NOVI PRISELJENCI

Na temelju posebnega izjemnega zakona je Amerika pripustila v deželo nekaj stotisoč razmeščencev—med njimi morda največ Židov—ki so se ob koncu druge svetovne vojne znašli v raznih taborih zapadne Evrope. Majhen odstotek teh ljudi odpade na Slovence, od katerih jih je prišlo vsaj nekaj stotin tudi v Cleveland. Nedvomno je imela pretežna večina izmed njih po končani vojni priliko, da bi se vrnili domov, a je niso izkoristili, ker so računali—kakor se je izkazalo, pravilno—da ako odklonijo vrnitve, se bo njih zadržanje spremenilo v legitimacijo za vstop v Ameriko.

Jemajoč v obzir čisto človeško plat, je bilo to zadržanje umljivo, kajti, mar ni res, da bi se vsaj polovica prebivalcev kontinentalne Evrope preselila v Ameriko, ako bi jim Amerika odprla vrata?

Ako izvzamemo nekatere znane posameznike, ki so prišli semkaj z gradivnimi idejami o svoji važnosti in si vsekakor predstavljal, da imajo v Ameriki izvršiti neko veliko politično poslanstvo, o čemur nimamo dvoma, da so danes morali radi ali neradi zaključiti, prvič ker niso pozvali duha Amerike, in drugič, ker v tem hitro spreminjačem se svetu ni nič stalnega, da so delali račun brez krčmarja—torej, ako pustimo na stran te—kdo in kakšni so ti novi slovenski priseljenci?

Vsekakor so med njimi nekateri, katerih roke so oškropljene s krvjo svojih bratov Slovencev, ki so v eni najbolj temnih ur v zgodovini slovenskega naroda, ne glede na trenutne politične parole, tvegali vse, da se prepreči dejanska narodna smrt Slovencev, kajti s stališča hladne stvarnosti je pribito in neovrgljivo, da je hitlerjanstvo Slovence kot narod obsodilo na smrt in da bi bilo to svojo odsodo izvršilo z znano germansko temeljitoščjo, ako bi ne bilo orožje narodov, ki so šli v boj proti nacistično-fašistični pošasti, zdobil strahotno vojno mašino, katero je bil zgradil blazni genij Adolfa Hitlerja. Kdo so ti nekateri? Mi ne vemo, in naša naloga ni, da bi raziskovali. Vemo le, da ima vsak človek nekaj, kar se imenuje vest, in da oni, ki imajo ta greh nad seboj, nimajo mirne vesti, in je ne bodo imeli, dokler bodo živel. To je njihova kaznen—strašna kaznen, katero so si sami naložili in katere jih ne more nikdo razbremeniti.

A ostali? Razlikujejo se nedvomno od večine Slovencev, ki smo prihajali v Ameriko enostavno "s trebuhom za kruhom," ker so pač prišli pod drugačnimi razmerami in okolščinami, a razlike gotovo niso tako ogromne, da bi bile nepremostljive. Vsekakor so med njim mnogi, o katerih bi se moglo reči, da so bili žrtve razmer, ki so bile močnejše od njih samih; ki so v razbesenjem orkanu vojne furije pograbili prvo dečico na vidiku, da rešijo svoj goli obstojo, in so zgorj po srečnem naključju končno priplavali v varni pristan velike Amerike. Če njih zadržanje ni bilo junaško, pa se o njem tudi ne more dosti hujšega reči, kakor da spada v okvir povprečnosti, in v luč pravičnosti je treba priznati, da junaštvo je izjemno, povprečnost pa lastnost, ki je delež večine sinov in hčera iz rodu Adama in Eve. To velja tudi za nas, ki smo dobo vojnih strahot preziveli tostran širokega oceana, daleč od borb, v katerih je bila vrednost milijonov človeških bitij—bitij, katerih čustva in potrebe so bile enake našim—enaka ničli. Mar bi bili mi vsi junaki, ako bi nas bila usoda postavila na njih mesta?

Amerika je velika, nepreračunljiva, dinamična. Nekdo je zapisal, da je tukaj Bog dal človeku priliko, da osvobojem zmot in z blod starega sveta, ampak obenem oplojen s kulturnimi vrednotami istega starega sveta, odpre novo poglavje in začne pisati novo in svetlejšo stran v povestnični človeštva. Morda gre za pretiranost, morda je v besedah več romantike in idealizma kakor realnosti. A vendar je nesporno, da Amerika je nov svet ne samo geografsko, temveč tudi idejno, da tukaj se poraja nov tip človeka, nova, svojevrstna družabna forma in neka nova civilizacija. To do dna doumeti in postati zavestni, delavni in lojalni sodelavci v tem velikem eksperimentu, je naloga in poseben privilegij vseh, ki nas je sprejela ta širokogrudna zemlja, v kateri smo vsi priseljenci, kakor je to tako lepo in točno povedal veliki Roosevelt, neglede na čas ali dan našega prihoda.

**V nedeljo bo piknik
št. 39 Sansa**

CLEVELAND, Ohio—Prisodnjeno nedeljo, 26. avgusta bo piknik podružnice št. 39 Sansa, a nedeljo pozneje bo pa velika tri-dnevna proslava Dneva SNPJ na izletniških prostorih SNPJ na Chardon in Heath Rd.

Ker naša podružnica št. 48 v Collinwoodu deluje že od ustavnitve roka v roki z podružnico št. 39 v st. clairskem okrožju, se podpisanimu ne zdi, da bi škodovalo ko bi napisal nekaj besed o njih pikniku. Najprvo naj omenim, da je podružnica št. 39 najbolj aktivna od ustavnitve te organizacije, za njo pride naša collinwoodska podružnica št. 48. Nabralo se je že velikanske vstrekarja za eno ali drugo dobro stvar, za katero so se zavzeli zastopniki društev in drugih

organizacij. Naloge so uspešno završili. Radi tega naj bo na kratko povedano, da je naša dolžnost, da tudi mi podpiramo in pridemo na njih nedeljski piknik na farmi SNPJ, kjer bo za vse prijazno in luštno. Za stare in mlade bo zabave—nekateri bodo plesali, drugi balinali, tretji zopet sedeli v hladni senci in kramljali s prijatelji potem pa hodili okrog potoka in lovili ribice, krite ali žabe. In naše otroke so tudi vsakovrstne igrače. Kar se tiče postrežbe, se pa ni treba prav nič batiti, ker bodo

člani in članice, zastopniki in zastopnice prav dobro skrbeli. Pa tudi sreča bo nevidno hodila med nami. Nekateremu bo mila in ne bo hud nanjo. Torej, pridejte vse in vse v nedeljo na farmo SNPJ, ne bo vam žal!

Kakor sem že zgoraj omenil, bo teden pozneje pa naša velika proslava, ki se prične že v soboto, 1. septembra in se nadaljuje v nedeljo ter zaključuje v pondeljek, 3. septembra. Več o tej proslavi ste že gotovo čitali in več boste še zvedeli prihodnji teden. Za sedaj pa vam vsem klicem: Na svidenje na obeh proslavah!

Belgijski delavski razred pred reakcijo

Politično stanje v Belgiji je nekaj mesecev po odločitvi o vprašanjudaleč od tega, da bi prišlo voditelji Komunistične partije po naročilu iz Moskve zavirajo revolucionarne sile.

Glede kralja storejeni sklep dejansko ne ustreza nobeni izmed sedanjih strank. Ceprav je Leopold III. prenesel kraljevske prerogative na svojega sina Boduina, nima prav nobenega načema odpovedati se prestolu, kakor so upali demokrati. Na drugi strani pa Leopold III. dejansko ne vlada več, kakor so želeli rojalisti. Tako lahko torej sklepamo, da vprašanje kralja v Belgiji ni rešeno in da bodo razprtje prej ali slej znotražna v Sloveniji. Največ ajde se tu pridela v državah New York, Pennsylvania, Maine, West Virginia in Michigan. Večina tu pridelanega aje se porabi za krmivo živine, prasičev in perutnine in le primeroma malo se je predelal v moko in močnate proekte.

Tačas je Leopold III. vabil delavce, kateri ne fašistični značaj je slehernemu očitom. Komaj je ta vlada prevzela oblast, je storila vrsto protidejanskih ukrepov, ki so natele na najostrejšo kritiko. Sklenila je odpustiti iz državne službe vse tiste nameščence, ki bi jih imela za revolucionarne in protidržavne. Ta dekret kaže voljo vlade, da odstrani vse, kar bi jo oviral, da spravi državo pod diktaturo cerkve in višjih finančnih krogov.

V tem boju proti Leopoldovemu fašizmu Komunistična partija Belgije ni odigrala tiste vlog, ki so jo delavce množice pričakovale od nje. Vprašanje kralja je podcenjevala. Vse kaže, da so bili nekateri, njeni voditelji v določenem trenutku celo prepričani, da bi bila vrnitev Leopolda III. (ki je veljala po pravici ali ne za protiameriško demonstracijo) koristna za razširitev akcije, ki jo je Komunistična partija določila Komunistična partija Belgije ni imela v parlamentarni debati o vprašanju krone nobene vloge v veliko presenečenje delovnih množic, ki so pričakovale od Komunistične partije, da bo posredovala v Skupnosti.

V tem boju proti Leopoldovemu fašizmu Komunistična partija Belgije ni odigrala tiste vlog, ki so jo delavce množice pričakovale od nje. Vse kaže, da so bili nekateri, njeni voditelji v določenem trenutku celo prepričani, da bi bila vrantev Leopolda III. (ki je veljala po pravici ali ne za protiameriško demonstracijo) koristna za razširitev akcije, ki jo je Komunistična partija določila Komunistična partija Belgije ni imela v parlamentarni debati o vprašanju krone nobene vloge v veliko presenečenje delovnih množic, ki so pričakovale od Komunistične partije, da bo posredovala v Skupnosti.

Kako reagirajo demokratične množice na tako očitno nevarnost? Razen določene zaostrišči stališča socialnih demokratov in okrepitev teženja za odklonom na levo v belgijski Socijalistični stranki lahko ugotovimo še to, da so krščanski demokrati menda sklenili otresti se jarmu Stranke krščanskih socialistov, s katero so še vedno povezani. Če bi bila pri vsem tem na celu delavskoga razreda, katerega položaj se je poslabšal, močna in dobro organizirana komunistična partija, trdno odločena popeljati za seboj najboljše elemente delavskoga gibanja, bi bilo upravičeno upanje, da bo prišlo do rešilnega ozdravljenja demokratičnih sil.

Zablude in napake, ki jih je storila Komunistična partija Belgije od leta 1944, pa so takšne, da ji je delavski razred zdaj obrnil hrbet.

V času, ko ima Belgija gospodarske težave, ki ogrožajo položaj delavskih množic, Komunistična partija Belgije in njeni voditelji neutrudno nadaljujejo propagando za Stockholmski poziv, za katerega so z največjim trudom komaj zbrali 10,000 podpisov. Organizaciji, ustanovljeni izven okvira partije (Bel-

gijska zveza za obrambo miru in Gibanje žena za mir), nista dosegli nobenega dejanskega vpliva na množice, in sicer zaradi ozkoščnega sekta komunističnih voditeljev, ki so izločili vse tiste, ki se ne strinjajo z ukazi Kominform.

Vodstvo Komunistične partije Belgije se ne zmeni za voljo ljudstva, da bi množice povsem ločeno in odrezano kar naprej odkrito uveljavlja za delavsko enotnost škodljivo politiko, namesto da bi izkoristilo dane okoliščine za zbljanje z levim krom Socialistične stranke. Vodstvo Komunistične partije Belgije odlaga v nedogled toli zahtevani kongres, ker noč stoči pred partijo s poročilom o svojem delu. Dokler pa ne bo sklican kongres, dokler Komunistična partija Belgije ne bo spremenila svojih metod in svoje politike, je malo verjetno, da bi nastale v belgijski notranji politiki zares globoke spremembe.

"Medjunarodna politika."

PO POLJIH CVETE AJDA

Vsi, ki smo se priselili v to deželo iz Slovenije, se spominjam lepote njiv cveteče, medeno duheteče ajde, po kateri je brnelo milijone čebel. V Zedinjenih državah in Canadi se tudi pridejajo mnogo ajde (buckwheat), vendar ta pridelek tu ni toliko pomemben kot v Evropi, posebno v Sloveniji. Največ ajde se tu pridela v državah New York, Pennsylvania, Maine, West Virginia in Michigan. Večina tu pridelanega aje se porabi za krmivo živine, prasičev in perutnine in le primeroma malo se je predelal v moko in močnate proekte.

V Sloveniji je ajda zelo važen poljski pridelek in se marsikje seje za požetim ječmenom ali ržjo, da pičlo odmerjena zemlja producira dvojni pridelek v enem letu. Mi vemo, da kjer je bilo dosti ajdovega kruha in dosti ajdovih žgancev, ni bilo hudega. O cveteli ajdi so pisali že slovenski pesniki kot Valentin Vodnik in Dragotin Kette in tega lepa v koristna rastlina je naša svoje mesto tudi v narodnih popevkah. Pravijo, da je prvotni dom ajde v podolju ob reki Volgi, na obalah Kaspijskega morja in v raznih krajih osrednje Azije.

"Gotovo pošljete denar pod izmišljenim imenom. V posilki omenite Ložniško sedlo ali pa križ, in že bom vedel, od koga prihaja. Dopolne zneske naložim v hranilnici in pomorem z njimi vaši rodbini, kadar koli bo potrebno. Ali imate še kako žeijo?"

Možu pred njim se je tresel glas: "Moja uboga žena gotov ne preživi prodaje naše domačije. Razen stare tete ne bosta imela otroka nikogar na svetu. Prosil bi vas, da se pobrigate za mojo deco, posebno za Lovraka! Poučite ga, svetujte mu, kakšen naj bo..."

"To vam rad obljubim. Kako bo s posestvom, kdo ve? Mnogo bo bržkone odvisno od tega, ali je Miklausin podlegel poškodbam... Morda pa ga le niste tako hudo..."

"Kaj menite, da še živi?" je hlastno vprašal Gradnik.

"Hm, vse je mogoče. Že radi tega mi čim prej sporočite, na kateri naslov vam naj pišem, da vam poučimo v vseh dogodkih, ki se tičejo vas in vaše rodbine."

Med njunim razgovorom se je bila privalila čez ostro obsekane kozjaške skale ogromna, žolta lumina plošča, ki je za nekaj hipov obvisela na skoro črnih vrhovih smrek, jih pozlatila in obžarila, nato pa splavala, okroglednu balonu podobna, višje na nebeški svod. Njeno zlato se je prelivalo v blestečo srebrnino, in mahoma se je vsa gorska pokrajina odela v bledikasto luč, stekano iz svetlobe v teme, skrivnostno in opojno hkrati. Po tleh so se začrtale vijoličaste sence, trepetajoče v nemiru nočnih vetrov.

"Pozno je že, gospod učitelj," se je spomnil Gradnik in mu z negotovo kreniljo prožil svojo desnico. "Hvala vam za vse. Trdno sem prepričan, da boste svojo obljubo izpolnili. Z Bogom, gospod učitelj! Sezite mi v roko, če se vam ne zdi za malo. Hudoben nisem, to mi lahko verjamete..."

Mladi mož mu je krepko stisnil desnico. "Srečno pot! Potuje brez skrb! Kar bo v moji moči, se gotovo zgodidi."

in zahteval, da morajo Grádnika ujeti. Najražši bi ga menda videl bingljati na vislicah..."

Učitelju je odleglo, sam ni vedel, zakaj. Pač, tako je čutil, da ni rad obljubil molčenosti, in da mu je ves čas težila dušo misel na mrtveca, ki je bil, kakor se je zdaj izkazalo, hvala Bogu živ.

"To je dobro, to je tako dobro," je vzkliknil s tako zadovoljnim glasom, da so se vsi začudili.

"Da ga ni ubil, menim," je povabil malec v zadregi. "Smrt je pač vse kaj drugega, kakor telepoškaška."

"No, Miklausin je smrt prizanesla," je pripomnila resno Skalovnikova gospa, "toda Gradnica, ta uboga reva, je zvezčer kjer je imel svojo sobo, nato pa si je premisil in ubral pot proti Belemu dvoru.

(Dalje prihodnji)

bena sodnja bi ga ne bila mogla kaznovati..."

Vsi so mu začeli živahnop oponati, tem bolj, ker je bil nekoč Grádnik član omizja pri Skalovniku. Učitelju se je zdelo, kakor da se ga nekako otepojajo in ga slikejo bolj črno nego je bil v resnici, kot zločinskega in podlega človeka, ki bi ga na orozniči čim prej zatoliti, da bi ne ogrozil mirne doline in njene ne-skrbne spanja. Radi tega se je kmalu naveličal zlagane zamizne modrosti, iz katere je preglasno odmeval sebični strah, da bi tega ali onega kdo ne označil za bivšega begunčevega prijatelja. Oprostivši se, da ga je dolga in težava pot utrudila, se je poslovil in krenil najprej proti šoli, kjer je imel svojo sobo, nato pa si je premisil in ubral pot proti Belemu dvoru.

Zarja Trio Arrive in Jugoslavia

(Continuation)

Incidentally we were more than a little surprised to see a young woman of perhaps 21 at the wheel of the ship! The captain introduced her as Jolanda Gruden, a Slovene student working her last 14 months, studying for an officer's commission! She is one of the loveliest women I have yet seen. Tall, slim, well built, with a lovely natural complexion, and perfect teeth and dark, curling hair, she was the darling of the crew, indeed. The captain, in his jovial, intimate yet respectful way, sniffed the air as we stood near her. He is masculine to the point that he encouraged Jolanda to use cologne or perfume, but she very seriously and shyly brushed off the question, suggesting she had no time for frivolous fancies.

Life was not only pleasant on board the Hrvatska, but our noble and gallant captain brought us adventure on the high seas as well! On Monday, July 2, at about 1:30 p.m., with Jolanda at the wheel, we sighted a ship about a quarter of a mile to the north of our course. As a pastime, we watched to catch her name, to gauge her speed, and we were amazed to find that she was not moving at all! Sailing closer, we saw two black distress signals hanging from her topmost mast. She was totally disabled, drifting helplessly 170 miles from land. What excitement! What speculation on the part of the 36 passengers! What was our captain going to do? We sailed by her, then circled her, gradually decreasing our speed until we were at least $\frac{1}{4}$ mile from her. Sailing closer to her would have been dangerous, since she had no control as to her position, and could easily have drifted into us at the will of the sea. At that distance the two captains communicated via light signals and radio. We learned that the helpless ship was the SS Aurora, manned by a Greek crew, but flying under the flag of Honduras. She had been adrift for 24 hours, having lost her propeller, which left her powerless to move.
