

The U. S. Tories and the New Tariff Bill

By Joseph W. Sharts

The Tories continue their merry war of conquest in the United States. Anyone who imagines that the War of Independence exterminated them in the 18th Century, or that they have merely captured the D. A. R. and Massachusetts since, has missed a most significant move. They have slipped into the new Tariff Bill a joker in the form of an amendment to Section 305.

A curious old forgotten document entitled "The Declaration of Independence," in which the right of the people to rise in armed rebellion and throw off an unsatisfactory government is very forcibly expressed? Or the Constitution of New Hampshire, with these wicked words: "The doctrine of non-resistance against arbitrary power and oppression is absurd, slavish, and destructive of the good and happiness of mankind."

Soo's biggest year

The Soo Co-operative Mercantile Assn. at Sault Ste. Marie, Mich., in spite of the increased competition by the big chain stores, continues to show that co-operative chain stores can make progress also.

hand corner of The Latrobe Bulletin is this item: "The Family Paper prints the news that is fit to print." (Yes, of course, news that are satisfactory to the business interests.)
