### Pozdrav 27. redni konvenciji Ameriške Slovenske Katoliške Jednote

Spoštovane delegatinje, delegati in glavni odbor!

Zbrali ste se na 27. redno konvencijo v Milwaukeeju v državi Wisconsin, da pretresete delovanje Ameriške Slovenske Katoliške Jednote, — največje slovenske katoliške organizacije ne le v Združenih državah Amerike, ampak na vsem svetu, — v zadnjih 4 letih in napravite načrt za njeni bodoče delo.

Zaradi izredne važnosti K.S.K. Jednote v življenju katoliških Slovencev v tej deželi, zaradi njenega velikega ugleda med vsemi katoliškimi Slovenci v ZDA, v Sloveniji in povsod drugom domu vse z zanimanjem spremljali Vaše delo. Naj ga Bog blagoslovil, naj On vodi Vaše odločitve tako, da bodo v splošno korist Ameriške Slovenske Katoliške Jednote in njenega članstva, v korist vsega katoliškega slovenstva v naši deželi, pa tudi povsod drugod.

Uspeh in napredok K.S.K.J. je in mora biti pri sreči vsakemu zavednemu katoliškemu Slovencu v tej deželi, njeni moč, njena rast, njena trdnost je trdnost in moč nas vseh!

Vas cenjene delegatinje, delegati in glavni odbor, ki nadaljujete delo, ki so ga začeli naši pionirji pred skoraj 76 leti, z vso vnemo in pozrtvovalnostjo tako uspešno, prirčno pozdravljamo! Ko boste naslednje dni razpravljal o delu K.S.K.J. v zadnjih 4 letih in delali načrte za bodočnost, ne pozabiti ciljev in misli, želja, stremljenj in preprinjanj tistih, ki so jo pred skoraj 76 leti ustanovili, se za njo trudili in z njo ter za njo živel! Ameriška Slovenska Katoliška Jednota je bila in je najmočnejša slovenska katoliška organizacija na vsem svetu, je bila in je ponos vseh katoliških Slovencev v tej deželi, naj to tudi ostane, ostane še dolgo, dolgo let!

### Novi grobovi

Oto Gavrilovič umrl

NEW YORK, N.Y. — Tu je umrl 20. julija in bil 24. pokopan g. Oto Gavrilovič, po rodu Srb, po poklicu pa gospodarstvenik in politik, velik prijatelj Slovencev. V povojnih letih je skoval stvarno tolmačiti razmere v Sloveniji in med Slovenci svojimi rojakom.

### Kolumbija v očeh ameriške uradne politike

CLEVELAND, O. — Časopis je pri nas trudi, da bi obširno poročalo o položaju raznih držav, ki imamo z njimi dobre zveze ali pa velike sitnosti. Kadar kaj takega ni, radi pozabljamo na take dežele. Taka taktika ima tudi svojo temno plat.

Kadar je novic iz tujine preveč, takrat naše časopisne ravno tankovestno pri izbiranju. Verjetno je temu kriva hitrica, ki je z njo treba nabirati novice iz dnevne dokumentacije. Tako nam celo obilica novic veliko ne koristi, ker ne daje nepristanke slike o dotični deželi. Kako površno sliko imamo na primer o posameznih državah v Afriki ali Prednji Aziji! Pa smo vendar bili z novicami o njih od časa do časa kar dobro založeni.

Nekaj podobnega se nam sedaj dogaja s Kolumbijou v Latinski Ameriki. Ta dežela se ne odlikuje s stalno notranjo politiko. Dobe diktatur in svobodnih političnih sistemov se tam vrstijo kar na tekočem traku. Zadnjih par desetletij je v njih igral

veliko vlogo diktator Rojas Pinilla. Dasiravno ni z moralnega stališča priporočljiv politik, je vendarle sposoben in hitro čuti, kako vleče v Kolumbiji političen veter. Bil je dolga leta diktator, potem pregnan, potem obsojen, potem mu je bila kazen deloma odpuščena, pa se je zopet vrnil v politiko.

Tu je ponovno dosegel na ameriško presenečenje velike uspehe. Pri zadnjih predsedniških volitvah je njegov stranki manj kalo le 64,000 glasov, da bi zmagala. Pri tem je treba vpoštovati, da vladna stranka ni pri glasovanju preveč tenk ovestno štela glasov, Pinilla trdi, da je bila njegova stranka ogoljufana. Zgubila je predsedniško mesto, svoj položaj v Kongresu je pa ohranila. Zato bo novi predsednik Pastrana Borero imel dosti sitnosti z njo, če bo sploh mogel ostati na oblasti vso predsedniško dobo. O tem mnogi opazovalci v domijo, pa ne morda le zaradi svojega strankarskega gledanja na političen položaj.

Položaj med sedanjim vlad-

### Armadni inženirji se vključili v napor za čistočo našega okolja

WASHINGTON, D.C. — Zbor armadnih inženirjev se je po kritiki v Kongresu odločil vključiti v napor za čistočo našega okolja. Na temelju zakona iz leta 1899 zahteva od vseh industrijskih podjetij, da dobe od njega dovoljenje za odvajanje odpadnih voda v plovne reke in jezer.

Pregled zapisnikov je pokazal, da v 23 državah ni bilo izdanih nobenih takih dovoljenj. Med temi državami je tudi Ohio. Zlor armadnih inženirjev, ki je odgovoren za plovne reke, prekopa in jezere, je izjavil, da bo pregled vsa obstoječa dovoljenja za odpadne vode in presodil, ali so v skladu z zakonom o izboljšanju vode iz letosnega leta. Zahteval bo, da se podjetja drže predpisov zakona.

Glavni napor Zbora armadnih inženirjev bo naperjen proti podjetjem, ki se v preteklosti sploh niso pobrigali, da bi dobila dovoljenje za puščanje odpadnih voda v plovne reke in njih pritoke ter v jezeru.

### Shriver prizna odgovornost za sinove težave

WASHINGTON, D.C. — Senator Shriver je dejal, da je vodil sprejeti deli odgovornosti za svojega sina Bobbyja, ki je bil skupaj z bračnico Robertom Kennedyjem pretekel mesec prijeti pri kajenju marijuane. Oba 16 let starata fanta sta moral pred sodiščem, ki pa ju je posvarilo in kot mladostnika odpustilo pogojno za eno leto.

R. S. Shriver priznava, da ima njegova družina zaradi božanstva in sredstev več možnosti poskrbeti za otroke in jih varovati pred skušnjavami in pritski sodobne družbe, kot jih imajo povprečne družine v naši deželi.

### IZRAEL: RAKETE MORAO OD SUEŠKEGA PREKOPIA!

Včeraj je izraelski obrambni minister gen. Moshe Dayan pozval v parlamentu Združene države, naj poskrbe, da bo Egipt umaknil rakete SAM proč od Sueškega prekopa, v katerega bližino jih je postavil nekaj ur po obnovi premirja med Izraelom in Egiptom v nasprotju z določili tega premirja.

JERUZALEM, Izrael. — Obrambni minister gen. Moshe Dayan je včeraj povedal jasno, kar se je preje le šepečalo, da so namreč Egipčani in njihovi sovjetski zaveznički proti določilom premirja, ki je stopilo v veljavno preteklo, nekaj ur potem pripeljali v bližino Sueškega prekopa rakete SAM-2 in SAM-3. Pozval je ZDA, ki so predlog za obnovo premirja stavile in se za njegov sprejem prizadevale, naj poskrbe, da bodo te rakete umaknjene s področja prekopa vsaj 50 km daleč v notranjost, kot je to bilo dogovorjeno. Namignil je precej jasno, da Izrael ne bo preje poslal svojega zastopnika k razgovoru o ureditvi sporov z arabskimi sosedji, ki jih je začel posebni pooblaščenec ZN Gunnar Jarring. Egipt in Jordanija bi rada razgovore začela že prihodnji teden.

Izrael je pristal na začasno premirje šele potem, ko so ZDA sporočile, da imajo od Sovjetske zvezde zagotovilo, da se bo Egipt držal določila, da v času veljavnosti premirja ne sme nobena stran kakorkoli okrepliti svojega vojaškega položaja v pasu 50 km, nekako 32 milj na obe strani Sueškega prekopa. Predsednik Nixon je izraelski vladni jamčil, da se bodo v Egiptu tega določila držali.

Dayan položaj parlamentu. ZDA proučujejo izraelske dokaze o postavitvi raket v prepovedanem pasu in skušajo z lastnimi sredstvi dognati dejanski položaj. Kaj bodo storile, če doženejo, da so rakete dejansko postavili na prepovedano področje obnovi premirja, ko trdi Izrael, da ima dokaze, o tem molčijo. Izrael je med tem precej jasno povedal, da ne bo imenoval svojega zastopnika za razgovore, dokler to vprašanje ne bo razčiščeno. Le kdo naj kaže na pogodbenu, ki je prelomil besedo, ko jo je komaj dobročkal.

Konaj nekaj ur po obnovi premirja v zgodnjih jutranjih urah pretekel soboto so po izraelskih podatkih pripeljali na 30 tovornjakih vsaj 8 naprav za izstreljevanje SAM-2 in SAM-3 rakete in seveda tudi same rakete v prepovedani pas na egiptski strani prekopa. Ena raketen oporišče naj bi bilo manj kot 12 milj od prekopa.

Moshe Dayan je včeraj v izraelskem parlamentu poudaril važnost in praktičen vojaški poskrbeti za otroke in jih varovati pred skušnjavami in pritski sodobne družbe, kot jih imajo povprečne družine v naši deželi.

R. S. Shriver priznava, da ima njegova družina zaradi božanstva in sredstev več možnosti poskrbeti za otroke in jih varovati pred skušnjavami in pritski sodobne družbe, kot jih imajo povprečne družine v naši deželi.

Pinilla je bil v tem pogleđu spremetil. Skušal je zamašiti vsaj glavne luknje podženske revščine, pri tem pa obeta mestni revščini zboljšanje položaja. To sta bila dva vira glasov za njegove kandidatice, ki jih sedanjem rezimom ne bo mogel hitro zamašiti, ako se bo bolj oziral na gospodarsko kot na socialno in prosvetno politiko.

Ne bi bilo slabo, ako bi se naša zunanjaja politika do Kolumbije bolj ozirala na potrebe po dobri socialni in prosvetni politiki in ne samo po gospodarski. Kaj bo pomagalo našim kapitalistom, ako bodo morali na primer po 10 letih gledati, kako jim ta alijoni revolucionarni naslednik Pinille pobere sadove njihovih investicij in njihovega dela.

### Zadnje vesti

DUNAJ, Avstr. — Razgovori oomejiti strategična orožja na Dunaju so bili danes zaključeni. Nadaljevali se bodo 2. novembra v Helsinkih na Finsku.

WASHINGTON, D.C. — Predstavniki doma je včeraj preglasoval predsednikov vetr zavojne in splošne zaostajajo za splošnim napredkom. Tako opazujemo v Kolumbiji znan pojav: brezposelna podženska revščina dere v mestu in prevzema delo za vasko plačo, za seboj pa pušča ne deželi splošno revščino na nekdanjem dnu.

Pinilla je bil v tem pogleđu spremetil. Skušal je zamašiti vsaj glavne luknje podženske revščine, pri tem pa obeta mestni revščini zboljšanje položaja. To sta bila dva vira glasov za njegove kandidatice, ki jih sedanjem rezimom ne bo mogel hitro zamašiti, ako se bo bolj oziral na gospodarsko kot na socialno in prosvetno politiko.

RIM It. — Zadnja od šestorčkov, ki so se rodili pretekli teden Mr. in Mrs. L. Petrone, je ta teden umrla, ker ji je odpovedalo šibko srce. Ostalih pet je umrlo že preje klub naporom zdravnikov, da bi jih rešili.

## MISIJONSKA SREČANJA IN POMENKI

## 14. Kaj je novega?

PRINCETON, N.J. — Ravna telj kitajske katoliške šole Sv. Antonia v Hong Kongu g. Stanko Pavlin, ki je kot salezijanski brat deloval z g. Majcenom v Kunmingu na Kitajskem in kot zakasneli poklic študiral teologijo, sporoča kratko dve veseli novici: "G. Joško Geder je že spet nazaj med nami in v istem zavodu, kot je bil prej. Zdi se, da se mu zdravje ni nič izboljšalo, ampak on si je že lel nazaj v misijone. Na dan sv. Antona sem krstil lepo število gojencev in gojen. Pozdravljam vse prijatelje misijonov. "Misijonar g. Geder je zaradi sladkorne šel lani v domovino. S povratkom na teren je kot mnogi misijonarji pred njimi dokazal, da je misijonska ljubezen silno močna in da misijonar želi živeti in umreti za duše, ki so mu bile zaupane.

Misijonar Andrej Majcen S.D.B. prevzema sredi avgusta novo službeno mesto v Govap, Saigon. O njem objavlja večkrat poročila v AD njegov sobrat, salezijanec dr. Franc Blatnik. Osebno me veže na gospoda Andreja mnogo lepih spominov od leta 1947, ko sem prifral na kitajska tla v provinci Yunnan, se vživiljal v kitajski način življenga, našel v njem očetovskega mentorja in prebil led pri študiju kitajske ob portugalskem učitelju, ki mi ga je dal, g. Fernandez.

Za praznik sv. Vincencija 19. julija mi je poslal napršene podatke za članek, ki ga bom o njem pripravil za AD. K njemu dodaja beseda zahvale, ki želim, da doseže preko njegovih misli vse misijonske sodelavce, saj brez njih sodelovanja in žrtvite bi mu ne mogli pomagati, kot mu dejansko smo, v vseh ozirih: z bogoslovskimi šolniami, sv. mašami in darovi. "Vam, predragi gospod Wolbang, prečasti g. Lenček, želim najlepši praznik velikega svetega Vincencija, mojega preljubega svetnika in Vašega svetega patrona. Velika, neizmerna ljubezen tega svetega moza naj bi bila nam svetla luč, napredovanje ljubezni našega življenga proti Njemu, ki je LJUBEZEN. Ljubezen sv. Vincencija me je že tolkokrat osrečila v teh mojih 35 letih (1935-1970) in misijonarjenja na Kitajskem poprej in sedaj v Vietnamu. Ljubezen je iznajdljiva za vse oblike božjega delovanja, ki ste jo Vi, dragi sinovi velikega svetnika, znali tako lepo, praktično prikazati in gojiti v slovenskih srcih naših dragih misijonskih dobrotnikov. Res, moja najprisrješnja zahvala v moja bratska voščila. Vaš v Srcu Jezusovem, Andrej Majcen." Gospod Andrej, vsi Vaši prijatelji na tem kontinentu se veselimo Vaših uspehov. Molite ob zasajjanju vietnamske Cerkev, da bi vsak dan več naših slovenskih rojakov domete svoje lastno misijonsko poslanstvo življenga.

Usmiljenka sestra Marjeta Mrhar pridno širi misijonsko ljubezen in razumevanje s predavanji po domovini. Na ljubljanskem kolodvoru so jo, ob prihodu na obisk iz Madagaskarja, nepričakovano pozdravili ljubljanski bogoslovi, člani misijonskega odseka. Bila je veselo presenečena. Je to znak božjega duha, ki veje iz teh mladih. Tudi v MZA že lepo sodelujejo.

Na obisk v Slovenijo so odsili letos tudi o. Radko Rudež S.J. iz Zambije, sestra Conradiine Resnik iz Indije, sestra Ana Zidaric iz Čada, g. Ivan Oballa iz Tanzanije. Vsak tak obisk je običajno za utrujenega pionirja potreben, osvežujoč in za zaledje zelo koristen, zaradi predavanj in osebnih stikov. Prinese pa tudi misijonom posebno pomoč, ki je ob srečanjih darova-

Na Madagaskar se za stalno pripravlja lazarist g. Rok Gajšek, ki odhaja tja v jeseni z bogoslovcem Petrom Opeko. Ta je izvedenec v zidanju in bo pogmal zgraditi več potrebnih misijonskih poslopij, nakar se bo vrnil v Ljubljano študirat bogoslovje. Po želji vat. koncila II. bo ta način študijev postal običajen. Tako mlad kandidat praktično vidi, kaj so misijoni in se veliko lažje odloči za odhod v nje za stalno. Čujemo, da želi vsaj 20 mladih usmiljenk iz domovine prostovoljno oditi v misijone. Vse imajo menda kako diplomo, da se takoj lahko lotijo dela v svojem posebnem področju, čim se jezika naučijo.

Molitve za utrditev zdravja so potrebi tudi brat Karel Kerševan C.M. v Kongu, ki ga muči sladkorna bolezen; uršulinka Ksaverija Lesjak v Južni Afriki, s slabim srčem; g. Lovrenc Osnjak v Mozambiku; lazarist Ivan Stanta in zdravnica usmiljenka Justina Rojčevna na Madagaskarju, usmiljenka Marija Andreja Subelj v Čile ter o. Jože Cukale S.J. v Indiji. Dr. Janeža, usmiljenko Zupančičevu in sestro Kalisto smo priporočili

in da misijonar želi živeti in umreti za duše, ki so mu bile zaupane.

In zgodovini misijonarjev so bili tudi mnogi misijonarji pred njimi dokazali, da je misijonska ljubezen silno močna in da misijonar želi živeti in umreti za duše, ki so mu bile zaupane.

# MALENKOSTI

"Ta ženska ima ledeno kri," je premišljevala Marija razdražena. "Res? Bomo videli! Ha, le jezi se...!"

In pravila je Curriti strašne, strašne reči o Jakobu... Paco Velez da ji je vse to pripovedoval prejšnjo noč. Pa molčala je iz vlijnosti. Sedaj pa da mora govoriti, in ker ji je dobra priateljica, si šteje v dolžnost, ki stvar pojasnit... "

"Hudobne! Požeruh!" je krala Currita svoje ribice. "Ne smeš ga ugrizniti! — Si ga vi-del! — Tu imas!"

Nagnila se je nad vodo in rekla:

"Oprosti! Kje, praviš, da sta-nuje tista Francozinja?"

"Saj ti še nisem povedala," je vzkliknila Marija. "Pa ti povem! Stanuje v ulici de Rebollo številka 68., v nekem hotelu. Razumeš! V nekem imenitnem hotelu! Ime ji je... Kako se ji že pravi... Ne spomnim se! Neko čudno ime..."

"Cenče, priateljica, nič drugo ko čenče brezposelnih ljudi!"

Metalna je drobitnice v vodo, pri tem z mrzličnim naporom mislila na ulico de Rebollo, da bi se spomnila, kateri hotel je na številki 68.

"Cenče?" je kriknila Valdiviesova vsa iz sebe. "Cenče naj bi bile tudi, da je odpotoval! S svojim služabnikom, kakor si rekla...!"

"Seve! Kako pa!" je rekla Currita in vrgla vse drobitnice naenkrat v vodo. Cenče, zlobno obrekovan! Niti enega centima si ne zasluzi obrekovanec! Ti si moja priateljica in tebi povem, da je Jakob odšel po opravki v zadavah stranke in da se bo kmalu vrnil... Sedaj pa veš, kaj je na vsem tem!"

"Ah!" se je začudila Marija.

Currita si je oddahnila; ve-dela je naprej, da bo priateljica raztrosila po vsem Madridu to jaž, "zaupno" ji povedano, in bo tako zakrila rano, katero je za-dal njenemu samoljubju Jakobov nagli odhod.

Ob treh je naročila Currita voz in povedala kočijažu Jakobov naslov kakor najbolj vsak-danjo stvar na svetu.

V ulici Alcali je imel Jakob svoje krasno stanovanje. Strežnik, konja, hišna in kuhar, to je bila njegova družina. Blizu stanovanja je imel najete hlevne in v njih štiri angleške konje, tri

# PSST! WANNA BUY A PERFECT AUTOMOBILE?

Shopping for an automobile is a task that sooner or later befalls most adults in America. It can be a happy experience. It can be a traumatic experience. My unusual episode began one afternoon at a new car showroom. It was near noon and most of the salesmen had vacated their stations to grab a bite to eat. As I stood looking over the new cars, a curtain in the back parted and a man came out and sauntered toward me. "Pssst—Hey Bud, you wanna increased leisure activities for the

buy a perfect car? No rattles, squeaks or noises of any kind. This is a real beauty."

"How can you be sure the car is in mint condition with no foreign noises?" I asked, grabbing the bait.

"It was made on a Friday."

"What's that got to do with it?"

"Where you been, Mac, Saudi Arabia?" he asked incredulously. "Haven't you seen this report in 'Time' magazine about in-

American people?" he asked as he pulled out a worn magazine from his pocket and thumbed through the pages to an article which had obviously been referred to before. "It says right here that automobile manufacturers in Detroit are upset because men have been working a couple of weeks then taking a Monday off. With all these regular employees being away from work on a Monday, substitutes and people unfamiliar with the job have to be hired to

fill in the vacancies. Consequently, the cars being made on Mondays are not made as good as those on other days."

"You're trying to tell me you have a car that was not manufactured on a Monday, right? How can you be so sure?"

"Well, you know how Ralph Nader has been after the car makers to produce more safety equipment and insist they print on a window sticker exactly what the car has in accessories, its make, model, and suggested

retail price. Now they have added what day it was made, only it's in code. If you know the code, you know on what day it was made."

"I've never noticed."

"I'll show you on this Wildcat here. See, right on top they have the words, 'F.O.B. Detroit'."

"What's that got to do with it?"

"That's the code—'F.O.B. Detroit'."

"What code?"

"Friday, One Buick."

## OUTLAWING MOONBEAMS

A member of the Merchandise Testing Center of one of the nation's largest retail chain organizations expresses what may seem like heretical thoughts. He observes that a girl will buy a beauty preparation because of "the moonbeams in the jar." She is not interested in "... the imputed merits of hormones, queen bee jelly or plain cold cream."

She is pursuing a dream — a dream of beauty and esteem in the eyes of family, friends and neighbors.

Observes the merchandise expert, "What a pity that our contemporary emphasis on technology applied to all aspects of living tends to crowd out the romance and adventure of shopping. Rarely does a woman buy an Easter bonnet because of essential need for a head covering, and surely at point of purchase her concern is not with weather protection, colorfastness or durability of component parts."

Yet, far from trying to fool the public, merchants of today are trying harder than ever to please customers.

For better or worse, and we all hope for better, it may soon be impossible to buy anything that is not hedged about with full disclosure of all ingredients, labeled with instructions and warnings against misuse, certified and sealed to conform to all laws, rules and regulations and unconditionally guaranteed to be full intrinsic value and totally fool proof."

But, in all of this, the gentleman asks, "Where is there room for the seller of dreams with wares as fragile as butterfly wings?" The answer is obvious. He is being obliterated in a smother of utilitarian regulations.

★ Erie, Pa. — A Boston couple spent two months in jail for selling grass — the common garden variety. Charges for selling marijuana were dropped against 21-year-old Ken Townsend of Boston, his wife, Barbara, 18, and Arlan Crosby of Erie, when police tests showed that "grass" was really grass, and not marijuana. "They were as surprised as the police," Erie County District Attorney William Pfadt said. Pfadt and Detective Capt. Mario Bagnoni blamed a breakdown in police procedure for the error, which was not discovered until an assistant district attorney noticed the lack of an analysis report while preparing the case for trial. A test was ordered. "I was shocked when the officer came and told me the stuff was really grass — the kind of grass we all have in our backyards," Bagnoni said. Why would anybody want to sell crabgrass and dandylions?

## St. Mary's Annual Festival Is Set For August 16

St. Mary's Church in Collinwood is holding its annual Feast Day Festival this weekend on Sunday, Aug. 16.

The committee urges everyone to help the bake stand continue as the best money-making stand. Contribute some home-baked goods. And most importantly, please patronize the stand. The bake sale starts after the 8:00 a.m. Mass and will continue until all is sold.

The main attraction is the big get-together from 3 to 9 p.m. There will be something for the young, the old and for those in-between. It promises to be an unforgettable affair and well worth your while to be there. —Madeline

## Goodwill Answers Three Questions

There are three questions which always come up when groups visit Cleveland Goodwill, the workshop of the handicapped.

The first is: Can anyone shop in a Goodwill store?

The answer to that is: Yes. The handicapped earn wages from the sale of restored materials — clothing, furniture, and household articles. Simply because some stores are located in lower-income areas some people feel that only the less-privileged should shop there. Not so.

The second question: How sanitary are the clothes displayed on the racks?

Most people are surprised to learn that all clothing is carefully processed — mended, laundered, ironed, dry cleaned — before being put on display.

The last question: Who would want old, broken-down furniture?

No one, including Goodwill. In its appeal for furniture — desperately needed, at the moment, Goodwill asks that it be serviceable. Furniture impossible to repair, is not saleable.

Light, Carbon Dioxide Controls Insects--

Two research projects by USDA's Agricultural Research Service aimed at controlling insect pests without chemical pesticides are shown here. Above, a light-choice wheel is used to determine the color and intensity of light which attracts or repels particular insects, as they are released in the darkened center and crawl to the light. Below, insects in the containers are subjected to varying amounts of carbon dioxide. The inert gas kills pests, but leaves no residue and presents no hazard to handlers. Researchers think it is a promising approach to controlling insects in stored grain. USDA Photos

## Hopelessness and despair must be fought In successful return from a heart attack

When a stroke occurs, perhaps the hardest thing the patient must fight is a feeling of hopelessness and despair. Strokes are not hopeless.

In the past ten years, medical research has given us many effective weapons against stroke: new drugs, surgical procedures, and physiotherapeutic methods which can restore muscle function to even severely disabled stroke patients. And the outlook for the future is even brighter, says the Northeast Ohio Chapter of the American Heart Association.

A most important weapon at the service of the stroke patient is his own determination to recover — to strike back at stroke. One good example of how such determination pays off is Louis Pasteur, the French chemist whose numerous contributions literally shaped modern biological science.

During Pasteur's lifetime (1822-1895), practically nothing could be done for the stroke patient except to let Nature take its course. Yet Pasteur lived and worked for 27 years after he had suffered a "big stroke" at the age of 45. What's more, much of his best work was done in this period in which, it is reported, he had another 50 "little strokes."

Refusing to throw in the towel, Pasteur went on to make scientific history as the founder of microbiology and principal architect of the conquest of germ-caused diseases. We honor his memory every time we take a container of pasteurized milk from the refrigerator, or uncork a fine French vintage wine,

## Why are some people better at handling their hard earned money than others?

Why are some people able to handle their money better than others? How can some people with more responsibilities make their money do more for them than other people who have more money and less responsibility, but can't seem to make ends meet? It isn't enough anymore just to say that some people are better managers of money than others. Why are they better managers?

How about our individual chemistry? The individual physical make-up of our brain, isn't this the great deciding factor?

According to theory, there are about 10 billion nerve cells in our brain. They are called neurons. Their function is to transmit impulses of thought and emotion to our brain. Evidently our lifetime experiences of what we see and feel registers through these neurons. We register many thousands of thoughts each day and presumably each one of these thoughts has some bearing on our daily actions which would include, of course, our spending habits.

The obvious answers are no longer acceptable. Too much is known now about the brain and its minute functions to blame the old time logic. We cannot say that he or she manages her money better because they are more thrifty. Or this person or that one is a better saver. This really isn't enough... because it doesn't say why.

It may say how... in other words, these thrifty people may have devised better savings programs or improved purchasing patterns... or budgeting systems... but WHY were they able to do this? Is it enough to say they just did it without probing it in depth? Doesn't thought and emotion enter into it?

And since a great deal is known now about the brain's chemistry, isn't it time to see if this chemistry has some effect on our ability to handle money just as it might have an effect on all of our actions as individuals?

One way to improve your money managing chemistry is to develop a personal financial plan. Such a plan includes a realistic picture of income and of "regular" expenditures. These "regular" expenses (rent, utilities, food, etc.) are really spent before you get your paycheck. The secret of money management success is to set these amounts aside so these needs will be taken care of, and then to plan what to do with whatever is left. If there isn't much left, then the planning job won't be very big—but the less there is left, the more important planning becomes, in terms of family happiness.

Most of us make a money management mistake from time to time, but it is seldom a planned mistake. Usually it is the result of departing from a plan, and doing some impulse buying, or too-hastily signing a credit contract to take advantage of a "fast" bargain. By the next morning we are usually disillusioned with the deal, but stuck with the payments. One solution is to stick to your spending plan.

However, the fact that should be stressed is that in most cases some degree of recovery is possible, and in some there is total recovery. Another fact is that modern medical research will continue to provide new ways and means to help the patient fight stroke.

Discouragement is a common side-effect of stroke, one that sometimes affects the whole family as well as the patient

## How to tie-dye a pretty scarf

New York, N.Y. (NAPS) — A quart of hot water in a glass or enamel pan. Dissolve powder dye as directed on the package.

Use enough dye solution to completely cover scarf to be dyed. Wet the tied scarf, squeeze out the excess moisture, and add to the dye solution. Keep at a simmering temperature while stirring constantly until the desired color is reached. The dyeing time will vary depending on the type of ties and the absorbency of the fabric; usually about 10 minutes will be sufficient.

Experiment and enjoy the fun. Enjoy the satisfaction of wearing your own creation and the compliments you will receive!

To make this scarf, select a fabric of light or pastel color in the size you want. Any washable fabric will do except for some polyesters and acrylics, glass or mineral fibers.

Your scarf can be small square or large, oblong or whatever. The basic idea is to tie off sections of the fabric. When dyed, these sections will remain the original color forming a pattern against the dyed background. Twist the fabric, crumble it, gather it, fold it or form it into a series of loops. Secure the base of each loop, the gathers or crumpled, folded or twisted fabric in several places with tightly wound string or rubber bands.

Prepare the dye solution by mixing 1/4 cup liquid or 1/2 pack powder Rit dye for every

has programs for all types of institutions and all age levels in an organized nationwide effort to provide the most modern methods of money management. Through these organized efforts they are able to keep the credit casualties to a 2 per cent minimum.

The great educational efforts have been a major contribution to the success of our economy.

Rinse again thoroughly under running water until the rinse water runs clear. Drip dry and iron while slightly damp. To make a scarf with more than one dyed color, tie it and dip sections into different dye solutions.

Another way to obtain additional colors is to dye the first time in a light color, add additional ties and dye a deeper color. Always rinse the scarf between dyeing and rinse thoroughly when all dyeing is completed.
