

OUR NEW YEAR WISH

Year 1942 is just around the corner, and as we are getting ready to say goodbye to 1941, we may pause for a few moments and make a few observations.

This community finds itself at the close of 1941 in step with the rest of the Nation in its all-out effort to win the war. Our young men who have been called to the colors are ready for service in defense of the country, while men and women engaged in industries producing the implements of war are buckling down to their task with the knowledge that their effort is just as important for the winning of victory as that of the men on the actual battle front. Individuals and lodges are responding to the call of the Government by buying defense bonds to help the Nation in its determination to furnish the financial sinews necessary for the defeat of foes of freedom.

The Slovene in America do not need to revise their stand by reason of the entry of the United States into actual combat. They do not need to take special steps to convince the public in general that they are loyal citizens of the Republic. Whether born here or abroad, they have always supported the principles of the American way of life and the foreign policy of the Roosevelt administration. If that were possible, the beginning of a new year finds them more determined than ever that the aims of America as interpreted by our great president, Franklin D. Roosevelt, shall become the pattern of life for all freedom-loving peoples of the world.

We realize that many dark hours lie ahead before the final victory is won, but we are ready for any and all sacrifices, in the knowledge that the New Year greeting for happiness would be a meaningless wish if the power of evil and darkness were to triumph.

By all indications, 1942 will be a crucial year in the life of America and the rest of mankind. With firm faith in the eternal values of the democratic way of life, we are looking forward to the day when we shall again be able to say with fervor and conviction: A Happy New Year to You. Let us hope that this will come true before another year rolls around. *VSE*

Liberal Weekly Praises Adamic's Plan for Bringing Democracy to Europe

The foremost American liberal weekly, "The Nation," which is published in New York City, carried a review of Louis Adamic's "Two-Way Passage" in its Dec. 20 issue. The review, written by Rebecca Hourwich Reyer, says:

Louis Adamic has written another book about the nationals who comprise the United States, and as usual he handles his subject with passion and brilliancy. In "Two-Way Passage," however, he also presents a blueprint of what Americans, who are ex-Europeans, can and must do to save Europe from annihilation. As an international strategist Mr. Adamic reflects some of the confusion he ascribes to most current American thought on what must be the role of the United States in the war and in the period that will follow.

Adamic is at his best when he portrays immigrant stock through its conflicting loyalties and its resentment or acceptance of externally imposed inferiority. The chapters on the

When the severe curtailment in furniture and stove manufac-

turing is effected to release those factories for further defense operations the Salvation Army can help Uncle Sam if the

public will give it the outmoded, the surplus items and broken furniture.

The Social Service Center at present is giving about 125 handicapped men and women a great opportunity for rehabilitation. Of this number 85 men are completely cared for at the Center.
