št./No 5

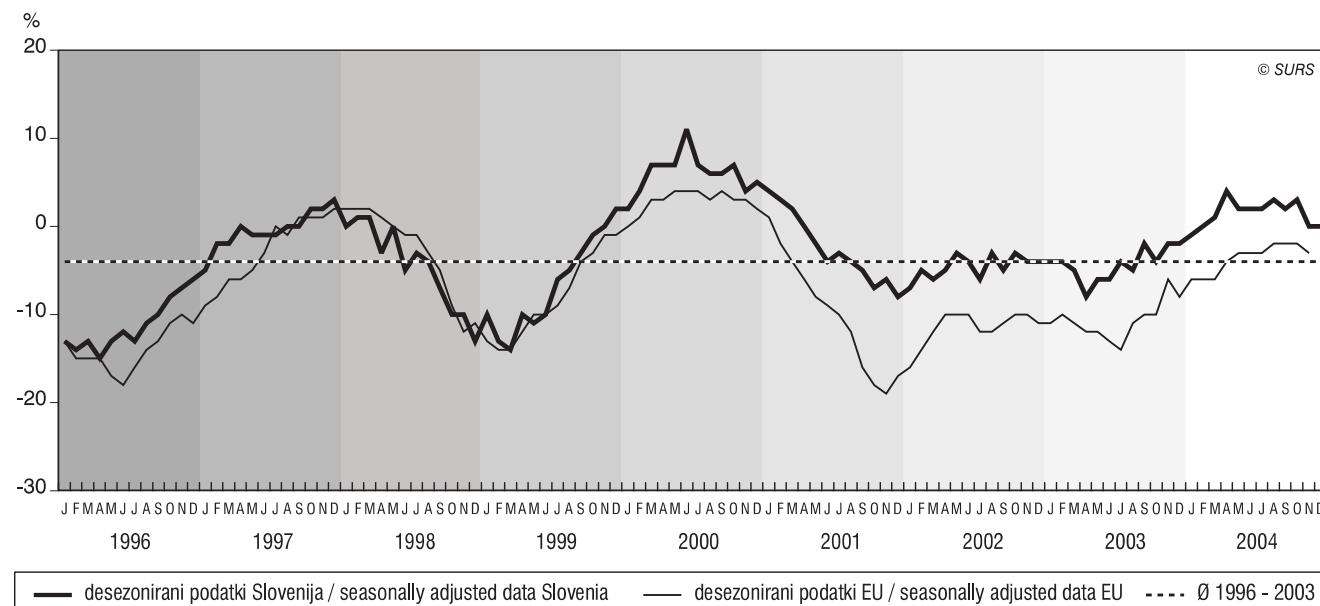

## 17 RUDARSTVO IN PREDELOVALNE DEJAVNOSTI MINING AND MANUFACTURING

št./No 1

### POSLOVNE TENDENCE V PREDELOVALNIH DEJAVNOSTIH, SLOVENIJA, DECEMBER 2004 BUSINESS TENDENCY IN MANUFACTURING, SLOVENIA, DECEMBER 2004

- Decembra so direktorji tendence v predelovalnih dejavnostih ocenili enako kot pretekli mesec – desezonirana vrednost kazalca zaupanja je bila v decembru enaka kot v novembru. V primerjavi z istim mesecem lani je bila ta vrednost za 1 odstotno točko višja ter za 4 odstotne točke nad lanskim povprečjem.
- Na gibanje kazalca zaupanja v tem mesecu so vplivala višja proizvodna pričakovanja in zaloge končnih izdelkov ter znižanje ravni skupnih naročil, vendar se je njihovo gibanje ravno izničilo, tako da je vrednost kazalca zaupanja ostala enaka kot pretekli mesec.
- Kazalci stanj so se v primerjavi s preteklim mesecem večinoma poslabšali. Pričakovanja za naslednje tri mesece so ugodna.
- In December 2004, managers estimated business tendencies in manufacturing the same as in the previous month - the seasonally adjusted value of the confidence indicator was the same as in November 2004. Compared to December 2003 it was up by 1 percentage point and 4 percentage points above last year's average.
- The evolution of the confidence indicator in this month was influenced by the rise of production expectations and stocks of finished products as well as by the fall of overall order books; however, their opposite influence on the confidence indicator caused no change in its value.
- Observed indicators for appreciation of the situation deteriorated compared to the previous month. The expectations for the next three months are favourable.

#### I. KAZALEC ZAUPANJA<sup>1</sup> V SLOVENIJI IN EU<sup>2</sup>, JANUAR 1996 - DECEMBER 2004 I. CONFIDENCE INDICATOR<sup>1</sup> IN SLOVENIA AND EU<sup>2</sup>, JANUARY 1996 - DECEMBER 2004

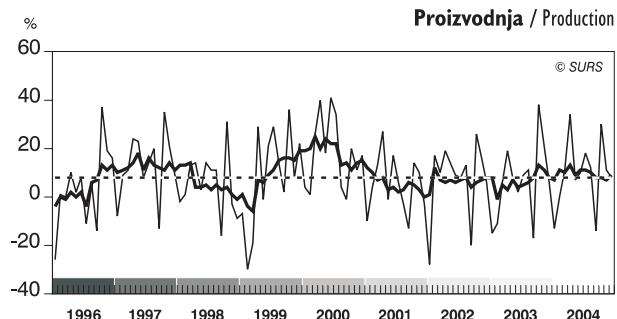

<sup>1</sup> Kazalec zaupanja je povprečje odgovorov (ravnotežij) na vprašanja o proizvodnih pričakovanjih, skupnih naročilih in zalogah končnih izdelkov (obrnjen predznak). Podatki so desezonirani. Confidence indicator is an average of responses (balances) to questions on production expectations, overall order books and stocks of finished products (the latter with inverted sign). Data are seasonally adjusted.

## METODOLOŠKA POJASNILA

### NAMEN STATISTIČNEGA RAZISKOVANJA

Namen kvalitativne Ankete o poslovnih tendencah (PA-IND/M) je mesečno pridobivanje informacij o trenutnih stanjih glavnih ekonomskega kazalcev ter ocenitev njihovega gibanja v naslednjih mesecih. Rezultati anket so osnova za izračun kazalca zaupanja v predelovalnih dejavnostih in kazalca gospodarske klime, ki vključuje poleg kazalca zaupanja v predelovalnih dejavnostih tudi kazalec zaupanja pri potrošnikih in kazalec zaupanja v trgovini na drobno.

Panelno anketo o poslovnih tendencah v predelovalnih dejavnostih izvajamo v Sloveniji od aprila 1995 s poenot enim vprašalnikom, na podlagi poenotene metodologije in z enako periodiko, kot jo izvajajo v državah članicah Evropske unije že več desetletij. Zato so vsi podatki neposredno primerljivi.

### ENOTA OPAZOVANJA

Opazujemo podjetja, ki so razvrščena v predelovalne dejavnosti, to je v oddelki Standardne klasifikacije dejavnosti (SKD) od 15 do 36, ter so bila izbrana v panel podjetij na podlagi dveh meril:

- velikosti podjetja (število zaposlenih, skladno z zakonom o gospodarskih družbah) in
- razvrstitev podjetja po SKD-ju.

### VIRI

Na vprašalnik odgovarajo direktorji podjetij ali drugi vodilni delavci med 1. in 10. v mesecu. Rezultate pa objavimo že okoli 20. v istem mesecu.

### ZAJETJE

V panelni vzorec smo zajeli vsa velika podjetja, 56 % srednjevelikih (ali 59 % zaposlenih) in 18 % malih podjetij (ali 20 % zaposlenih). Panelni vzorec pokriva 37 % podjetij vzorčnega okvira ali 74 % zaposlenih v predelovalnih dejavnostih.

### NAČIN ZBIRANJA PODATKOV

Anketo izvajamo mesečno po pošti, vsako četrletje (januar, april, julij in oktober) pa mesečni anketi dodamo še sedem četrletnih vprašanj.

### UTEŽEVANJE ODGOVOROV

Odgovori so uteženi tako, da odražajo relativno pomembnost posameznega podjetja v vzorcu. Znotraj oddelkov SKD so odgovori uteženi s številom zaposlenih.

### NEODGOVORI

Neodgovore vsak mesec obdelamo skladno s poenoteno metodologijo; delež neodgovorov se giba med 3-15 % (povprečno 9 %).

### DEFINICIJE

Grafikoni prikazujejo ravnotežja po posameznih vprašanjih. Ravnotežje je razlika med pozitivnimi in negativnimi odgovori, izražena v odstotkih. Ravnotežja prikazujejo gibanje opazovanih ekonomskeih spremenljivk (stanj in pričakovanih), ne pa dejanskih velikosti ekonomskega kazalcev.

Ko so prikazane daljše časovne vrste podatkov ali primerjave kazalcev z EU so vrednosti desezonirane. To so vrednosti, pri katerih je izključen vpliv sezone, vsebujejo pa trend-cikel in naključno komponento. Podatki

## METHODOLOGICAL EXPLANATIONS

### PURPOSE OF STATISTICAL SURVEY

The purpose of the qualitative Survey on Business Tendency (hereinafter: PA-IND/M) is to get monthly information about current situations of major economic indicators and to evaluate their movement in the following months. The results of the survey are the basis for evaluation of the confidence indicator in manufacturing and latter on also for the sentiment indicator, which also includes the consumer confidence indicator and the confidence indicator in retail trade.

We have been carrying out the Survey on Business Tendency in Manufacturing in Slovenia since April 1995 with the harmonised questionnaire, methodology and periodicity, which have been used in EU Member States for several decades. Therefore, all data are directly comparable.

### OBSERVATION UNITS

We are monitoring units that are registered in manufacturing - divisions 15 to 36 of the Standard Classification of Activities (SKD). They were selected into the panel by two criteria:

- the size of the enterprise (the number of employees in accordance with the Companies Act) and
- the classification of the enterprise according to the SKD.

### SOURCES

Persons responding to the monthly questionnaire are managers of enterprises or other executives. They respond between the 1st and the 10th in the month. Results are published approximately on the 20th of the current month.

### COVERAGE

The panel includes all large enterprises, 56% of medium-sized enterprises (or 59% of employees) and 18% of small enterprises (or 20% of employees); the panel covers 37% of the enterprises of the studied population or 74% of employees in manufacturing.

### METHOD OF DATA COLLECTING

The survey is carried out monthly by mail, each quarter (January, April, July and October) we are including seven more questions to the monthly survey.

### WEIGHTS FOR RESPONSES

Responses to individual questions are weighted so that they reflect relative importance of individual enterprise in the panel. Inside divisions of Standard Classification of Activities (SKD) responses are weighted with the number of employees.

### NON-RESPONSES

Non-responses are processed every month in accordance with the harmonised methodology and vary between 3 and 15% (9% on average).

### DEFINITIONS

The charts show the balance by individual questions. The balance is the difference between positive and negative answers, expressed in percent. The balance shows the movement of observed economic variables (present situation and future expectations), and not the real size of economic indicators.

In the charts with longer time series or by comparisons with EU indicators, data are seasonally adjusted. Values are adjusted for seasonal component, which include trend-cycle component and irregular

za EU so desezonirani z metodo DAITIES, za Slovenijo pa z metodo TRAMO/SEATS, ki temelji na ARIMA modelih. Pri oblikovanju modelov je upoštevano časovno obdobje od marca 1995 do januarja 2004. Zaradi narave podatkov se modeli za leto 2004 razlikujejo v primerjavi z modeli za leto 2003 le pri kazalcu zaupanja. Zaradi narave podatkov časovna vrsta Ustreznost proizvodnih zmogljivosti ni desezonirana, saj sezonska komponenta ni prisotna.

Kazalec zaupanja je povprečje odgovorov (ravnotežij) na vprašanja o proizvodnih pričakovanjih, skupnih naročilih in zalogah končnih izdelkov (obrnjen predznak).

## OBJAVLJANJE PODATKOV

Sodelujoči v anketi prejmejo informacijo o oddelku SKD, v katerega se po dejavnosti razvrščajo in o predelovalnih dejavnostih, vendar le, če so izpolnili vprašalnik za tekoči mesec.

Drugim uporabnikom so dostopni podatki na ravni predelovalnih dejavnosti in njenih oddelkov in po velikostnih razredih podjetij. Podatki so mesečno objavljeni v Statističnih informacijah – Poslovne tendence v predelovalnih dejavnostih in v podatkovni bazi SI-STAT na naslovu <http://www.stat.si/>.

### MESEČNA VPRAŠANJA:

- Proizvodni ritem v opazovanem mesecu: živahnejši, enak, šibkejši?
- Ocena ravni izvoznih naročil: višja kot normalno, normalna, nižja kot normalno?
- Ocena ravni skupnih naročil: višja kot normalno, normalna, nižja kot normalno?
- Ocena ravni zalog končnih izdelkov: višja kot normalno, normalna, nižja kot normalno?
- Pričakovana proizvodnja v naslednjih 3 mesecih: naraščala, nespremenjena, padala?
- Pričakovane cene v naslednjih 3 mesecih: naraščale, nespremenjene, padale?
- Pričakovano število zaposlenih v naslednjih 3 mesecih: povečalo, ostalo nespremenjeno, zmanjšalo?
- Pričakovani izvoz v naslednjih 3 mesecih: naraščal, nespremenjen, padal?
- Pričakovano skupno povpraševanje v naslednjih 3 mesecih: krepilo, enako, slabelo?
- Ob sedanjem proizvodnem ritmu je zagotovljena proizvodnja za: .... mesecev?

### ČETRTLETNA VPRAŠANJA:

- Omejitveni dejavniki v proizvodnji: ni omejitev, nezadostno domače povpraševanje, nezadostno tuje povpraševanje, konkurenčen uvoz, pomanjkanje delavcev na splošno, pomanjkanje usposobljenih delavcev, pomanjkanje surovin, pomanjkanje polizdelkov, pomanjkanje ustrezne opreme, neplačništvo, finančni problemi, nejasna gospodarska zakonodaja, negotove gospodarske razmere, ostalo?
- Sedanje proizvodne zmogljivosti: prevelike, ustrezne, premajhne?
- Sedanja stopnja izkoriščenosti zmogljivosti: .... odstotkov?
- Konkurenčni položaj podjetja na domačem trgu v zadnjih 3 mesecih: boljši, nespremenjen, slabši?
- Konkurenčni položaj podjetja na trgih držav članic Evropske Unije v zadnjih 3 mesecih: boljši, nespremenjen, slabši?
- Konkurenčni položaj podjetja na trgih zunaj Evropske Unije v zadnjih 3 mesecih: boljši, nespremenjen, slabši?
- Obseg novih naročil se je v zadnjih 3 mesecih: povečal, ostal nespremenjen, zmanjšal?

component. Data for EU are seasonally adjusted by DAITIES method and for Slovenia by TRAMO/SEATS method, which is based on ARIMA models. The designing of the models is based on the time period from March 1995 till January 2004. Because of the nature of data, models for 2004 differ from those used in 2003 only by confidence indicator. Because of the nature of the series Current production capacity is not seasonally adjusted, because of absence of seasonal component.

The confidence indicator is defined as the arithmetic mean of the answers (balances) to the questions on production expectation, assessment of overall order books and assessment of stocks of finished products (the latter with inverted sign).

## PUBLISHING

Persons participating in the survey get the special information for division in which they are classified and for manufacturing. They get it only if they responded in the current month.

Other users can get data for manufacturing and its divisions and data for different size groups of enterprises. Data are published in the monthly Rapid Reports – Business tendency in manufacturing and in the database SI-STAT which is available on the <http://www.stat.si/eng/>.

### MONTHLY QUESTIONS:

- Production rhythm in the observed month: increased, remain unchanged, decreased?
- Assessment of current export order books: above normal, normal, below normal?
- Assessment of current overall order books: above normal, normal, below normal?
- Assessment of current stock of finished products: above normal, normal, below normal?
- Production expectations over the next 3 months: increase, remain unchanged, decrease?
- Selling prices expectations over the next 3 months: increase, remain unchanged, decrease?
- Firm's total employment expectations over the next 3 months: increase, remain unchanged, decrease?
- Export orders expectations over the next 3 months: increase, remain unchanged, decrease?
- Expected total demand over the next 3 months: increase, remain unchanged, decrease?
- Duration of production assured by current overall order books: for ... months?

### QUARTERLY QUESTIONS:

- Limits to production: none, insufficient domestic demand, insufficient foreign demand, competitive imports, shortage of labour in general, shortage of skilled labour, shortage of raw materials, shortage of semi-finished products, lack of appropriate equipment, problems with unpaid bills, financial problems, unclear economic legislation, uncertain economic conditions, other?
- Assessment of current production capacity: more than sufficient, sufficient, not sufficient?
- Current level of capacity utilisation: in percentage of full capacity?
- Competitive position on the domestic market over the past 3 months: improved, remained unchanged, deteriorated?
- Competitive position on the foreign markets inside the EU over the past 3 months: improved, remained unchanged, deteriorated?
- Competitive position on the markets outside the EU over the past 3 months: improved, remained unchanged, deteriorated?
- New orders over the past 3 months: increased, remain unchanged, decreased?

## KOMENTAR

Decembra so direktorji tendenze v predelovalnih dejavnostih ocenili enako kot pretekli mesec – desezonirana vrednost kazalca zaupanja je bila v decembru enaka kot v novembru. V primerjavi z istim mesecem lani je bila ta vrednost za 1 odstotno točko višja ter za 4 odstotne točke nad lanskim povprečjem.

Na gibanje kazalca zaupanja v tem mesecu so vplivala višja proizvodna pričakovanja in zaloge končnih izdelkov ter znižanje ravni skupnih naročil, vendar se je njihovo gibanje ravno izničilo, tako da je vrednost kazalca zaupanja ostala enaka kot pretekli mesec.

## PROIZVODNJA in PROIZVODNA PRIČAKOVANJA

Desezonirana vrednost kazalca proizvodnje se je v primerjavi s preteklim mesecem zvišala za 2 odstotni točki. Glede na isti mesec lani je bila višja za 2 odstotni točki in 3 odstotne točke nad lanskim povprečjem.

Desezonirana vrednost kazalca proizvodnih pričakovanj za naslednje 3 mesece je bila v primerjavi s preteklim mesecem višja za 5 odstotnih točk. V primerjavi z istim mesecem lani je bila višja za 1 odstotno točko in za 3 odstotne točke višja od lanskega povprečja.

## ZAGOTOVLJENA PROIZVODNJA

Ob decembrskem proizvodnem ritmu imajo podjetja zagotovljeno proizvodnjo v povprečju za 4,4 meseca. To je enako kot lani v tem mesecu in za 0,2 meseca nad lanskim povprečjem.

Največ podjetij (19,2 %) ima proizvodnjo zagotovljeno v povprečju za 2 meseca. Sledijo podjetja (19,1 %), ki imajo proizvodnjo zagotovljeno v povprečju za več kot 10 mesecov, in podjetja (16,8 %), ki imajo proizvodnjo zagotovljeno v povprečju za 3 mesece. Za pol meseca ima zagotovljeno proizvodnjo v povprečju 9,2 % podjetij, ob decembrskem proizvodnem ritmu pa nima zagotovljene proizvodnje v povprečju 2,0 % podjetij.

## IZVOZ in IZVOZNA PRIČAKOVANJA

Desezonirana vrednost kazalca ravni izvoznih naročil je bila enaka kot pretekli mesec. V primerjavi z istim mesecem lani je bila višja za 9 odstotnih točk in za 19 odstotnih točk nad lanskim povprečjem.

Desezonirana vrednost kazalca pričakovanega izvoza za naslednje 3 mesece se je v primerjavi s preteklim mesecem zvišala za 5 odstotnih točk. V primerjavi z istim mesecem lani je bila višja za 6 odstotnih točk in 5 odstotnih točk nad povprečjem lanskega leta.

## SKUPNA NAROČILA in PRIČAKOVANO SKUPNO POVPRAŠEVANJE

Desezonirana vrednost kazalca ravni skupnih naročil se je v primerjavi s preteklim mesecem znižala za 3 odstotne točke. Glede na isti mesec lani je bila višja za 6 odstotnih točk in 13 odstotnih točk nad povprečjem lanskega leta.

Desezonirana vrednost kazalca pričakovanega skupnega povpraševanja za naslednje 3 mesece je bila za 3 odstotne točke nižja kot pretekli mesec. Glede na isti mesec lani je bila višja za 4 odstotne točke ter za 3 odstotne točke višja od lanskega povprečja.

## PRIČAKOVANE CENE

Desezonirana vrednost kazalca cenovnih pričakovanj za naslednje 3 mesece je bila nižja za 2 odstotni točki glede na pretekli mesec. V primerjavi z istim mesecem lani je bila višja za 1 odstotno točko in 8 odstotnih točk nad povprečjem lanskega leta.

## COMMENT

In December 2004, managers estimated business tendencies in manufacturing the same as in the previous month - the seasonally adjusted value of the confidence indicator was the same as in November 2004. Compared to December 2003 it was up by 1 percentage point and 4 percentage points above last year's average.

The evolution of the confidence indicator in this month was influenced by the rise of production expectations and stocks of finished products as well as by the fall of overall order books; however, their opposite influence on the confidence indicator caused no change in its value.

## PRODUCTION and PRODUCTION EXPECTATIONS

The seasonally adjusted value of the production indicator rose by 2 percentage points compared to the previous month. Compared to December 2003 it was up by 2 percentage points and 3 percentage points above last year's average.

The seasonally adjusted value of production expectations for the next three months rose by 5 percentage points compared to the previous month. Compared to December 2003 it was up by 1 percentage point and compared to last year's average by 3 percentage point.

## ASSURED PRODUCTION

With the same production rhythm as in December, production in enterprises is assured on average for the next 4.4 months. This is the same as in December last year and 0.2 month above last year's average.

In most enterprises (19.2%) production is assured for two months. They are followed by enterprises whose production is assured for more than ten months (19.1%) and those whose production is assured for three months (16.8%). Should the December production rhythm continue, 9.2% of enterprises have production assured for half a month while 2.0% of enterprises have no assured production.

## EXPORT ORDER BOOKS and EXPECTED EXPORT ORDER BOOKS

The seasonally adjusted value of the export order books indicator was the same as in the previous month. Compared to December 2003 it was up by 9 percentage points and compared to last year's average by 19 percentage points.

The seasonally adjusted value of expected export in the next three months rose by 5 percentage points compared to the previous month. Compared to December 2003 it was up by 6 percentage points and 5 percentage points above last year's average.

## OVERALL ORDER BOOKS and EXPECTED TOTAL DEMAND

The seasonally adjusted value of the overall order books indicator fell by 3 percentage points compared to the previous month. Compared to December 2003 it was up by 6 percentage points and compared to last year's average by 13 percentage points.

The seasonally adjusted value of expected total demand for the next three months fell by 3 percentage points compared to the previous month. Compared to December 2003 and last year's average it was up by 4 and 3 percentage points respectively.

## SELLING PRICE EXPECTATIONS

The seasonally adjusted value of selling price expectations for the next three months fell by 2 percentage points compared to the previous month. Compared to December 2003 it was up by 1 percentage point and compared to last year's average by 8 percentage points.

## ZALOGE

Desezonirana vrednost kazalca ravni zalog končnih izdelkov je bila višja za 7 odstotnih točk glede na pretekli mesec. Glede na isti mesec lani je bila višja za 2 odstotni točki in 2 odstotni točki nad povprečjem lanskega leta.

## PRIČAKOVANO ZAPOSLOVANJE

Desezonirana vrednost kazalca pričakovanj glede zaposlovanja v naslednjih 3 mesecih je bila enaka kot pretekli mesec. V primerjavi z istim mesecem lani je bila nižja za 3 odstotne točke in 1 odstotno točko pod povprečjem lanskega leta.

## STOCKS OF FINISHED PRODUCTS

The seasonally adjusted value of the stocks of finished products indicator rose by 7 percentage points compared to the previous month. Compared to December 2003 it was up by 2 percentage points and compared to last year's average up by 2 percentage points.

## EXPECTED EMPLOYMENT

The seasonally adjusted value of expected employment for the next three months was the same as in the previous month. Compared to December 2003 it was down by 3 percentage points and compared to last year's average by 1 percentage point.
