št./No 267

## 17 RUDARSTVO IN PREDLOVALNE DEJAVNOSTI MINING AND MANUFACTURING

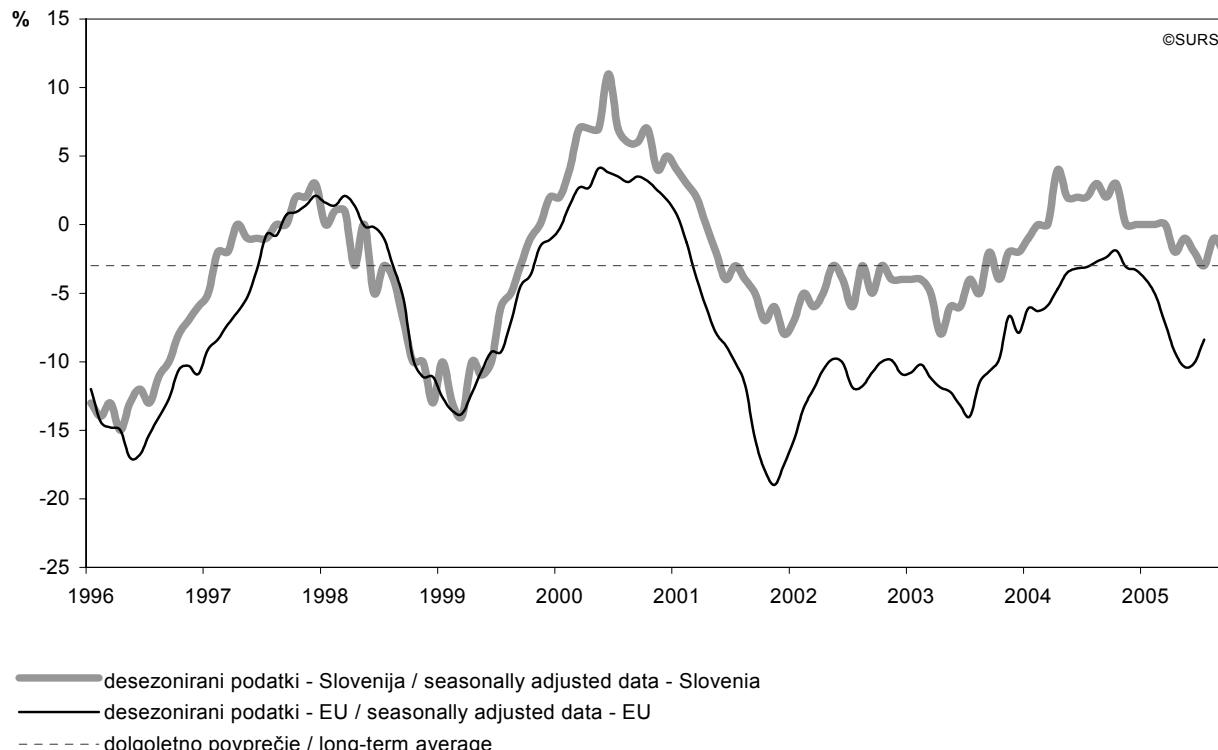

št./No 31

### POSLOVNE TENDENCE V PREDLOVALNIH DEJAVNOSTIH, SLOVENIJA, SEPTEMBER 2005 BUSINESS TENDENCY IN MANUFACTURING, SLOVENIA, SEPTEMBER 2005

- ▶ Desezonirana vrednost kazalca zaupanja v predelovalnih dejavnostih je bila v septembru 2005 za 1 odstotno točko nižja kot v avgustu 2005. V primerjavi z istim mesecem lani je bila nižja za 5 odstotnih točk, v primerjavi z lanskim povprečjem je vrednost padla za 3 odstotne točke.
- ▶ Na kazalec zaupanja so vplivala višja proizvodna pričakovanja in nižja raven skupnih naročil.
- ▶ Kazalci stanj so se v primerjavi s preteklim mesecem večinoma poslabšali, pričakovanja za naslednje tri mesece so ugodna.
- ▶ In September 2005 the seasonally adjusted value of the confidence indicator was down by 1 percentage point compared to August 2005. In comparison to September 2004 the value was down by 5 percentage points and 3 percentage points below last year's average.
- ▶ The confidence indicator was influenced by the rise of production expectations and the fall of overall order-books.
- ▶ Observed indicators for appreciation of the situation mainly deteriorated in comparison to the previous month. The expectations for the next three months are favourable.

## METODOLOŠKA POJASNILA

### NAMEN STATISTIČNEGA RAZISKOVANJA

Namen kvalitativne Ankete o poslovnih tendencah (PA-IND/M) je mesečno pridobivanje informacij o trenutnih stanjih glavnih ekonomskega kazalcev ter ocenitev njihovega gibanja v naslednjih mesecih. Rezultati anket so osnova za izračun kazalca zaupanja v predelovalnih dejavnostih in kazalca gospodarske klime, ki vključuje poleg kazalca zaupanja v predelovalnih dejavnostih tudi kazalec zaupanja pri potrošnikih in kazalec zaupanja v trgovini na drobno.

Panelno ankoeto o poslovnih tendencah v predelovalnih dejavnostih izvajamo v Sloveniji od aprila 1995 s poenot enim vprašalnikom, na podlagi poenotene metodologije in z enako periodiko, kot jo izvajajo v državah članicah Evropske unije že več desetletij. Zato so vsi podatki neposredno primerljivi.

### ENOTA OPАЗOVANJA

Opazujemo podjetja, ki so razvrščena v predelovalne dejavnosti, to je v oddelki Standardne klasifikacije dejavnosti (SKD) od 15 do 36, ter so bila izbrana v panel podjetij na podlagi dveh meril:

- velikosti podjetja (število zaposlenih, skladno z zakonom o gospodarskih družbah) in
- razvrstitev podjetja po SKD-ju.

### VIRI

Na vprašalnik odgovarjajo direktorji podjetij ali drugi vodilni delavci med 1. in 10. v mesecu. Rezultate pa objavimo že okoli 20. v istem mesecu.

### ZAJETJE

V panelni vzorec smo zajeli vsa velika podjetja, 59 % srednjevelikih (ali 64 % zaposlenih) in 18 % malih podjetij (ali 22 % zaposlenih). Panelni vzorec pokriva 39 % podjetij vzorčnega okvira ali 76 % zaposlenih v predelovalnih dejavnostih.

### NAČIN ZBIRANJA PODATKOV

Anketo izvajamo mesečno po pošti, vsako četrletje (januar, april, julij in oktober) pa mesečni anketi dodamo še sedem četrletnih vprašanj.

### UTEŽEVANJE ODGOVOROV

Odgovori so uteženi tako, da odražajo relativno pomembnost posameznega podjetja v vzorcu. Znotraj oddelkov SKD so odgovori uteženi s številom zaposlenih.

### NEODGOVORI

Neodgovore vsak mesec obdelamo skladno s poenoteno metodologijo; delež neodgovorov se giblje med 3 % in 15 % (povprečno 9 %).

### DEFINICIJE

Grafikoni prikazujejo ravnotežja po posameznih vprašanjih. Ravnotežje je razlika med pozitivnimi in negativnimi odgovori, izražena v odstotkih. Ravnotežja prikazujejo gibanje opazovanih ekonomskega spremenljivk (stanj in pričakovanj), ne pa dejanskih velikosti ekonomskega kazalcev.

Ko so prikazane daljše časovne vrste podatkov ali primerjave kazalcev z EU-jem, so vrednosti desezonirane. To so vrednosti, pri katerih je izključen vpliv sezone, vsebujejo pa trend-cikel in naključno komponento.

## METHODOLOGICAL EXPLANATIONS

### PURPOSE OF STATISTICAL SURVEY

The purpose of the qualitative Survey on Business Tendency (hereinafter: PA-IND/M) is to get monthly information about current situations of major economic indicators and to evaluate their movement in the following months. The results of the survey are the basis for evaluation of the confidence indicator in manufacturing and latter on also for the sentiment indicator, which also includes the consumer confidence indicator and the confidence indicator in retail trade.

We have been carrying out the Survey on Business Tendency in Manufacturing in Slovenia since April 1995 with the harmonised questionnaire, methodology and periodicity, which have been used in EU Member States for several decades. Therefore, all data are directly comparable.

### OBSERVATION UNITS

We are monitoring units that are registered in manufacturing - divisions 15 to 36 of the Standard Classification of Activities (SKD). They were selected into the panel by two criteria:

- the size of the enterprise (the number of employees in accordance with the Companies Act) and
- the classification of the enterprise according to the SKD.

### SOURCES

Respondents are managers of enterprises or other executives. They respond between the 1st and the 10th in the month. Results are published approximately on the 20th day of the current month.

### COVERAGE

The panel includes all large enterprises, 59% of medium-sized enterprises (or 64% of employees) and 18% of small enterprises (or 22% of employees); the panel covers 39% of the enterprises of the studied population or 76% of employees in manufacturing.

### METHOD OF DATA COLLECTING

The survey is carried out monthly by mail; we include seven additional questions to the monthly survey each quarter (January, April, July and October).

### WEIGHTS FOR RESPONSES

Responses to individual questions are weighted so that they reflect the relative importance of an individual enterprise in the panel. Inside divisions of the Standard Classification of Activities (SKD), responses are weighted with the number of employees.

### NON-RESPONSES

Non-responses are processed every month according to the harmonised methodology and vary between 3% and 15% (9% on average).

### DEFINITIONS

The charts show the balance by individual questions. The balance is the difference between positive and negative answers, expressed in percent. The balance shows the movement of observed economic variables (present situation and future expectations), and not the real size of economic indicators.

In the charts with longer time series or by comparisons with EU indicators, data are seasonally adjusted. Values are adjusted for the seasonal component, but include the trend-cycle component and the

Podatki za EU so desezonirani z metodo DAIINTIES, za Slovenijo pa z metodo TRAMO/SEATS, ki temelji na modelih ARIMA. Pri oblikovanju modelov je upoštevano časovno obdobje od maja 1995 do januarja 2005, pri časovnih vrstah pričakovani izvoz, pričakovano skupno povpraševanje in povprečno število mesecev zagotovljene proizvodnje od januarja 1997 do januarja 2005, pri časovni vrsti stopnja izkoriščenosti zmogljivosti od drugega četrletja 1995 do prvega četrletja 2005, pri časovnih vrstah konkurenčni položaj podjetja na domačem trgu, konkurenčni položaj podjetja na trgih držav članic Evropske unije in konkurenčni položaj podjetja na trgih zunaj Evropske unije pa od prvega četrletja 2001 do prvega četrletja 2005. Zaradi narave podatkov se model za leto 2005 razlikuje v primerjavi z modelom za leto 2004 pri skupnih naročilih. Pri časovnih vrstah pričakovano zaposlovanje in stopnja izkoriščenosti zmogljivosti sezonska komponenta ni prisotna.

Kazalec zaupanja je povprečje odgovorov (ravnotežij) na vprašanja o proizvodnih pričakovanjih, skupnih naročilih in zalogah končnih izdelkov. (obrnjen predznak).

## OBJAVLJANJE PODATKOV

Sodelujoči v anketi prejmejo informacijo o oddelku SKD, v katerega se po dejavnosti razvrščajo in o predelovalnih dejavnostih, vendar le, če so izpolnili vprašalnik za tekoči mesec.

Drugim uporabnikom so dostopni podatki na ravni predelovalnih dejavnosti in njenih oddelkov in po velikostnih razredih podjetij. Podatki so mesečno objavljeni v Statističnih informacijah – Poslovne tendence v predelovalnih dejavnostih in v podatkovni bazi SI-STAT na naslovu <http://www.stat.si/>.

## MESEČNA VPRAŠANJA

- Proizvodni ritem v opazovanem mesecu: živahnejši, enak, šibkejši?
- Ocena ravni izvoznih naročil: višja kot normalno, normalna, nižja kot normalno?
- Ocena ravni skupnih naročil: višja kot normalno, normalna, nižja kot normalno?
- Ocena ravni zalog končnih izdelkov: višja kot normalno, normalna, nižja kot normalno?
- Pričakovana proizvodnja v naslednjih 3 mesecih: naraščala, nespremenjena, padala?
- Pričakovane cene v naslednjih 3 mesecih: naraščale, nespremenjene, padale?
- Pričakovano število zaposlenih v naslednjih 3 mesecih: povečalo, ostalo nespremenjeno, zmanjšalo?
- Pričakovani izvoz v naslednjih 3 mesecih: naraščal, nespremenjen, padal?
- Pričakovano skupno povpraševanje v naslednjih 3 mesecih: krepilo, enako, slabelo?
- Ob sedanjem proizvodnem ritmu je zagotovljena proizvodnja za: .... mesecev?

## ČETRTLETNA VPRAŠANJA

- Omejitveni dejavniki v proizvodnji: ni omejitev, nezadostno domače povpraševanje, nezadostno tuje povpraševanje, konkurenčen uvoz, pomanjkanje delavcev na splošno, pomanjkanje usposobljenih delavcev, pomanjkanje surovin, pomanjkanje polizdelkov, pomanjkanje ustrezne opreme, neplačništvo, finančni problemi, nejasna gospodarska zakonodaja, negotove gospodarske razmere, ostalo?
- Sedanje proizvodne zmogljivosti: prevelike, ustrezne, premajhne?
- Sedanja stopnja izkoriščenosti zmogljivosti: .... odstotkov?

irregular component. Data for EU are seasonally adjusted by the DAIINTIES method and for Slovenia by the TRAMO/SEATS method, which is based on ARIMA models. The designing of the models is based on the time period from May 1995 to January 2005, the series expected export order-books, expected total demand and average assured production from January 1997 to January 2005, the series level of capacity utilisation from the second quarter of 1995 to the first quarter of 2005, and the series competitive position on the domestic market, competitive position on the foreign markets inside the EU and competitive position on the markets outside the EU from the first quarter of 2001 to the first quarter of 2005. Because of the nature of data, the model for 2005 differs from the model used in 2004 by overall order-books. In the time series expected employment and level of capacity utilisation the seasonal component is not present.

The confidence indicator is defined as the arithmetic mean of the answers (balances) to the questions on production expectation, assessment of overall order-books and assessment of stocks of finished products (the latter with an inverted sign).

## PUBLISHING

Respondents participating in the survey receive the special information for the division in which they are classified and for manufacturing. They receive it only if they responded in the current month.

Other users can get data for manufacturing and its divisions and data for different size groups of enterprises. Data are published in the monthly Rapid Reports – Business tendency in manufacturing and in the database SI-STAT which is available on <http://www.stat.si/eng/>.

## MONTHLY QUESTIONS

- Production rhythm in the observed month: increased, remain unchanged, decreased?
- Assessment of current export order-books: above normal, normal, below normal?
- Assessment of current overall order-books: above normal, normal, below normal?
- Assessment of current stock of finished products: above normal, normal, below normal?
- Production expectations over the next 3 months: increase, remain unchanged, decrease?
- Selling prices expectations over the next 3 months: increase, remain unchanged, decrease?
- Firm's total employment expectations over the next 3 months: increase, remain unchanged, decrease?
- Export orders expectations over the next 3 months: increase, remain unchanged, decrease?
- Expected total demand over the next 3 months: increase, remain unchanged, decrease?
- Duration of production assured by current overall order books: for ... months?

## QUARTERLY QUESTIONS

- Limits to production: none, insufficient domestic demand, insufficient foreign demand, competitive imports, shortage of labour in general, shortage of skilled labour, shortage of raw materials, shortage of semi-finished products, lack of appropriate equipment, problems with unpaid bills, financial problems, unclear economic legislation, uncertain economic conditions, other?
- Assessment of current production capacity: more than sufficient, sufficient, not sufficient?
- Current level of capacity utilisation: in percentage of full capacity?

- Konkurenčni položaj podjetja na domačem trgu v zadnjih 3 mesecih: boljši, nespremenjen, slabši?
- Konkurenčni položaj podjetja na trgih držav članic Evropske Unije v zadnjih 3 mesecih: boljši, nespremenjen, slabši?
- Konkurenčni položaj podjetja na trgih izven Evropske Unije v zadnjih 3 mesecih: boljši, nespremenjen, slabši?
- Obseg novih naročil se je v zadnjih 3 mesecih: povečal, ostal nespremenjen, zmanjšal?

## KOMENTAR

Septembra 2005 so direktorji tendenze v predelovalnih dejavnostih ocenili slabše kot pretekli mesec. Desezonirana vrednost kazalca zaupanja je bila v primerjavi s preteklim mesecem nižja za 1 odstotno točko, v primerjavi z istim mesecem lani je bila ta vrednost nižja za 5 odstotnih točk in 3 odstotne točke pod lanskim povprečjem.

## PROIZVODNJA in PRIČAKOVANA PROIZVODNJA

Desezonirana vrednost kazalca proizvodnje je bila v primerjavi s preteklim mesecem višja za 3 odstotne točke. Glede na isti mesec lani je bila višja za 2 odstotni točki in 8 odstotnih točk pod lanskim povprečjem.

Desezonirana vrednost kazalca proizvodnih pričakovanj za naslednje 3 mesece je bila v primerjavi s preteklim mesecem višja za 2 odstotni točki. V primerjavi z istim mesecem lani je bila nižja za 9 odstotnih točk in 3 odstotne točke pod lanskim povprečjem.

## IZVOZNA NAROČILA in PRIČAKOVANI IZVOZ

Desezonirana vrednost kazalca ravni izvoznih naročil je bila v primerjavi s preteklim mesecem nižja za 1 odstotno točko. Glede na isti mesec lani je bila nižja za 10 odstotnih točk in 1 odstotno točko pod lanskim povprečjem.

Desezonirana vrednost kazalca pričakovanega izvoza za naslednje 3 mesece je bila v primerjavi s preteklim mesecem višja za 9 odstotnih točk. V primerjavi z istim mesecem lani je bila nižja za 3 odstotne točke in 5 odstotnih točk nad povprečjem lanskega leta.

## SKUPNA NAROČILA in PRIČAKOVANO SKUPNO POVPRŠEVANJE

Desezonirana vrednost kazalca ravni skupnih naročil je bila v primerjavi s preteklim mesecem nižja za 2 odstotni točki. Glede na isti mesec lani je bila nižja za 6 odstotnih točk in 3 odstotne točke pod povprečjem lanskega leta.

Desezonirana vrednost kazalca pričakovanega skupnega povprševanja za naslednje 3 mesece je bila v primerjavi s preteklim mesecem višja za 4 odstotne točke. Glede na isti mesec lani je bila nižja za 8 odstotnih točk in 3 odstotne točke pod povprečjem lanskega leta.

## ZALOGE KONČNIH IZDELKOV

Desezonirana vrednost kazalca ravnih zalog končnih izdelkov je bila enaka kot pretekli mesec. Glede na isti mesec lani je bila nižja za 1 odstotno točko in 4 odstotne točke nad povprečjem lanskega leta.

## PRIČAKOVANE CENE

Desezonirana vrednost kazalca cenovnih pričakovanj za naslednje 3 mesece je bila nižja za 1 odstotno točko glede na pretekli mesec. V

- Competitive position on the domestic market over the past 3 months: improved, remained unchanged, deteriorated?
- Competitive position on the foreign markets inside the EU over the past 3 months: improved, remained unchanged, deteriorated?
- Competitive position on the markets outside the EU over the past 3 months: improved, remained unchanged, deteriorated?
- New orders over the past 3 months: increased, remain unchanged, decreased?

## COMMENT

In September 2005, managers estimated business tendencies in manufacturing as being worse than in the previous month. The seasonally adjusted value of the confidence indicator was 1 percentage point lower than in August 2005. Compared to September 2004 the value of the confidence indicator fell by 5 percentage points and was 3 percentage points below last year's average.

## PRODUCTION and PRODUCTION EXPECTATIONS

The seasonally adjusted value of the production indicator was up by 3 percentage points compared to the previous month. Compared to September 2004 it was up by 2 percentage points and 8 percentage points below last year's average.

The seasonally adjusted value of production expectations for the next three months rose by 2 percentage points compared to the previous month. Compared to September 2004 it was down by 9 percentage points and 3 percentage points below last year's average.

## EXPORT ORDER-BOOKS and EXPECTED EXPORT ORDER-BOOKS

The seasonally adjusted value of the export order-books indicator was down by 1 percentage point compared to the previous month. Compared to September 2004 it was down by 10 percentage points and compared to last year's average by 1 percentage point.

The seasonally adjusted value of expected export order-books in the next three months was up by 9 percentage points compared to the previous month. Compared to September 2004 it was down by 3 percentage points and 5 percentage points above last year's average.

## OVERALL ORDER-BOOKS and EXPECTED TOTAL DEMAND

The seasonally adjusted value of the overall order-books indicator fell by 2 percentage points compared to the previous month. Compared to September 2004 it was down by 6 percentage points and 3 percentage points below last year's average.

The seasonally adjusted value of expected total demand for the next three months rose by 4 percentage points compared to the previous month. Compared to September 2004 it was down by 8 percentage points and 3 percentage points below last year's average.

## STOCKS OF FINISHED PRODUCTS

The seasonally adjusted value of the stocks of finished products indicator was the same as in the previous month. Compared to September 2004 it was down by 1 percentage point and compared to last year's average it was up by 4 percentage points.

## SELLING PRICE EXPECTATIONS

The seasonally adjusted value of selling price expectations for the next three months fell by 1 percentage point compared to the previous month.

primerjavi z istim mesecem lani je bila nižja za 8 odstotnih točk in 5 odstotnih točk pod povprečjem lanskega leta.

### ZAGOTOVLJENA PROIZVODNJA

Ob septembrskem proizvodnem ritmu imajo podjetja zagotovljeno proizvodnjo v povprečju za 4,3 meseca. To je za 0,2 meseca manj kot lani v tem mesecu in 0,1 meseca pod povprečjem lanskega leta.

Največ podjetij (18,0 %) ima proizvodnjo zagotovljeno v povprečju za 3 mesece. Sledijo podjetja (16,7 %), ki imajo proizvodnjo zagotovljeno v povprečju za več kot 10 mesecev, in podjetja (15,2 %), ki imajo proizvodnjo zagotovljeno v povprečju za 2 meseca. Za pol meseca ima zagotovljeno proizvodnjo v povprečju 7,3 % podjetij, ob septembrskem proizvodnem ritmu pa nima zagotovljene proizvodnje v povprečju 2,2 % podjetij.

### PRIČAKOVANO ZAPOSLOVANJE

Vrednost kazalca pričakovanj glede zaposlovanja v naslednjih 3 mesecih je bila višja za 5 odstotnih točk glede na pretekli mesec. V primerjavi z istim mesecem lani je bila nižja za 8 odstotnih točk in 5 odstotnih točk pod povprečjem lanskega leta.

Statistično raziskovanje je sofinancirala Evropska komisija. Za objavljene podatke in besedila je odgovoren izključno Statistični urad Republike Slovenije in ne Evropska komisija.

Compared to September 2004 it was down by 8 percentage points and 5 percentage points below last year's average.

### ASSURED PRODUCTION

With the same production rhythm as in September 2005, production in enterprises is assured on average for the next 4.3 months. This is 0.2 month less than in September 2004 and 0.1 month below last year's average.

In most enterprises (18.0%) production is assured for three months. They are followed by enterprises whose production is assured for more than ten months (16.7%) and those whose production is assured for two months (15.2%). Should the September production rhythm continue, 7.3% of enterprises have production assured for half a month while 2.2% of enterprises have no assured production.

### EXPECTED EMPLOYMENT

The value of expected employment for the next three months rose by 5 percentage points compared to the previous month. Compared to September 2004 it was down by 8 percentage points and 5 percentage points below last year's average.

The business survey is co-financed by the European Commission. However, the European Commission accepts no responsibility or liability whatsoever with regard to the material published in this publication.
