

KOTIČKOV STRIC OTROKOM

Dež je pobral sneg in na mojem vrtu že bodejo ob zidu prvi poganjki iz zemlje. Samo malo naj se ogreje in bom videl prvo zelenje. Gledam vrbo na sosedovem vrtu. V nekaj dneh bo imela mačice. Seveda, če pomislim na Podbrezje, mi je kar hudo. V Črepinjeku je zdaj kurjice, da se kar belj, todle pa vruga cvetja dolgo ni. Skoda. Vendar je eno gotovo — pomlad ni več daleč.

Dragi Koticikov stric!
Zelo rad bi imel kolo. Dolgo sem prosil ata, da bi mi ga kupil. Tudi sam se hranil denar, ki ga zaslužim z raznašanjem Ameriške Domovine. Ko sem imel že nekaj prihranjenega in sem se kar naprej prosil za kolo, je ata obljubil, da bo dal polovico, če bom imel dobro spričevalo. Tako sem lani v poletju dobil lepo, rdeče kolo. Zelo sem ga bil vesel. Lepo se je voziti s kolesom.
Lepo Te pozdravlja
Pavle Zakelj

Dragi Pavle!
Kajne, človek si vedno nekaj želi? Včasih hrepeni po stvarih, ki jih nikoli ne bo imel. Tako smo ustvarjeni. Kolo je lepa reč, toda treba ga je po pameti rabiti, posebno na cestah. Hitro se rado kaj zgodi. Jaz svojega kolesa v življenju nikoli nisem imel. Drag je bil v tistih letih, ko sem bil jaz otrok. Fizolova preklja je bila moje kolo. Zdad niti po kolesu več ne hrepenim. Veš, fantiček, pride čas, ko človek hrepeni samo še po miru. Jaz sem v tistem času. Nekoč boš tudi Ti. Skrbno pazi pri vožnji, da staršem ne boš delal skrbi.
Lepo Te pozdravljam.

Dragi Koticikov stric!
Rada bi Ti povedala, da imam lepega belega zajčka. Oči ima rdečkaste barve in se v zemi svetijo. Poleti smo ga imeli tudi maj, zdaj ga imamo v garaži v mali hišici. Rad je zelenjavo, še rajše pa ima kruh. Včasih ga pridejo pogledat tudi moje prijateljice in mu prinesejo jesti. Veliko veselja imam z njim. Mogoče imaš tudi Ti kakšen korenček za njega?
Lepo Te pozdravlja
Irena Meglič

Draga Irena!
Lepa živalica je zajček in mi je hudo žal, da nimam nobenega korenčka za Tvojega. Kar imam korenja pri bajti, ga porabim za župico. Saj veš: peteršilj, zelena, kakšen korenček, malo čebule, koper — to so stvari, ki morajo biti, da je župica taka, kakor se zagre. Če človek sam kuha, se kuhe navadi, preišljam pa, če odslej ne bi nekaj več korenja kupil, da bi še za Tvojega zajčka kaj ostalo. V moji šendi je zdaj zelo samotno. Mucka ni več, kakšna veriverica še frkne pred vrata in čaka na lešnike. Ne vem, na stara leta je menda res tako, da človek mora sam ostati. Z Bogom in temo se zgovarja. Ti se le veseli zajčka in nikjer ni zapisano, da nekega dne ne prinesem nekaj korenja zanj.
Lepo pozdrav.

Dragi Koticikov stric!
Dolgo časa sem prosil ata in mamo za novo kolo in žogo. Dolgo se moram čakati, končno sta

Narodnostni študijski centri

Senator Richard S. Schweiker (R. Pa.) je 25. januarja predložil senatu zakon "Ethnic Heritage Studies Act of 1971". Ta listina bo za vse narodnostne skupine v Ameriki pri uveljavljanju v amerškem javnem življenju zelo velike važnosti. Ta zakon pooblašča sekretarja za vzgojo, da po vsej zvezni državi ustanovi vrsto pokrajinskih centrov, ki naj studirajo zgodovino in kulturo raznih narodnostnih skupin v Ameriki. Zbran in predelan material naj bo na razpolago šolam, univerzam in narodnostnim skupinam v svrhu študija in medsebojnega izpopolnjevanja.

Zakon v glavnem vsebuje te misli: V svetovni zgodovini je Amerika nova dežela stara komaj nekaj sto let. Ena od naših notranjih gonilnih moči je vedno bila bogata kombinacija narodnih tradicij in izkušnjaj, ki so jih naši predniki prinesli v to deželo, ko so ob naselitvi tukaj začeli novo življenje. Samo Indijanci so prvotni prebivalci te dežele. Vsi drugi Amerikanci izhajajo torej iz drugih dežel, ki imajo različne kulture, narodne tradicije in zgodovinski razvoj in mnoge med njimi so že obstojale več tisoč let pred odkritjem Amerike.

Amerika naj ne bo več "talilni lonec" (melting pot) z mešanico ljudi. Namesto, da ignoriramo mnoge etnične in tradicionalne razlike Amerikancev, je sedaj čas, da jih poudarjamo in združujemo posamezne vrednote narodnostnih skupin za harmonično sožitje vseh ljudi. To se najbolje doseže, da narodnostnim skupinam omogočamo ohranjanje svoje individualnosti, jim pomagamo se medsebojno spoznavati, da se morejo v medsebojnem spoštovanju združevati za skupni blagor.

Slovenci bomo vedno lahko ponosni na naš verski, kulturni in ustvarjalni prispevek v amerškem javnem življenju.

Kje se začne zmaga?

CLEVELAND, O. — To je najtežje vprašanje v našem življenju. Le redke so tekme, kjer je zmaga očitna na prvi pogled. Morda v športu, toda tam so pravila za zmago še bolj točno opisana kot v vojnah. Iz zadrege pomagajo včasih tudi odstotki in številke. V našem mestu smo na primer imeli sedaj slučaj s "Clevelandskim načrtom". To je hvalevredna pobuda v obliki društva, ki je hotelo nabrati \$1,100,000, da jih razdeli kot podpore Amerškemu društvu za boj proti raku, dalje Društvu za srčne bolezni in Zdravstvenemu fondu za Cleveland.

Akcija ni mogla nabrati vsega zneska, na predzadnji dan je bilo nabranih le 76.2%, pa je vendarle odbor priredil "večerjo zmage", čeprav ni verjetno, da bi zadnji dan bilo nabrano še dobrih 23%.

Alžirija zasegla olje, plin francoskih družb

ALŽIRIJA, Al. — V sredo je Alžirija zasegla ali vzela pod svoj nadzor vse olje, plin in cevovode francoskih družb na svojih tleh. Alžirija je enostavno povišala svoj delež v vseh teh družbah na 51%. Ta korak, ki je sprožil odprto borbo med Francijo in Alžirijo, je objavil predsednik Nouri Boumedienne na unijškem zborovanju v glavnem mestu. Izjavil je, da bodo francoske družbe dobile odškodnino ter da je Alžirija pripravljena začeti takoj nova pogajanja o olju s Francijo na temelju dogovora držav, izvoznik olja, v Tripoliju, ki je bil sprejet dan prej.

Predsednik Boumedienne je dejal, da bodo bodoči odnosi Alžirije in Francije v vprašanju olja temeljili na redni svetovni tržni ceni. Sklepi v Tripoliju vedljajo tudi za Francijo. Francija je sedaj plačevala kot temeljno ceno Alžiriji za olje po pogodbi iz leta 1965 \$2.08 za sod, po novem bo ta cena presegla \$3.

Predsednik republike G. Pompidou je takoj, ko je vest o alžirskem ukrepu dosegla Pariz, sklical izredno sejo vlade, ki se mora odločiti za pot, ki jo bo Francija ubrala v odnosih do Alžirije. Alžirija načrpa dnevno nekako en milijon sodov olja, ki gre večinoma vse v Francijo in krije dober del njenih potreb.

Japonski cesar obiše Evropo

TOKIO, Jap. — Japonska vlada je dovolila cesarju, da sme obiskati Evropo, taka je tradicija na Japonskem, in mu tudi uradila načrt za potovanje. Cesar in njegova žena, ki še ni bila nikoli v svojem 67-letnem življenju na tujem, bosta odletela na pot v posebnem letalu 27. septembra.

Med potjo se bo letalo ustavilo le na Aljaski, da se založi s gorivom, potem bo nadaljevalo pot naravnost v Belgijo. Tam bo cesarški par dva dni, potem gre v London za 3 dni, in končno v Bonn za dva dni. Napravil bo tudi izlete v Švicco, Dansko, Nizozemsko in Francijo, potem se pa vrnil preko Aljaske domov.

Papež za več žrtev v postnem času

RIM, It. — Papež Pavel VI. je v svojem govoru na Pepelnico, ko se začena 40-dnevni post, dejal, da se preveč katoličanov odmika omejitvam, odpovedim in skromnemu življenju pri iskanju lažjega krščanskega življenja. Kristjani se morajo več

žrtvovati, bolj odrekati namesto udajati "skušnjavam svetnosti". Pred svojim odhodom v cerkev sv. Sabine, kjer je imel navedeno pridigo, je glavni duhovnik v cerkvi sv. Petra pomazal s pepelom na čelu tudi sv. očeta. Ta je tedaj dejal, da morda on bolj kot kdo drugi, potrebuje obredno svarilo: Človek, spomni se, da si prah in da se v prah povrneš!

Many Slovenian Farmers Found New Start in This Country

by Jacob Strekal

Part I

(of a two-part series)

In a great many ways the Slovenians contributed more than other ethnic groups to build a better America. They started to come to the U.S. in the 1880's.

Many found employment in the coal mines, steel mills, gold, lead and silver mines, copper mines, lumber camps, as mechanics, builders and merchants.

The economy of the United States before the turn of the century was so uncertain, that times were good and bad from year to year. Inflation and prices fell from one season to the next.

It was therefore necessary for the new arrivals to look for security in working the land for a more stable future.

Many hundreds of our Slovenians settled on farms in the area of Perry, Madison, Geneva, Thompson, Leroy and Chardon, Ohio.

to within 150 feet of a high-voltage transmission tower, posing a threat to electrical service in parts of New York, New Jersey and Pennsylvania.

SLOVENIAN CHAPEL DEDICATION PROGRAM READY FOR AUG. 13, 14 15

The Slovenian Chapel is nearing completion. Most work is finished and visitors can see the monument erected by the American Slovenians in the biggest and central Catholic Church, the National Shrine in Washington, D.C.

It is to our satisfaction that the Slovenian chapel reflects national characteristics to a bigger extent than any other chapel in the Shrine.

The focal point is an artistic copy of Marija Pomagaj from Brezje. The Slovenian coat of arms and the name SLOVENIA are engraved on the main altar.

The wall on the right bears an English saying by Bishop Baraga, and the one on the left another saying by Bishop Slomsek. Slovenian folk ornaments adorn the ceiling. Mounted on the walls are four reliefs by the well known Slovenian sculptor France Gorse. They represent: baptism of Duke Gorazd in the year 745 AD, Slomsek teaching the children, Baraga baptizing the Indians, and Slovenian immigrants reaching the New World.

The idea of having a Slovenian chapel in America's National Shrine was enthusiastically embraced by many individuals and organizations. A proof of this is their understanding and generosity.

In the mosaic of the American Christendom this chapel represents Slovenian people to the future generations, while for ourselves it is a fitting document of our own consciousness and our will to document Slovenian presence in America.

That is why the dedication of this chapel will be a momentous event in the life of American Slovenians. It should also be emphasized at this point that the architects responsible for overall development of the Shrine accepted most of our suggestions in planning the Slovenian Chapel.

To insure a lasting memory of this event, other cultural and social events are planned besides dedication ceremonies set for the days of August 13, 14 and 15, and we are extending our cordial invitation to all members of Slovenian communities in the US and Canada to join us in these festivities.

At the same time we invite all Slovenian organizations as well as individuals, willing to take part in various activities and programs to let us know their wishes and suggestions.

For reservations in hotels and all other information please contact us as soon as possible!

THEY GO TOGETHER

Production of energy, in one form or another, has been a measure of advancement since the beginning of the human race. The answers to most of our problems today and the key to an ever-improving quality of life lie in the technology of producing more energy, not less.

Such is the premise of Mr. William C. Tallman of the Public Service Co. of New Hampshire, a utility company. He said "The major domestic problems facing our society can be generally categorized into four areas: (1) poverty, (2) food and water supply, (3) conditions of urban life, and (4) the recycling of wastes.

"I submit that none of these can be solved without a strong economy and lots of power." How can cities be rebuilt and adequate water supplies insured except through the use of energy?

It has been pointed out that the nation has a need for \$30 billion worth of sewage-disposal facilities in the next five years. If power production facilities are not increased, how will it be possible to operate facilities needed to eliminate the pollution from sewage-ridden streams?

Facts such as these led Mr. Tallman to the conclusion "... that it is not in the best interest of the nation to curtail the growth of an industry that can do much for solving pressing problems and at the same time contribute greatly to improving the environment."

Energy and the quality of life are two sides of the same coin.

Simplicity Patterns make their contribution to the 1971 Cleveland Home and Flower Show, February 20th-28th, with a preview of spring fashions for casual, sports, formal and vacation wardrobes.

#9230 #9288—Simplicity previews spring with a colorful poncho of great circles of blue, green and turquoise, paired with turquoise shorts in 50% polyester and 50% rayon blend in durable press, shrink controlled and machine washable fabrics. On the right, #9288, is a unique twosome, little romper and dirndl'd maxi skirt slit all the way up to wow-ee-wow! Both are sum-

mer-time cotton knit.

#9071—For the sundown and after-dark set, it's a jumpsuit and midi vest. The jumpsuit is a shrimp shade of pink. The midi vest is bow catching brocade of pinks and orange and white and gold. To please your fancy, you may prefer #9114, a midi plus pants in metallic brocade in eye-catching swirls of pinks and plaids.

For the complete showing of spring and summer wardrobes with David Lee Models, visit the 1971 Cleveland Home and Flower Show, Fashion Show hours: 2 p.m. and 7 p.m. daily, February 20th-28th.

N. L. UMPES TO WAR ON ILLEGAL PITCHES

There will be renewed emphasis on dealing with perpetrators of illegal pitches when National League umpires assemble for a staff meeting at the International Inn in Tampa, Fla., March 11.

The two most important points to be covered at the meeting are rules changes and instructions for handling pitchers who persist in use of the spitball or vaseline ball, and the bean ball.

EX-FBI MAN GUARDS NHL FROM ANY SCANDAL

It has been 23 years since the National Hockey League was embarrassed by a gambling scandal. They will be pleased if 1,000 years go by before trouble again comes their way.

Hockey has gone big time and with big operations gamblers have a tendency to come by.

This explains why husky Frank Torpey, a gray-haired ex-FBI man, suddenly has appeared in the dressing rooms of the Boston Bruins, Vancouver Canucks, New York Rangers and virtually every other NHL club in recent weeks.

He is hockey's new security chief.

BIGGEST DOMED STADIUM SET FOR NEW ORLEANS

Building of the Louisiana Superdome in New Orleans went for an apparent low bid \$84.5 million.

Cost of the stadium, designed to be the largest covered sta-

dium in the world, had been estimated at \$93.5 million. This includes land acquisition.

The new stadium will have facilities for all major field sports as well as auditorium events because of uniquely designed movable grandstands.

JOE DIMAGGIO SEEKS BASEBALL JOB

"It's hard for me to be apart from baseball. It's part of my life," said Joe DiMaggio, the former Yankee centerfielder and Hall of Famer who doesn't have a job in baseball for the first time in 11 years.

"I've had no offers. No one in baseball has contacted me," continued DiMaggio.

DiMaggio, who has spent the last three years with the Oakland Athletics, says he doesn't want to be tied down to the daily season-long baseball routine.

"I can't stand that many night games," he said.

GOALIE SCORES FIRST PT. EVER BY NET TENDER

Michael Plasse of the Kansas City Blues in the Central Hockey League scored what is believed the first goal by a goaltender in professional hockey Sunday night against Oklahoma City.

Plasse, who was a spare netminder for the Barons two seasons ago, scored the point in a 3-1 victory after the Blazers had removed their goalie in favor of a sixth attacker.

In explaining how he did it, Plasse said, "I took the puck and threw it away. Someone reached for it, but missed. Then I saw it going straight up the middle. I could hardly believe it as it went into the open net."

Bob Cousy, coach of the Cincinnati Royals, hopes his team can get into the NBA playoffs. His Royals are currently second in a tight Central Division race.

Young Slovenian Artist Has Showing At Chicago's S.N.H. On February 27

Emilia Razman

A young Slovenian artist who is a newcomer to Chicago will exhibit her paintings at a special showing Feb. 27 and 28 at the Slovenian Home Bled, 1902 W. Cermak Rd.

She is Mrs. Emilia Razman, a native of Gorica and former student at the University of Ljubljana, Slovenia.

One of nine children, Emilia Bucek Razman grew up in Slovenian Primorje near the Italian border. Because of hard times, she was unable to further her studies at the University but had a number of fine teachers to guide her.

While at the University, she was a member of cultural groups and exhibited her work pri-

vately. In her home town, she kept her art alive by teaching children in local schools.

In 1953, Mrs. Razman made her best work to that date, a village church scene which captured the interest of the pastor.

This led to her recommendation for a large religious work for the Franciscan chapel at Nova Gorica, near Trieste, where rests the crypts of Marie Antoinette and members of the royal Bourbon family. She completed three works there.

Later she also painted in Tempera, the nativity scene for the Cathedral at Piran, on the Slovenian Adriatic coast.

Now she resides with her sister and three little daughters at 3916 No. Troy on Chicago's north side.

Her paint brushes are too fascinating to the children she says, so her more serious work is confined to selected hours of the day or night.

Mrs. Razman's work will be on display Saturday evening from 7 to 10 p.m. and Sunday afternoon at the Slovenian Home Bled. Some of it will be for sale.

Sponsoring the event is the Slovenian American Radio Club and all interested are invited to attend.

Reduction In Traffic Deaths Is Pledged By The New Director Of Ohio Safety

An aggressive campaign to reduce traffic deaths in Ohio was pledged by Eugene P. O'Grady, newly appointed state director of Ohio Safety.

O'Grady, speaking at the monthly board of control meeting of the Greater Cleveland Safety Council, said his office would unveil a new program of highway safety in April at a state meeting of safety officials.

Gov. John J. Gilligan will name a special committee to study traffic safety programs in Ohio, O'Grady said. Gilligan, according to O'Grady, "is committed to study traffic safety problems in Ohio."

At the April safety meeting O'Grady said he would make some recommendations about uniform court treatment for traffic offenders.

"I personally feel there has been too much wrist slapping in the past and would hope to put some teeth in the system," O'Grady said.

O'Grady, former chairman of the Ohio Democratic party, would not comment on what action might be taken to tighten loopholes regarding motorists arrested for driving with-

out a license. He said he did not want to comment on the problem until his department had thoroughly researched it after which he would make some legislative recommendations.

Here Are New Postal Rate Proposals

Officer in Charge of the Cleveland Post Office, Elmer E. Forsberg, said that proposed new postal rate increases will place the nation's postal system on a sound financial basis and shift more of the costs from taxpayers to those who use the

mails the most. He explained that recent Postal Service proposals submitted Feb. 1 to the Postal Rate Commission would yield additional revenues of \$1.45 billion during fiscal 1972, starting this July 1.

The proposals call for increases in virtually all mail categories except parcel post. First class mail goes up two cents from 6 to 8 cents a letter. Bulk (third-class) goes to a minimum of 5 cents per piece.

Substantial increases also are proposed for magazines, newspapers, and other categories of second-class mail. These rather STEEP increases will be phased over a five-year period to soften the impact on the mailers.

Other highlights: Airmail rates go up a penny, from 10 to 11 cents, and airmail cards, from 8 to 9 cents each.

Regular second-class publications — those mailed for delivery outside the publisher's county, excluding certain categories — will be raised 1.9 cents per piece plus higher advertising rates ranging from 9.1 to 20.9 per pound (that is more than double the present rate).

Special delivery goes from 45 to 60 cents.

Different Name

An electric light manufacturer approached the theater owner and offered him free bulbs for the marquee — in order to satisfy his one great ambition in life.

"I'll take the free bulbs," the theater owner said, "if you'll tell me what the secret ambition is."

"Sure," said the manufacturer, "it's just that I've always dreamed of seeing my lights up in names."
