, ALI PA BODO POSLEDICE OBČUTILE VSE UNIJE

UNIJSKI VODJA CAREY ZAHTEVA ODLOČEN NASTOP ZOPER "KRUKE"

WASHINGTON, D. C.—Eden izmed glavnih ljudi pri vodstvu AFL-CIO James B. Carey je prišel na dan z izjavo, v kateri je dejal, da je postalo jasno, da so razni sleparski delavski voditelji s sodelovanjem svojih prijateljev pri raznih zavarovalnicah pokradli milijone dolarjev iz blagajni za unijsko dobrodelnost. Carey je k temu dostavil, da morajo unije brez odloga in z vso odločnostjo nastopiti proti laži-voditeljem delavstva, ali pa se bo njih grdobija prišla vsega unijskega gibanja in mu prizadajala v obeh javnosti ogromno škodo.

James Carey je tajnik in blagajnik oddelka za industrijske unije pri AFL-CIO in glavni predsednik organizacije International Union of Electrical, Radio and Machine Workers.

"Kruki" se morajo obsoditi

V svoji izjavi je Carey dejal: "Absolutno potrebno je, da z vso odločnostjo obhodimo take karakterje in to brez nadaljnega, ali pa bomo vsi skupaj plačali grozovito ceno, ker bomo dopustili, da javnost misli, kakor da imamo kaj skupnega s temi sleparji in "kruki." Če tega ne bomo storili, se bo nesnaga prišla nas vseh."

Dejal je dalje, da delavstvo je šlo skozi dolge in težke boje proti industrijskim velikonom, da si je priborilo dostojno življenje, borilo se je tudi, da so se unije očistile komunističnih vplivov, danes pa stoji pred "novo zgodovinsko borbo," v kateri je dejal, da je borba "na življenje in smrt zoper raketirje, kruke, tatove in gangsterje, ki so vpadli v delavsko gibanje in ga onesnažili."

"Unijski voditelji, ki zlorablja denar v unijskih skladih za dobrodelnost, je izdajica delavskega gibanja," je dejal Carey. "Ne samo to, je tudi izdajica človečanstva."

Govorec o zavarovalnicah, ki se plačujejo v zvezi z unijskimi fondy za dobrodelnost, je Carey izjavil, da ti ljudje ne izvršijo ničesar koristnega, pa kljub temu vlečejo velikanske "komišne," kar da ni nič drugega kot "nova oblika legalne tatvine."

EISENHOWERJEVI NAČRTI ZA ODDIH ENKRAT PRIHODNJI MESEC

WASHINGTON, D. C.—Iz Bele hiše je bilo objavljeno, da predsednik Eisenhower upa, da mu bo enkrat prihodnji mesec mogoče vzeti počitnice v Augusti, Georgia, kjer običajno igra golf. Toda predsednikov tajnik Hagerty je pristavil, da bo predsednik najbrž pozneje odpotoval v Georgijo, kakor pa je bil to slučaj v preteklosti.

Predsednik je prej na tiskovni konferenci novinarjem dejal, da bi rad dobil malo več kot dva dni in pol sonca, ki ga je užival za časa svojega zadnjega "okrevalnega" potovanja na krovu križarke, ki ga je potem peljala na Bermudo.

Med ostalim je predsednik reporterjem rekel, da bo v kratkem imel sestanek z voditelji obeh strank v kongresu, da se z njimi posvetuje o vprašanju

Ko prihaja jesen na Kobansko

(nadaljevanje)

Kobansko potrebuje cesto, ki ga bo povezala s svetom. Malokje je tako krvavo potrebna, kot tu. Toda gozdarji je ne nameravajo graditi. "Za nas ni interesantna," pravijo v Mariboru, "na Kozjaku imamo zelo malo gozdov." Občinski možje v Podvelki se trudijo, da bi speljali cesto vsaj do Remšnika, toda za sedaj nimajo denarja. Pred leti je nekdo skiciral na papirju načrt za novo cesto, ki bi držala iz Kamnice, preko Križa, Duha in Kaple na Remšnik. Z njo bi bilo težavno stanje kmetijstva na Kobanskem zelo olajšano. Brez cest si napredka kmetijstva in živinoreje na kobanski planoti ni mogoče misliti. Že stoletja je višavje ob severni meji odmaknjeno od napredka.

Meja, ki so jo pred petintridesetimi leti potegnili čez kobanske vrhove, se ni zarezala samo v zemljo, ampak tudi v duše kobanskega človeka. Prinesla je nemir, upanje in skrb. Mnogi Kobanci so po skrivnih potih hodili tja na drugo stran po nezakonitih poslih. Zdaj tega ni več, zato pa v kobanske samote zablodijo ljudje, ki so poslali svoje iluzije v Avstralijo, Kanado in Ameriko. Na skrivaj se hočejo približati svojim ciljem.

Pravi, da vse, kar trdijo, je resnica

Gospoda! Jaz sem 78 let star in odkril sem, da vaš zeliščni čaj zelo pomaga pri reguliranju mojega črevesja, in da je dober za sladkor v seču. Jaz sem bil tako vznemirjen radi zaprtja črevesja, da nisem imel stolice po več dni skupaj. Odkar pa rabim vaš okusni Tatra Čaj št. 1 imam redno prebavo, brez krčev, in počutim se dobro. Jaz ne morem uživati zdravil, in ne jemljem insulina, ampak se držim dijete in pijem redno Tatra Čaj št. 1, predno grem k počitku in počutim se izredno dobro. Jaz sem prepričan, da ko ne bi bilo radi vašega čaja, bi moral jemati insulin. Vaši čaji so vse, kar trdijo, da so, in jaz jih priporočam mladim in starim. Moji prijatelji ga takisto imajo radi in cela moja družina ga rabi za zaprtje. Drago mi je, da sem ga našel. Hvala vam lepa.

Toda graničarji in Kobanci jih ustavijo in prestavijo iz sveta iluzij na trdna kobanska tla. Prihranijo jim težaško delo na avstrijskih kmetijah in policijski zapor v Lipnici.

Pred časom so se od tam vrnili mladi ljudje. Zapustili so delo in domači kruh in se odpravili na dolgo pot v Kanado. Eden naših fantov, ki je v lovrenškem hotelu pred odhodom objestno naročal "puteljke" in preizkušal svoje znanje v nemščini, je čez tri tedne skesano obsedel pred sodnikom. "Verjel sem, da bomo šli v Kanado," je pripovedoval. "Nekateri, ki so pobegnili pred nami, so pisali, da čakajo na transport. Ko sem prišel čez mejo, sem en dan delal pri kmetu, da sem si zaslužil za cigarete. Potem so me odpeljali orožniki. V policijskem zaporu v Lipnici sem srečal tiste, ki so "čakali na transport." Nato so nas poslali na delo na vinogradniško posestvo. Delali smo trdo, dobivali slabo hrano in dvakrat manjši zaslužek kot avstrijski poljski delavci. O transportu in Kanadi ni bilo ne duha ne sluha." Avstrijska policija ga je skupno z drugimi odpeljala proti Spielfeldu in predala jugo-organom na šentiljskem bloku. Turneja v Kanado je bila končana, iluzije pokopane. Meja na Kobanskem bo tem mladim ljudem ostala v grenkem spominu.

In koliko je takih, ki so jo prestopili in se razočarani vrnili, ali odtavali v tujske legije, v kanadske in argentinske gozdove in za vselej izgubili domačo streho in svoje ljudi. Njihove sanje so ostale na Kobanskem, kajti tam so bile še žive, korak dalje v tujem svetu so se pretrgale pod udarcem resničnosti.

Narava se čudno poigra z izletnikom in obiskovalcem kobanskih bregov. Takoj za Kamnico ga pozdravijo vinogradi in zidanice, kot strogi stražarji ga ustavijo in zamamijo s svojimi dobrotami. Pred leti so se le redki izmuznili tej pasti in jo moško mahnili mimo. Po navadi so obsedeli v domačijah okrog Križa in Žavcarja, srkali vino (Dalje na 4. strani)

—Ne, tovariš direktor, kajti vedno so drugi že delali, ko sem prišel.

CVETLICA, KI UBIJA MRČES

Minilo je 150 let, odkar je neka gospodinja v Dalmaciji pospravljala po hiši in opazila na šopku poljskega cvetja več mrtvih žuželk. Takrat niti slutiti ni mogla, da bo njeno odkritje sprožilo razvoj močne industrijske panoge v Keniji, afriški deželi, ki takrat na zemljevidu še sploh ni bila zarisana oziroma, ki je bila označena kot neznano področje. Gre za hlapček (chrysanthemum pyrethrum), podoben marjetici in soroden krizantemi. Iz njega dobivajo koncentrat, ki je smrtonosen za komarje, muhe in skoraj vse druge vrste mrčesa. Zdaj je med največjimi pridelovalci hlapčka Kenija, kjer so nedavno odprli prve laboratorije na svetu za specifično proučevanje te poljske cvetice in njenih lastnosti.

V laboratorijih v dvonadstropnem poslopju sredi Nakuruja bodo proučevali izkušeni angleški kemiki in visoko kvalifi-

cirani laboratorijski delavci, Evropejci in Afričani, 12.000 primerkov te cvetice letno. Posiljali jim jih bodo pridelovalci in na podlagi njihove analize bodo ugotovili odstotek ekstrakta v cvetovih in določili njihovo odkupno ceno. Laboratoriji pripadajo industrijski organizaciji "Kenijski svet za piretrum," ki vodi tudi vsa dela. Z zgraditvijo laboratorijev je hotel Svet položiti temelje za novo uporabo ekstrakta te poljske cvetice, ki je doslej kljubovala konkurenci vseh kemičnih insekticidov, kar so jih odkrili v zadnjih 15 letih.

Ko so se pojavili na trgu insekticidi, kakor je DDT, so nekateri strokovnjaki napovedovali konec uporabe hlapčka. Zato so mnogi farmarji v Keniji znatno skrčili polje, na katerem so gojili to cvetico. Proizvajalci insekticidov pa so kmalu ugotovili, da so odporne vrste mrčesa razvile imunost proti nekaterim teh učinkovitih umetnih insekticidov. S tem se je upanje pridelovalcev hlapčka spet ne-

koliko povečalo. Hlapček raste v višini 1800 do 2700m nad morsk gladino, najboljše pa uspeva v višini 2500m. Na kenijski gorski planoti cvete devet mesecev v letu. Gojitev hlapčka sodi med najvažnejše kmetijske naloge v Keniji. Cvetne liste je treba obirati z roko, da bi dali čimvečji odstotek ekstrakta.

V Nakaranu nameravajo zgraditi tovarno, v kateri bodo iz hlapčka pridobivali ekstrakt. Člani sveta za piretrum so enodušno sklenili, da bodo odslej pobirali takso na svoj proizvod. Tako hočejo zbrati 100.000 funt-sterlingov ali polovico stroškov za zgraditev nove tovarne. Zadanja leta je bila za razvoj hlapčka najbolj bodrilna njegova uporaba za zaprašitev staj in prostorov, v katerih izdelujejo mlečne izdelke. Že po eni zaprašitvi pogine v petih minutah ves mrčes. Zelo uspešno je bilo zapraševanje s hlapčkom tudi v skladiščih tobaka, v mlinih, silosih, klavninah itd.

—Zakaj pa si tako zasoplen?
—Zeno sem ukrotil!
—Vraga, nisi no ta epohalni izum na razstavo!

SMRTNA NESREČA V GOZDU

Pred nedavnim so pokopali na Otlici Franceta Krapeža, delavca Gozdne uprave Predmeja, ki se je hudo ponesrečil pri delu v gozdu. Pri podiranju drevoja ga je iznenada oplazila veja in pobila, da je udaril z glavo ob skalo. Prepeljan je bil v bolnišnico, kjer je kljub vestni zdravniški oskrbi podlegel poškodbi. Zapustil je ženo in 7 maloletnih otrok.

Z BALKONA JE PADLA

Približno 4 metre globoko je padla z balkona 4-letna Milena Roje iz Zalošč pri Dornberku. Zaradi bolečin je obležala nekaj trenutkov v nezavesti. Odpeljali so jo v vipavsko bolnišnico, kjer se zdravi zaradi preloma v levem kolenu in lahkega pretresa možganov.

VSE ZDRAVO

Bine: "Nujno potrebujem petsto din, Lojze. Prosim te, posodi mi."

Lojze: "Rad, a na žalost nimam niti pare seboj."

Bine: "Pa doma?"

Lojze: "Hvala! Vse zdravo."

PRESIDENT EISENHOWER URGES CHECKS ON INFLATION

Can the United States maintain its current rate of prosperity and still ward off the danger of inflation?

President Eisenhower addressed himself to this problem in his State of the Union message on January 10. The same problem is being discussed with increasing frequency by economists, by businessmen, by members of Congress. It appears likely to be the key problem for government economic policy in the immediate future.

Just what is the danger of inflation for the American economy? What is being done about it—and what further measures might be taken?

Inflation, of course, is a condition where prices rise gradually. A shirt may rise in price from two dollars, say, to three dollars; a loaf of bread from ten cents to fifteen cents. Goods become more valuable in terms of money, and—put the same thing in another way—money becomes less valuable in terms of what it can buy.

The world has seen many different types of inflation. Some of the worst examples occurred after World War I, when some national currencies depreciated in value with breath-taking speed. The United States has succeeded in avoiding the extremes of inflation. Wages and incomes generally increased even more rapidly than prices during the inflation that took place largely as the result of World War II and the Korean War.

Even so, inflation over the long run has its bad effects. A dollar saved one year buys less several years later. A pension earned during a worker's early life will be less adequate in satisfying his wants after retirement. And so, it is considered desirable to keep prices relatively stable, so that rising national income means real advances in living standards.

The United States, as President Eisenhower pointed out in his State of the Union message, has now had four years of prosperous conditions during which prices have, in fact, been remarkably stable. The consumer price index—a measure of the cost of living—fluctuated only a few percentage points between 1952 and 1955.

In 1956, however, the index went up about two and one-half per cent, a small but still significant rise for a twelve-month period. Recent price increases in steel, oil, newsprint and other goods—as well as expected wage increases in 1957—show that the trend is toward additional increases.

And it is this trend that concerns the President and his advisers. The nation's banking system has increased interest rates moderately throughout the last year and a half—a move that tends to check price rises.

As the President noted, a balanced government budget is another established means of holding inflation in check. Mr. Eisenhower further recommended that both business and labor do their best to contribute to price stability. He asked businessmen to refrain from unnecessary price increases, and he asked union leaders to recognize that wage increases must be reasonably related to improvements in productivity.

In connection with this same problem of inflation, the President asked Congress to authorize a citizens' commission to investigate the "nature, performance and adequacy" of the American financial system. By this, the President referred to the nation's 14,000 banks and also to thousands of other savings and lending institutions, life

insurance companies and the like—all of which affect money and prices in one way or another.

Such an extensive and searching inquiry may well strengthen existing methods for keeping the United States economy in a sound and healthy state.

Common Council.

Applications will be accepted also from specialists for appointments in the Foreign Service Reserve Corps at salaries ranging from \$5,000 to \$10,000 per annum, for positions at American Embassies, Consulates and Legations abroad and at Department headquarters in Washington, D. A Bachelor's degree with a major in Accounting, Business or Public Administration may be substituted for a substantial part of the required experience.

The Automobile Industry

The American automobile industry represents one of the most striking aspects of U. S. economic life—an industry that helps shape the country's living patterns. The United States today is notably different from what it was two or three decades ago because of the automobile—and because most families own a car and have come to use their car as both a luxury and a necessity.

It is the family car that makes possible more and more home ownership on the suburban outskirts of cities. It is the family car that enables a worker to live farther from his job if he so desires. It is the family car that makes new shopping centers—serving relatively large suburban areas—successful. And it is the family car that turns many of us into tourists and campers on weekends and during vacations.

Designing, manufacturing and selling the American car is, of course, an important and well-publicized part of the nation's economy. Last year the industry turned out almost six million passenger cars. The year before it reached its all-time record—the production of almost eight million cars. This year there is still a good deal of uncertainty about total output since it is spring sales that help determine the trend of the year's market. But many industry spokesmen have predicted sales slightly better than last year and production of more than six million cars.

These sustained rates of production are part of the pattern of widespread ownership. Today there are almost 65 million vehicles—including about 55 million passenger cars—on American highways. Some 37 million families—or 73 percent of the total—own cars. Only a few years ago, in 1948, the percentage was just 54 percent.

The industry that supplies these bright-hued automobiles is a thriving and highly competitive business. It employs more than 600,000 workers and pays average wages of about \$90 a week. These wages are slightly higher than the national average for manufacturing.

age for manufacturing. And they provide an income sufficiently high—as any visitor to the auto-making city of Detroit can testify—so that the auto worker can himself buy the product he makes.

The auto industry expends a great deal of effort toward meeting the needs and desires of the American consumer. The result has been an American product—a large car with engines that seem to climb in horsepower year by year. But it is not also a good one for small European cars—representing a sizeable gain over previous sales here. Thus, American highways carry an ever-increasing number of travelers in vehicles of all shapes, colors, and sizes—what is virtually a nation on wheels.

THIS WEEK IN AMERICAN HISTORY

On February 27, 1807—150 years ago—Henry Wadsworth Longfellow, American poet, was born at Portland, Maine. A professor of modern languages at Bowdoin College, he became the most popular poet of his time with the publication, in 1839, of a collection of verse, *Voices of the Night*, containing "The Psalm of Life" and "Excelsior"—two poems which are still in most anthologies of American verse. Many of Longfellow's ballads popularized American legends. For example, his "Courtship of Miles Standish," a love story of the time of the Pilgrim Fathers; "The Ride of Paul Revere," the story of how early American patriots were warned of approaching British forces; "Hiawatha," an Indian legend; and "Evangeline," a tale of French Canadians expelled by the British to Louisiana. Longfellow also popularized in America many tales and poems from Spain, Italy, Germany, Sweden, and Finland by retelling them in verse. He died in Cambridge, Massachusetts in 1882.

"SPARTANS HOLD MONTE CARLO NIGHT"

Last Saturday night the Spartans had another first in their long line of affairs in the lower hall on the S.N.H. Amidst the setting of a large gambling casino they staged a "Monte Carlo Night" or more appropriately a "Las Vegas Night."

Through the generosity of the hotels in Las Vegas the hall was decorated in true style with one-arm bandits and all. All who came also received souvenirs from these clubs.

There were tables for dice, blackjack, chuck-a-luck and the spinning wheels. All of these were played with stage money which everyone received as they entered the hall.

Prizes were given out for the highest stake winners. These included a stay at one of the leading hotels in Las Vegas.

Plans are already afoot to hold a bigger and better "Night" in the very near future
Frank Ilc, Jr., President.

CLEVELAND MUSEUM OF ART TO CLOSE APRIL 1

The Cleveland Museum of Art will temporarily close on April 1 in order to complete its new multi-million dollar wing and to adapt certain parts of the present building for future use.

The Trustees of the Museum have rented the old Art School on Juniper Road to carry on its educational program. Spring and summer classes are continuing there as normally scheduled.

The MAY SHOW also will be held in the old Art School from May 15 through June 23. Every effort is being made to continue without interruption the thirty-eight years of warm and friendly relations which have existed between the Museum and Cleveland artists.

During the closed period the Museum Library will continue its services in the Department of Slides and Photographs. Borrowers, however, will have to indicate their needs by telephone and the slides or photographs requested can be called for at a new temporary entrance at the west end of the new wing. Similar plans have been made to continue the services of the Lending Collection of the Educational Department. The public will have no access whatsoever to the building during the period when it is closed.

The reopening of the Museum and the new wing is estimated for the early months of 1958. The new wing, a contemporary structure of gray and white granite, will triple the Museum's present space, and will enable the Museum to increase even more its already extensive educational program and other services to the community. The Cleveland Museum of Art is already one of the nation's leading museums. When the new addition is completed it will rank with the great museums of the world.

EN ROUTE TO EUROPE

The following left for Europe this week, and are sailing aboard the "Queen Elizabeth." Dr. Ivo Cerne, Phillip Furlan, John Luketic, Mrs. Mary Nagode of Colorado Springs, Colo., and Frank Platner of Little Falls, New York.

THE "40,000-LIFE QUESTION"

Last year 40,000 persons were killed on our streets and highways. That figure exceeds the number of Americans killed in action during the entire Korean War.

Naturally the question in the minds and on the lips of all thinking citizens is, "Why?" Why does a supposedly civilized country blithely try to commit slow genocide?

That's the "40,000-life question." Until it is answered this country will continue to liquidate its driving and walking citizens at an alarming rate.

Certainly one of the reasons for the mass murder on our streets and highways is the split morality so prevalent among the drivers today.

What is this split morality? It's a queer sense of values that permits a person to live by one code when he's outside his car—and a completely different one as soon as he slips behind the steering wheel.

JADRAN CHORUS IN SPRING PRESENTATION

This will be our last opportunity to invite each and everyone of you to attend Jadran's presentation of "Mašcevanje Netopirja." This delightful operetta, adapted from Strauss' opera "Der Fledermaus" is certain to please everyone in the audience.

We have spent many enjoyable weeks preparing for this production—and we're sure that you will enjoy hearing it equally as much as we enjoy giving it for you.

Sunday, March 31 is the big day. The Slovene Workingmen's Home on Waterloo Road is the place, and curtain time is 3:30.

Immediately after the program the festivities will begin in the lower hall. Delicious meals, sandwiches, and refreshments will be served. Grabner's peppy combo will furnish music for dancing.

Remember, Sunday, March 31 at the SWH—for a truly enjoyable afternoon and evening.
